Ticking Clock Ira Rosen,2021-02-16 Two-time Peabody Award-winning writer and producer Ira Rosen reveals the intimate, untold stories of his decades at America's most iconic news show. It's a 60 Minutes story on 60 Minutes itself. When producer Ira Rosen walked into the 60 Minutes offices

in June 1980, he knew he was about to enter television history. His career catapulted him to the heights of TV journalism, breaking some of the most important stories in TV news. But behind the scenes was a war room of clashing producers, anchors, and the most formidable 60 Minutes figure: legendary correspondent Mike Wallace. Based on decades of access and experience, Ira Rosen takes readers behind closed doors to offer an incisive look at the show that invented TV investigative journalism. With surprising humor, charm, and an eye for colorful detail, Rosen delivers an authoritative account of the unforgettable personalities that battled for prestige, credit, and the desire to scoop everyone else in the game. As one of Mike Wallace's top producers, Rosen reveals the interview secrets that made Wallace's work legendary, and the flaring temper that made him infamous. Later, as senior producer of ABC News Primetime Live and 20/20, Rosen exposes the competitive environment among famous colleagues like Diane Sawyer and Barbara Walters, and the power plays between correspondents Chris Wallace, Anderson Cooper, and Chris Cuomo. A master class in how TV news is made, Rosen shows readers how 60 Minutes puts together a story when sources are explosive, unreliable, and even dangerous. From unearthing shocking revelations from inside the Trump White House, to an outrageous proposition from Ghislaine Maxwell, to interviewing gangsters Joe Bonanno and John Gotti Jr., Ira Rosen was behind the scenes of some of 60 Minutes' most sensational stories. Highly entertaining, dishy, and unforgettable, Ticking Clock is a never-before-told account of the most successful news show in American history.

The Clock Shop Richard Ashland, 2006-02 Rikker felt his gut tightening up. After thirty years as an intelligence officer, he always thought six steps ahead of everyone else. He always knew what to expect, and most of the time he was right. He didn't like surprises and avoided them by being better than the other guy. But this was different, he'd been caught off guard, and, he had no idea of what to expect. In the back of his head he could hear Mary's voice saying, 'what if, Charles, what if?' Colonel Charles Rikker is too logical to believe that anything mysterious or dark has entered his life. He's risked his life for countless covert operations, and he has always known the risks involved. But this journey is only a project, a simple trip to find an antique grandfather clock. His mind is as fit as his body, but nothing could prepare Charles for the Emit Levart Clock Shop. The entire world has heard and seen reports of the unexplained deaths of some of the world's most prominent scientists and engineers, and also of America's favorite billionaire. But Charles learns the horrifying truth-only because it came to him in the clock shop. He doesn't know why he has been chosen, but he does know that if he tries to explain the peculiar circumstances, no one will believe him anyway.

Caring on the Clock Mignon Duffy, Amy Armenia, Clare L. Stacey, 2015-01-22 A nurse inserts an I.V. A personal care attendant helps a quadriplegic bathe and get dressed. A nanny reads a bedtime story to soothe a child to sleep. Every day, workers like these provide critical support to some of the most vulnerable members of our society. *Caring on the Clock* provides a wealth of insight into these workers, who take care of our most fundamental needs, often at risk to their own economic and physical well-being. *Caring on the Clock* is the first book to bring together cutting-edge research on a wide range of paid care occupations, and to place the various fields within a comprehensive and comparative framework across occupational boundaries. The book includes twenty-two original

essays by leading researchers across a range of disciplines—including sociology, psychology, social work, and public health. They examine the history of the paid care sector in America, reveal why paid-care work can be both personally fulfilling but also make workers vulnerable to burnout, emotional fatigue, physical injuries, and wage exploitation. Finally, the editors outline many innovative ideas for reform, including top-down and grassroots efforts to improve recognition, remuneration, and mobility for care workers. As America faces a series of challenges to providing care for its citizens, including the many aging baby boomers, this volume offers a wealth of information and insight for policymakers, scholars, advocates, and the general public.
