Introduction to Maldives Gilad James, PhD, The Maldives is a sovereign island nation located in the Indian Ocean. It is made up of 26 atolls, which are chains of islands, and hundreds of individual islands. The Maldives is known for its stunning natural beauty and crystal-clear waters, making it a popular destination for tourists seeking a tropical getaway. The Maldives has a long and interesting history, with evidence of human habitation dating back to 500 BC. It was ruled by various dynasties and empires, including the Portuguese and the British, before gaining independence in 1965. Today, the Maldives is a republic with a president as the head of state and a multi-party system. Its economy is heavily reliant on tourism, with the industry contributing to over a third of the country's GDP. However, the Maldives also faces challenges such as environmental degradation and political instability.

Diverse Early Childhood Education Policies and Practices Amita Gupta, 2014-04-29 Diverse Early Childhood Education Policies and Practices explores issues in early childhood education and teacher preparation in five Asian countries: India, Singapore, China, Sri Lanka, and the Maldives. Some observed classrooms in these countries reflect influences that are simultaneously indigenous and colonial, local and global. By highlighting the diverse and often hybrid classroom pedagogies at work in these 21st century Asian classrooms, the discussions in this book take into consideration the influence of globalization on local policies and practices, and the challenge educators face when they are expected to reconcile different and sometimes conflicting cultural and pedagogical world views. Through a research-driven analysis of key issues such as recent revisions to national early childhood education policies, perceptions on play-based and child-centered pedagogy, curriculum and learning materials, and an emphasis on the teaching of values, this book illuminates the diversity of the observed classrooms as well as current trends in early childhood education in parts of Asia. The cross-national perspective serves to expand and diversify the global discourse of early childhood education and teacher education.

Islam and Democracy in the Maldives Azim Zahir, 2021-11-29 This book examines Islam's relationship to democratization in the Indian Ocean nation of the Maldives. It explores how and why an electoral democracy based in a constitution that has many liberal features but also Islam-based limitations, especially lack of religious freedom, emerged in the country by 2009. In doing so, the book interrogates a major approach to Muslim politics that assumes reformist interpretations of Islam are a positive, and even a necessary, force for liberalization and democratization in Muslim-majority contexts. This book shows reformist Islam did play certain positive roles in democratization in the Maldives. However, the book suggests reformist Islam may not be an invariably uncontroversial force in the space of politics. It argues that modern nation building in the Maldives shaped by political actors with reformist Islamic orientations, since around the 1930s, has also completely transformed Islam as a modern institutional and discursive political religion. These transformations of Islam as a modern political religion have existed as path-dependent constraints on the depth of democratization, ensuring religion-based limitations and intensifying controversy over religion vis-à-vis the state and individual rights. An original empirical contribution towards a better understanding of Islam and politics in the Maldives, this book will be of interest to academics and students working on democracy, and Islam in particular, and in the fields of political science and area studies, especially South Asian politics.

Dhivehi Raajje Adrian Neville, 2003

Constitutional Foundings in South Asia Kevin YL Tan, Ridwanul Hoque, 2021-01-28 This volume addresses the idea of origins, how things are formed, and how they relate to their present and future in terms of 'constitution-making' which is a continuous process in South Asian states. It examines the drafting,

nature, core values and roles of the first modern constitutions during the founding of the eight modern nation-states in South Asia. The book looks at the constitutions of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka. It provides an explanatory description of the process and substantive inputs in the making of the first constitutions of these nations; it sets out to analyse the internal and external (including intra-regional) forces surrounding the making of these constitutions; and it sets out theoretical constructions of models to conceptualise the nature and role of the first constitutions (including constituent documents) in the founding of the modern nation-states and their subsequent impact on state-building in the region.

Exploring Multilingualism and Multiscriptism in Written Artefacts Szilvia Sövegjártó,Márton Vér,2024-05-06 This book explores multilingualism and multiscriptism in a great variety of writing cultures, offering an in-depth analysis of how diverse languages and scripts seamlessly intertwine within written artefacts. Insights into scribal practices are particularly illuminating in that respect, especially when exploring artefacts originating from multicultural communities and regions where distinct writing traditions intersect. The influence of multilingualism and multiscriptism on these writing cultures becomes evident, with essays spanning various domains, from the mundane aspects of everyday life to the realms of scholarship and political propaganda. Scholars often relegate these phenomena, despite being frequently encountered, to the status of exceptions compared to the more prevalent monolingualism and monoscriptism. However, in daring to challenge this viewpoint, this book emphasises the profound significance and relevance of multilingualism and multiscriptism in shaping the development of languages, cultures, and societies across Asia, Africa, and Europe. It caters to a diverse readership keen on delving into the intricacies of these phenomena within this rich tapestry of writing cultures.

The Routledge Encyclopedia of Modern Asian Educators Shin'ichi Suzuki,Gary McCulloch,Mingyuan Gu,Parimala V. Rao, Ji-Yeon Hong,2021-06-29 This handbook is a unique and major resource on modern educators of Asia and their contribution to Asian educational development through the 19th and 20th centuries when modernization started in Asia. In one comprehensive volume, this handbook covers a selection of modern educators from East Asia, South Asia, and Southeast Asia – and their contributions to the development of modern education, practically and theoretically. The diversity of cultures and religion as well as the multilinguistic and ethnic context have made Asian modernization unique and complex. Educational modernization in Asia reflected this historical context in many ways and resulted in the

diverse forms of learning, teaching, institutions, and administration. Modern Asian educators compiled in this handbook represent various fields of Asian society: not only educational but cultural and social fields like academia, politics, economics, religion, literature, theatre, fine arts, and civic genres including the media. Through this Handbook, readers may discover the individual modern educators, male and female, and their contributions to Asian educational modernization. All of them were committed to the cause of education for children, youth, adults and in particular women. In addition, this volume has an extraordinarily rich subject index which can be an excellent guide and introduction to information touching divergent dynamics of educational developments in modern Asia. This insightful volume is perfect for students and researchers working on history of education, comparative education and educational development, particularly for those interested in Asian contexts.

The Holy Qur'an ,2000 The Holy Qur'an is the Word of God whose truth was revealed to Muhammad by the Angel Gabriel. It is divided into 14 Suras or chapters, and was traditionally transmitted by word of mouth.

THE DIVINE SYSTEM Iman Omeed Khan MD,2015-06-19

The history of Islam as the faith of God has been buried and lost to antiquity, but the message in the Quran has been gaining renewed visibility as both a very negative and as a positive influence.

In spite of its growing visibility, there are baffling issues, as with all “religions”, whether the individual, in reality, adheres to the tenets of the Quran and the Faith. There is clearly a phenomenal misunderstanding prevalent about Islam and the Quran.

The author undertook a serious study of the Quran over several years and dispassionately stresses the importance and relevance of the text to contemporary times where heated arguments persist as to which is the “better”/true religion.

The author presents direct quotes from the Quran and provides explanations thereof based on textual commentaries and her personal understanding with the sincere hope that those who are interested in knowing the basic facts in the Quran get a clearer understanding of this preserved word of God.

Library and Information Science Trends and Research Amanda Spink,Diljit Singh,2012-01-16 This book draws out and examines the trends in education and research in the field of library and information science (LIS) in the vast Asia-Oceania region. Information is an important part of the human condition and critical to the development of the Asia-Oceania region. The book is timely, therefore, as the region continues to grow and develop.

Going to School in South Asia Amita Gupta,2007-02-28 Afghanistan is one of many South Asian countries appearing in daily headlines, as it attempts to rebuild its society, including its educational system, after decades of war. Sri Lanka, devastated by the tsunami of 2004, and parts of Pakistan and Northern India, coping with the aftereffects of a major earthquake, are also struggling for teachers, classrooms, supplies, and a sense of normalcy for their students. This volume, part of the Schooling Around the World series, provides readers with a history and survey of education in eight of the region's countries. It examines the Primary, Secondary, and Postsecondary levels of education, identifying the types of education available (public, private, tutoring, etc), any race, gender or social class issues that impact education, and major reforms taking place. Readers will find discussions of curriculum and teaching methods most helpful, as well as a special day in the life feature, which gives a personal look at what it's like for students attending school in that country today.

Educational Leadership and Asian Culture Peng Liu,Lei Mee Thien,2023-08-11 Providing a window on educational leadership from an Asian cultural perspective, Liu and Thien's edited collection describes

how educational leadership is linked with national culture in the context of different Asian countries. While much of the scholarship on this topic has been built on Western paradigms, this book examines the measurement of school leadership from a diverse lens by taking cultural context into account while examining educational leadership. Drawing on cross-cultural perspectives, the authors investigate the relationship between leadership for learning and societal culture, in addition to the relationship between leadership style and culture. The text provides a theoretical basis for understanding leadership in the context of Asian countries, and offers practical suggestions for identifying effective, and culturally sensitive leadership practices in similar cultural contexts. An excellent resource for graduate students, researchers in comparative education, educational practitioners looking to improve their education practices, and anyone interested in cultural leadership practices.
