The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

To Save China, To Save Ourselves Renqiu Yu, 2011-02-07 Combining archival research in Chinese language sources with oral history interviews,

Renqiu Yu examines the Chinese Hand Laundry Alliance (CHLA), an organization that originated in 1933 to help Chinese laundry workers break their isolation in American society. Yu brings to life the men who labored in New York laundries, depicting their meager existence, their struggles against discrimination and exploitation, and their dreams of returning to China. The persistent efforts of the CHLA succeeded in changing the workers' status in American society and improving the image of the Chinese among the American public. Yu is especially concerned with the political activities of the CHLA, which was founded in reaction to proposed New York City legislation that would have put the Chinese laundries out of business. When the conservative Chinese social organization could not help the launderers, they broke with tradition and created their own organization. Not only did the CHLA defeat the legislative requirements that would have closed them down, but their people's diplomacy won American support for China during its war with Japan. The CHLA staged a campaign in the 1930s and 40s which took as its slogan, To Save China, To Save Ourselves. Focusing on this campaign, Yu also examines the complex relationship between the democratically oriented CHLA and the Chinese American left in the 1930s.
