The Discord of Gods Jenn Lyons,2022-04-26 The Discord of Gods marks the epic conclusion to Jenn Lyons's Chorus of Dragons series, closing out the saga that began with The Ruin of Kings, for fans of Brandon Sanderson and Patrick Rothfuss. THEIR CONFLICT COULD END THEM ALL. Relos Var's final plans to enslave the universe are on the cusp of fruition. He believes there's only one being in existence that might be able to stop him: the demon Xaltorath. As these two masterminds circle each other, neither is paying attention to the third player on the board, Kihrin. Unfortunately, keeping himself classified in the 'pawn' category means Kihrin must pretend to be everything the prophecies threatened he'd become: the destroyer of all, the sun eater, a mindless, remorseless plague upon the land. It also means finding an excuse to not destroy the people he loves (or any of the remaining Immortals) without arousing suspicion. Kihrin's goals are complicated by the fact that not all of his 'act' is one. His intentions may be sincere, but he's still being forced to grapple with the aftereffects of the corrupted magic ritual that twisted both him and the dragons. Worse, he's now tied to a body that is the literal avatar of a star — a form that is becoming increasingly, catastrophically unstable. All of which means he's running out of time. After all, some stars fade — but others explode. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Interdisciplinary Public Health Reasoning and Epidemic Modelling: The Case of Black Death George Christakos,Ricardo A. Olea,Marc L. Serre,Hwa-Lung Yu,Lin-Lin Wang,2006-09-24 This multidisciplinary reference takes the reader through all four major phases of interdisciplinary inquiry: adequate conceptualization, rigorous formulation, substantive interpretation, and innovative implementation. The text introduces a novel synthetic paradigm of public health reasoning and epidemic modelling, and implements it with a study of the infamous 14th century AD Black Death disaster that killed at least one-fourth of the European population.

RuPaul's Drag Race and the Shifting Visibility of Drag Culture Niall Brennan,David Gudelunas,2017-08-25 This book identifies and analyzes the ways in which RuPaul's Drag Race has reshaped the visibility of drag culture in the US and internationally, as well as how the program has changed understandings of reality TV. This edited volume illustrates how drag has become a significant aspect of LGBTQ experience and identity globally through RuPaul's Drag Race, and how the show has reformed a media landscape in which competition and reality itself are understood as given. Taking on lenses addressing race, ethnicity, geographical origin, cultural identity, physicality and body image, and participation in drag culture across the globe, this volume offers critical, non-traditional, and first-hand perspectives on drag culture.

The Solvay Councils and the Birth of Modern Physics Pierre Marage,Grégoire Wallenborn,2013-11-11 FOREWORD This book came about as a result of two events: an exhibition on the Solvay Physics Councils, held in Brussels in May 1995, and a conference on the same theme which took place at the Free University of Brussels (ULB) on May 10th 1995. A book was published in French in conjunction with the exhibition, and much of the present publication is taken from that book. In addition, we have included some of the papers presented at the conference, as we believe they add a further dimension to the history of the Councils. The French term, Conseil Solvay, is usually translated into English as Solvay Conference or Congress. We have elected to retain the particular connotations of the French word Conseil by translating it instead as Council. The Councils were, after all, no ordinary conferences. Only a limited number of participants was invited, hand picked by a scientific committee, who for five to six days took an active part in the sessions and the long discussions that followed. Each day, one or two physicists would present a paper on a subject that had been chosen by the committee to fit in with the overall theme of the Council. The word Conseil expressly implies the gathering of an elite to engage in debate.

Russia and the Low Countries Roger Tavernier,2006 This bibliography contains everything that has been published in the West--except from Russia--about the relations between the Low Countries (Belgium and the Netherlands) and Russia--in every Western language--P. [4] of cover.

The Theory of the Quantum World David Gross, Marc Henneaux, Alexander Sevrin, 2013 Ever since 1911, the Solvay Conferences have shaped modern physics. The 25th edition held in October 2011 in Brussels and chaired by David Gross continued this tradition and celebrated the first centennial of this illustrious series of conferences. The development and applications of quantum mechanics have always been the main threads in the history of the Solvay Conferences, hence the 25th Solvay conference gathered many of the leading figures working on a wide variety of profound problems in physics where quantum mechanical effects play a central role. The conference addressed some of the most pressing open questions in the field of physics. The proceedings contain the OC rapporteur talks OCO which give a broad overview with unique insights by distinguished and renowned scientists. These lectures cover the seven sessions: OC History and Reflections OCO, OC Foundations of Quantum Mechanics and Quantum Computation OCO, OC Control of Quantum Systems OCO, OC Quantum Condensed Matter OCO, OC Particles and Fields OCO, OC Quantum Gravity and String Theory OCO and it ended with a general discussion attempting to arrive at a synthesis. In the Solvay tradition, the proceedings also include the prepared comments to the rapporteur talks. The discussions among the participants OCO some of which quite lively and involving dramatically divergent points of view OCO have been carefully edited and are reproduced in full.

Educational Research: Ethics, Social Justice, and Funding Dynamics Paul Smeyers, Marc Depaepe, 2018-03-22 This book examines the conduct and purposes of educational research. It looks at values of researchers, at whose interests are served by the research, and the inclusion or exclusion of practitioners and subjects of research. It asks if educational research should be explicitly committed to promoting equality and inclusion, and whether that requires research to be more aware of the cultural and global contexts of research questions. It explores the ethical challenges encountered in the conduct of research and the potential ethical and social justice constraints imposed by comparative research rankings. Next, it discusses the research funding aspects of the above issues both philosophically and historically, thus examining the changing sources, patterns, and effects of educational research funding over time. Since the conduct of most educational research increasingly requires institutional and financial support, the question is whether funding shapes the content of research, and what counts as research. The book discusses if funding is a factor in the shift of efforts of researchers from pure or basic research to more applied research, and if it encourages the development of large research teams, to the detriment of individual scholars. It looks at the ownership of the content, results, and data of publicly funded research. Finally, it tries to establish whether scholars solicit funding to support research projects, or generate research projects to attract funding. This publication, as well as the ones that are mentioned in the preliminary pages of this work, were realized by the Research Community Philosophy and History of the Discipline of Education: Purposes, Projects, and Practices of Educational Research.

Agricultural and Pastoral Landscapes in Pre-Industrial Society Fèlix Retamero, Inge Schjellerup, Althea Davies, 2014-12-01 Through a series of case studies, this third volume in the Earth series deals with the technological constraints and innovations that enabled societies to survive and thrive across a range of environmental conditions. The contributions are structured into three sections to draw out particular commonalities and contrasts in the choices made by pre-industrial communities in the construction of varied landscapes and cultural heritage: Landnam, from the Old Norse for 'taking of land', deals with colonisation, including the drivers and processes through which colonisers developed an understanding of the productive potential and limitations of their new lands. Fields and field systems: Field-walls are a distinctive and apparently timeless characteristic of many pre-industrial farming landscapes but they present many the challenges to their study, such as the effects of ploughing, abandonment and land-use change and of urban development in fertile lowland zones which may eradicate, reduce or conceal past systems of land-use and division. The importance of indirect and proxy evidence is illustrated and the value of interdisciplinary and modelling approaches emphasised. Agro-pastoralism: focuses on the complex 'time-space adaptations' devised for managing cultivation and livestock production, particularly the need to prevent stock incursions into arable fields during the growing season whilst making effective use of seasonal grazing resources.

The contributions focus on mountainous areas, where temporary migrations, in the form of transhumance, provided access to a diversity of resources based around seasonal constraints on their availability and productivity.

Absolute DC: the New Frontier 15th Anniversary Edition Darwyn Cooke,2019 Welcome to the DC Universe in 1950s America -- a land of promise and paranoia, of glittering cities and segregated slums, of dizzying scientific progress and simmering Cold War conflict. A land without the Justice League--Superman, Batman and Wonder Woman. Or so it seems. Celebrate the 15th anniversary of Darwyn Cooke's retro-styled masterpiece in a new Absolute format. The masked mystery men who fought for freedom in the Second World War have been outlawed. The soldiers and spies who conducted top-secret missions into the unknown now work in the shadows. And those icons who do still fight on -- Superman, Wonder Woman, Batman -- operate under hidden agendas and dueling ideologies. Yet this America needs its heroes more than ever. With darkness gathering on the horizon once more, only a bold new generation of adventurers -- young, daring, and dedicated to the better angels of our nature -- is equal to the challenge of the New Frontier. From Eisner Award-winning writer-artist Darwyn Cooke and Eisner Award-winning colorist Dave Stewart comes DC: The New Frontier-- a timeless tale of idealism that has become one of the most acclaimed superhero comics of the 21st century. This edition collects the original 6-issue miniseries together with the Justice League: New Frontier Special, and features over 50 pages of designs, sketches and preliminary artwork from the author.

Anodyne Khadijah Queen,2020-08-18 Colorado Book Awards Finalist for Poetry Shortlisted for the Reading the West Poetry Book Award The poems that make up *Anodyne* consider the small moments that enrapture us alongside the daily threats of cataclysm. Formally dynamic and searingly personal, *Anodyne* asks us to recognize the echoes of history that litter the landscape of our bodies as we navigate a complex terrain of survival and longing. With an intimate and multivocal dexterity, these poems acknowledge the simultaneous existence of joy and devastation, knowledge and ignorance, grief and love, endurance and failure—all of the contrast and serendipity that comes with the experience of being human. If the body is a world, or a metaphor for the world, for what disappears and what remains, for what we feel and what we cover up, then how do we balance fate and choice, pleasure and pain? Through a combination of formal lyrics, delicate experiments, sharp rants, musical litany, and moments of wit that uplift and unsettle, Queen's poems show us the terrible consequences and stunning miracles of how we choose to live.

The Wanderers Richard Price,1999-04-15 The “extraordinary” novel of a teenage gang in the 1960s Bronx, by the New York Times–bestselling author of *Clockers* and *The Whites* (Newsweek). The basis for the feature film, *The Wanderers* tells the story of teenagers on the streets of New York City, coming of age and drifting apart. Tormented by cold-hearted girls and cold-blooded ten-year-olds, maniacal rivals and murderous parents, they are caught between juveniles and adults in a gritty novel filled with “switchblade prose” and “dialogue [that] has the immediacy of overheard subway conversation”—from an award-winning author renowned for his writing on HBO’s *The Wire* and *The Night Of*, as well as such modern-day classics as *Lush Life* and *Bloodbrothers* (Newsweek). “A kind of

teenage Godfather with its own tight structure of morality, loyalty, survival, and reprisal.” —Los Angeles Free Press “The flip side of American Graffiti . . . an amalgam of sex, violence, and humor, glued together with superb dialogue and unsentimental sensitivity.” —Rolling Stone “A superbly written book . . . insights that allow us—at times force us—to feel closer to other human beings whether we like and approve of them or not.” —The New York Times Book Review

Millennium People: A Novel J. G. Ballard, 2011-07-18 The most cosmically elegiac writer in literature . . . no one reading Ballard could doubt the tidal gravity of his intellect. —Jonathan Lethem, New York Times Book Review Violent rebellion comes to London’s middle classes in this “fascinating” (San Francisco Chronicle) novel from the same author of Crash and Empire of the Sun. Never more timely, Millennium People “seeks to illuminate our hearts of darkness while undermining our assumptions about what literature is meant to do” (Los Angeles Times).
