Radio Hitler Nathan Morley, 2021-06-15 The first in-depth look at German home service radio stations during WW2, this is a fascinating insight into how the Nazi war machine sought to shape public opinion at home and abroad. Based on original research and unlimited access of German archives, Radio Hitler is an important new addition to the literature surrounding Nazi Germany.

Pleasure and Power in Nazi Germany P. Swett, C. Ross, F. d'Almeida, 2011-04-12 Although we associate the Third Reich above all with suffering, pain and fear, pleasure played a central role in its social and cultural dynamics. This book explores the relationship between the rationing of pleasures as

a means of political stabilization and the pressure on the Nazi regime to cater to popular cultural expectations.

Rautavaara's Journey in Music Barbara Blanchard Hong,2022-07-12 Einojuhani Rautavaara, one of the most prolific composers of modern times, has been called Finland's most notable musical export after Sibelius. This biography discusses his life and works, showing his various style changes

throughout his lifetime; it includes detailed information of stylistic analysis, libretto, provenance, and, often, reception.

*Modern transfer of cultures considering as example of a german radio-homepage* Tanja

Kasper, 2006-08-02 Seminar paper from the year 2005 in the subject Sociology - Culture, Technology, Peoples / Nations, grade: 1,7, University of Vaasa, course: Transfer in Literature and the Media, 0 entries in the bibliography, language: English, abstract: Is it possible to transfer the basics about another culture in 724 words? Or if not, what else can be gained? This shall be an essay to explore in which way different cultures present each other in modern times, illustrated on the basis of a German homepage presenting several information about Finland. The very popular german radio station EINS LIVE publishes this page. The choice was made because it's so popular, it applies one of the most modern information ways and present an interesting composition of the information. Furthermore one can assume that these information are relative important for the future image of Finland in Germany,

because the target group of this radiostation is the generation between 14-30 and therefore the future generation of a more and more accreting Europe. First of all there will be given some more necessary information about the analysed homepage and its publisher. Afterwards, every topic will be analysed which and in which way information is given. Finally it should be tried to reflect why this choice was made. That means the way in which the performing culture influences the choice and how far this gives information about the illustrated culture. The final aim here is to draw conclusions how transfer of a culture works or is practiced in modern Media and times.

**Berlin Diary** William L. Shirer, 2002-05-28 By the acclaimed journalist and bestselling author of *The Rise and Fall of the Third Reich*, this day-by-day, eyewitness account of the momentous events leading up to World War II in Europe is now available in a new paperback edition. CBS radio broadcaster William L. Shirer was virtually unknown in 1940 when he decided there might be a book in the diary he had kept in Europe during the 1930s—specifically those sections dealing with the collapse of the European democracies and the rise of Nazi Germany. *Berlin Diary* first appeared in 1941, and the timing was perfect. The energy, the passion, the electricity in it were palpable. The book was an instant success, and it became the frame of reference against which thoughtful Americans judged the rush of events in Europe. It exactly matched journalist to event: the right reporter at the right place at

the right time. It stood, and still stands, as so few books have ever done—a pure act of journalistic witness.
