Earth Force Shemer Kuznits, 2019-04-30 On the first day, a mist descended from the heavens blanketing Earth. On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began... There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

Cat in the Dark Shirley Rousseau Murphy, 2009-10-13 Of course I worry. What if the cops witness a cat opening a skylight and masterminding a robbery? The tabloids will love it. There's a new pair of thieves in Molena Point, California, a renegade yellow-eyed tomcat with a cold disdain for the law, and a scruffy human partner who is no better. The two, clever and silent at their work, are bad news indeed to crime-solving cats Joe Grey and Dulcie. But when Joe learns the pair's connection to a good friend, and then an innocent couple turns up dead in the library garden, Joe and Dulcie must engage in some fancy paw work to unmask the deceptions and route the real killer -- before his brazen criminal crime spree careens madly toward them.

The Missing Cuckoo Clock Lynda Beauregard, 2014-08-01 There's a new kid at Camp Dakota! It's Megan's first year, and all she can think about is riding horses. But gravity seems to be getting in the way of all the campers' fun, from the stables to the beach. Then the big cuckoo clock in the main cabin goes missing. Who would take a cuckoo clock? Can the campers use the weighty facts they've learned to solve the mystery of where it went—and why? Look in the back of the book for experiments and more to help you become a science detective too!
