Gambling and Gender Deborah K. Phillips, Vicki A. Wilson, 2009 There are two distinct strands in the literature on gambling: one that focuses on how to play and win the various games of chance and one that focuses on gambling compulsion and addiction. Gambling and Gender forges a new direction, studying gambling as more communication than compulsion, more recreation than deviance, more sociology than psychology. Within that framework it seeks to explore several aspects of gender: How do the gambling behaviors of men and women differ? How have women adapted to and/or changed the historically male dominance of the gambling arena? What gambling activities have women claimed as their own and used to develop uniquely female relationships? How have recent trends in technology and mass media changed the ways in which men and women claim – or reject – their gender identities? The authors use a variety of research strategies, including content analysis, survey research, interviews, and participative observation, to shed new light on this fascinating subject and to suggest ways to explore it further.

Slot Smarts Claude Halcombe, 1996 This book offers hard-and-fast rules of play that casinos do not pass along to their patrons.

Addiction by Design Natasha Dow Schüll, 2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue

mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems--all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

The West Side Kids in the Space Aliens Are Coming David Dorris, Michael Boblit, 2022-10-05 The book, *The West Side Kids in The Space Aliens Are Coming, The Space Aliens Are Coming*, by David Dorris and co-author Michael Boblit, is about mystery, comedy, genies, and space aliens, who are mischievous and threatening to Earth. Casino Gambling J. Edward Crowder, 2006 SURVIVE THE CASINO AND HAVE FUN! Casino gambling is the fastest growth industry in the U.S. As more and more states enact legalized gambling regulations in the pursuit of tax revenue, so there are more and more gamblers that are lured to casinos for entertainment and the chance to win big bucks. About 99 percent of gamblers lose money in the long run, unfortunately, and some become so addicted to gambling that they lose their homes, cars, friends and sometimes families. Dr. Crowder takes a look at the casino milieu, dangers and temptations lurking there, personality and emotional differences that impact gambling behavior, the effects of alcohol and prescribed and street drugs on gambling, how slot machines work, and the odds of winning and losing at available games. This is primarily a How To book: How to keep from losing your shirt, How to avoid crime and cheating, How to get your share of the billion or so dollars casinos give to gamblers each year, and How to play the most generous casino
