Why did Anticorruption Policy Fail? Roby Arya Brata, 2014-09-01 This book examines the cases of implementation failure of the Indonesian Anticorruption Law 1971 of the authoritarian New Order regime, and of the Anticorruption Law 1999 of the democratic Reform Order regime. It investigates to what extent and for what reasons the implementation of these Laws failed to attain the policy objectives of eradicating corruption in the public sector under the two different political systems. The book concludes that combating corruption in a developing country undergoing political transition from an authoritarian to a democratic political system is problematic and difficult. When corruption has systematically infected and distorted the institutional structures and processes of the government, in particular the law enforcement mechanisms, implementing anticorruption laws is expected to be suboptimal and subsequently fail. To overcome this problem, the factors contributing to the policy implementation failure must be eliminated.

Digital Indonesia Edwin Jurriens, 2018-02-14 This book places Indonesia at the forefront of the global debate about the impact of 'disruptive' digital technologies. Digital technology is fast becoming the core of life, work, culture and identity. Yet, while the number of Indonesians using the Internet has followed the upward global trend, some groups e; the poor, the elderly, women, the less well-educated, people living in remote communities; are disadvantaged. This interdisciplinary collection of essays by leading researchers and scholars, as well as e-governance and e-commerce insiders, examines the impact of digitalisation on the media industry, governance, commerce, informal sector employment, education, cybercrime, terrorism, religion, artistic and cultural expression, and much more. It presents groundbreaking analysis of the impact of digitalisation in one of the world's most diverse, geographically vast nations. In weighing arguments about the opportunities and challenges presented by digitalisation, it puts the very idea of a technological 'revolution' into critical perspective.

Dialektika Digital Agus Sudibyo,2022-03-21 Dialektika Digital: Kolaborasi dan Kompetisi Antara Media Massa dan Platform Digital memotret keadaan faktual hubungan penerbit (media massa cetak, radio, televisi, dan media siber) dengan platform digital (media sosial, mesin pencari, agregator, situs e-commerce, dan lain-lain). Kedua belah pihak berkolaborasi dalam mewujudkan mode baru bermedia, berkomunikasi, dan berpariwara secara lebih efektif, namun sekaligus bersaing keras dalam memperebutkan khalayak, kue iklan, dan pengaruh sosial politik. Transformasi digital adalah sebuah keniscayaan bagi semua pengelola media konvensional. Menolaknya sama sekali tidaklah realistis. Demikian juga, menggunakan berbagai teknologi, perangkat, dan aplikasi penunjang yang disediakan platform digital adalah hal yang sulit dihindari. Namun transformasi itu—juga adopsi atas berbagai teknologi distribusi konten dan periklanan—membuat banyak media semakin kehilangan kemandirian dan kekuatan untuk menjangkau khalayak. Transformasi digital memberikan banyak pilihan dan kemungkinan baru, namun sekaligus menghasilkan kemerosotan dan ketertinggalan. Platform digital bukan sekadar perantara pendistribusian konten, melainkan juga menciptakan ekosistem yang membuat pendistribusian konten itu—mau tak mau—mesti mengikuti aturan main yang diciptakan sendiri. Kolaborasi sekaligus kompetisi yang terjadi antara penerbit dan platform digital masih akan terus terjadi serta menentukan masa depan industri media massa dan iklim kebebasan pers secara keseluruhan.

Indonesia in the New World Arianto A. Patunru,Mari Pangestu,M Chatib Basri,2018-05-30 Globalisation is more complex than ever. The effects of the global financial crisis and increased inequality have spurred anti-globalisation sentiment in many countries and encouraged the adoption of populist and inward-looking policies. This has led to some surprising results: Duterte, Brexit and Trump, to name a few. In Indonesia, the disappointment with globalisation has led to rising protectionism, a rejection of foreign interference in the name of nationalism, and economic policies dominated by calls for self-sufficiency. Meanwhile, human trafficking and the abuse of migrant workers show the dark side of globalisation. In this volume, leading experts explore key issues around globalisation, nationalism and sovereignty in Indonesia. Topics include the history of Indonesia's engagement with the world, Indonesia's stance on the South China Sea and the re-emergence of nationalism. The book also examines the impact of globalisation on poverty and inequality, labour markets and people, especially women.

Visual Media in Indonesia Edwin Jurriëns,2017-02-24 In the age of digital communication and global capitalism, people's mental, social and natural environments are interconnected in complex and often unpredictable ways. This book focuses on the visual media, one of the key factors in shaping the contemporary ecology of colliding environments. Case-studies include video artists, community media activists, television programme makers and literary

authors in the fourth most populous country in the world, Indonesia. The author demonstrates that these actors are part of an international creative and social vanguard that reflect on, criticise and rework the multidimensional impact of the visual media in imaginative and innovative ways. Their work explores alternative and more sustainable presents and futures for Indonesia and the world. This research is urgent and timely, as Indonesia has emerged in recent years as one of the world's most vibrant hubs for contemporary art and media experimentation. Using an innovative interdisciplinary framework of visual culture analysis that derives from a wide range of academic fields, the book will be of interest to academics in the field of Southeast Asian Studies, Media Studies, Cultural Studies and Art History, Anthropology and Sociology.

The Indonesian Presidency Angus McIntyre, 2005 This important study elevates the personalities of Sukarno and Soeharto into key explanatory factors for the character of their Guided Democracy and New Order regimes, respectively. The broad shift since 1998 from personal to constitutional rule has its personal counterpoint in the relationship between Megawati and her father, which makes this unique blend of history and biography a powerful tool for understanding the Indonesian presidency.--Jacket.

ICSSSED 2020 Muhammad Nur Sa'ban, Benni Setiawan, Danu Eko Agustinova, Sutanto Trijuni Putro, Robbi Rahim, 2020-11-04 The theme of the conference is Reconstructing Morals, Education, and Social Sciences for Achieving Sustainable Development Goals. This theme was formulated due to several considerations. First, the symptoms of moral decline that have the potential to destroy the nation. Morals guide humanity towards truth and civilization. The phenomenon of the dehumanization process in the industrial era that pushed people to be part of abstract societies tends to ignore humanity. The education process as a humanitarian system is increasingly marginalized, especially during discussions about the industrial revolution 4.0 and Society 5.0. The conference placed six sub-themes for speakers and participants to share ideas, namely: Social Sciences and Laws, History and Cultural Studies, Interdisciplinary Studies, Morals and Humanities, Policy, Politics, and Communication, Education. The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.
