Great Expectations Jonathan Skinner,Dimitrios Theodossopoulos,2011-10-30 The negotiation of expectations in tourism is a complex and dynamic process – one that is central to the imagination of cultural difference. Expectations not only affect the lives and experiences of tourists, but also their hosts, and play an important part in the success or failure of the overall tourism experience. It is for this reason, the authors argue, that special attention should be given to how expectations constitute and sustain tourism. The case studies presented here explore what fuels the desires to visit particular places, to what degree expectations inform the experience of the place, and the frequent disjunctions between tourist expectations and experiences. Careful attention is paid to how the imagination of the visitor inspires the imagination of the host, and vice-versa; how tourists and host communities actively imagine, re-imagine, and shape each other's lives. This realization, has profound consequences, not solely for academic analysis, but for all those who participate in and work within the tourism industry.

**Creativity in the Classroom** Alane J. Starko,2010 The fourth edition of this well-known text continues the mission of its predecessors – to help teachers link creativity research and theory to the everyday activities of classroom teaching. Part I (chs 1-5) includes information on models and theories of creativity, characteristics of creative people, and talent development. Part II (chapters 6-10) includes strategies explicitly designed to teach creative thinking, to weave creative thinking into content area instruction, and to organize basic classroom activities (grouping, lesson planning, assessment, motivation and classroom organization) in ways that support students' creativity. Changes in this Edition: Improved Organization -- This edition has been reorganized from 8 to 10 chapters allowing the presentation of theoretical material in clearer, more manageable chunks. New Material – In addition to general updating, there are more examples involving middle and secondary school teaching, more examples linking creativity to technology, new information on the misdiagnosis of creative students as ADHD, and more material on cross-cultural concepts of creativity, collaborative creativity, and linking creativity to state standards. Pedagogy & Design – Chapter-opening vignettes, within-chapter reflection questions and activities, sample lesson ideas from real teachers, and end-of-chapter journaling activities help readers adapt content to their own teaching situations. Also, a larger trim makes the layout more open and appealing and a single end-of-book reference section makes referencing easier. Targeted specifically to educators (but useful to others), this book is suitable for any course that deals wholly or partly with creativity in teaching, teaching the gifted and talented, or teaching thinking and problem solving. Such courses are variously found in departments of special education, early childhood education, curriculum and instruction, or educational psychology.

*Creativity in the Classroom* Alane Jordan Starko,2013-10-01 Creativity in the Classroom, Fifth Edition, helps teachers apply up-to-date research on creativity to their everyday classroom practice. Early chapters explore theories of creativity and talent development, while later chapters focus on practice, providing plentiful real-world applications— from strategies designed to teach creative thinking to

guidelines for teaching core content in ways that support student creativity. Attention is also given to classroom organization, motivation, and assessment. New to this edition: • Common Core State Standards—Updated coverage includes guidelines for teaching for creativity within a culture of educational standards. • Technology—Each chapter now includes tips for teaching with technology in ways that support creativity. • Assessment—A new, full chapter on assessment provides strategies for assessing creativity and ideas for classroom assessment that support creativity. • Creativity in the Classroom Models—New graphics highlight the relationships among creativity, learning for understanding, and motivation. The 5th edition of this well-loved text continues in the tradition of its predecessors, providing both theoretical and practical material that will be useful to teachers for years to come.

**Life's a Journey - Destination, Imagination** Myrna Brooks Bercovitch,2008-08-01 By the author - From my vantage point, as an artist, (the ultimate observer) I see into my soul. I see a constantly changing world. I see it as complex images in tune with my inner being. I feel in a 'pas de deux' (so to speak) My inner rhythms connect with visual and emotional stimuli and I respond - in my behavior and in my art pieces to the vibrations. The works - a reflection of my inner responses. Colors mirror my emotional reactions, they are my emotional reply. Textures (common to all my works) express even deeper thoughts, overlapping tendencies to refer to fleeting ideas and details. We all see them. I like to note them as layers in my thought process. My own way of working has become comfortable. Collage, painting, drawing, and printing, alone or combined, my way. To fulfill a need within I feel fortunate that I am able to share my thoughts silently. My attempt to Pass on some insight or emotion. Our noisy planet is burdened by many impositions. Therefore this silent contribution is a solitude I like to share with whoever is sensitive and who is ever seeking to find it!

Assessment and Teaching of 21st Century Skills Esther Care, Patrick Griffin, Mark Wilson, 2017-11-07 This book provides a detailed description of research and application outcomes from the Assessment and Teaching of 21st Century Skills project, which explored a framework for understanding the nature of these skills. The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems. The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest. This focus is informed by conceptual and methodological issues associated with affordances of 21st century computer-based assessment. How understanding of the nature of the skills, as derived from these assessments, can guide approaches to the integration of 21st century skills in the classroom, is informed by initiatives adopted by participating countries. The guiding questions in this volume are: Do the assessment tasks measure the constructs? and What are the implications for assessment and teaching in the classroom? It is the third volume of papers from this project published by Springer.

**Live Like You Give a Damn!** Tom Sine, 2016-04-05 *Live Like You Give a Damn!* declares the very good news that God is raising up a new generation, largely outside the church, to bring impressive change to the lives of our neighbors locally and globally by creating innovative forms of social enterprise and community empowerment. The even better news is that those of us within the church can join this changemaking celebration and discover creative new ways God can use our mustard seeds to make a more remarkable difference than we ever imagined possible. In this book Tom Sine offers practical ways you can join those who are creating their best communities, their best world, and in the process their best lives. Sine shows that in a world changing at warp speed, following Jesus is a design opportunity. It is not only an opportunity to design innovative ways to make a difference but also an opportunity to create lives with a difference, in the way of Jesus, that are simpler and more sustainable--and to throw better parties along the way. The Case Suit Kelly Anne Manuel, 2022-08-11 “The Case Suit” was born as a poem and remains so in this newly minted Book Seven of Kelly Anne Manuel’s *Childhood Classics*. In this story the Child is invited on a journey where packing an imaginary suit case brings new meaning and adventure. It is a game for the Child to engage in with “Pretend” as a character who is always available to join them. “The Case Suit” offers a standing invitation to the Child. The Child will be invited to investigate what the narrator chooses to pack and travel with to any destination imagination can create. The destination is open ended so the Child will participate with curiosity and play. The Child has unlimited freedom to decide, dream, and explore, while traveling along with the narrator. The simple words take on new meaning as the illustrations pair perfectly with their presentation. There is a mix of practical and fantastical elements to visually stimulate curiosity. This active engagement in imagination results in a world rich with creativity for the Child. The Child will be ignited

with dreamy possibilities as all manner of images leap off the pages. Children are naturally drawn to stories of journey and adventure. This story provides a balance of structure and a springboard for the Child to be a part of the action. It is a game that can be played at any place and time for entertainment and discussion. This is a story that the author hopes will be enjoyed with humor while considering everything the Child can dream of to pack in their own case suit. It is in Early Childhood that futures are being constructed. "The Case Suit" is a tool in a Caregiver's toolbox to assist with that healthy formation. The idea that practicality can be set aside while ushering in a world of imagination is a theme the author embraces. The Child who reads this book will benefit from the freedom to dream up any destination with all their Case Suit can hold and more.

Destination Branding Nigel Morgan,Annette Pritchard,Roger Pride,2007-06-07 In today's highly competitive market, many destinations - from individual resorts to countries - are adopting branding techniques similar to those used by 'Coca Cola', 'Nike' and 'Sony' in an effort to differentiate their identities and to emphasize the uniqueness of their product. By focusing on a range of global case studies, Destination Branding demonstrates that the adoption of a highly targeted, consumer research-based, multi-agency 'mood branding' initiative leads to success every time.
