Steel Drums and Steelbands Angela Smith, 2012-06-07 Steel Drums and Steelbands: A History is a vivid account of the events that led to the "accidental" invention of the steel drum: the only acoustic musical instrument invented in the 20th century. Angela Smith walks readers through the evolution of the steel drum from an object of scorn and tool of violence to one of the most studied, performed, and appreciated musical instruments today. Smith explores the development of the modern steelband, from its roots in African slavery in early Trinidad to the vast array of experiments in technological innovation and to the current explosion of steelbands in American schools. The book offers insights directly from major contributors of the steelband movement with sections devoted exclusively to pioneers and innovators. Drawing on seven years of research, repeated trips to the birthplace of the steel drum, Trinidad, and interviews with steelband pioneers, Smith takes readers far beyond the sunny associations of the steel drum with island vacations, cruise ships, and multiple encores of "Yellow Bird." Digging deep into Trinidad's history—a tale of indigenous extermination and African slavery, of French settlement and Spanish and British colonialism before mid-century independence—Smith weaves an unforgettable narrative of talking drums, kalinda stick fights, bamboo bands, iron bands, calypso, Carnival, and the U. S. military. Together, all played major roles in the evolution of today's steelband and in the panman's journey from renegade to hero in the steelband's move from the panyards of Trinidad's poorest neighborhoods to the world's most prestigious concert halls. The reader will discover how an instrument created by teenage boys, descendants of African slaves, became a world musical phenomena. Steel Drums and Steelbands is the ideal introduction to the steel drum, steelbands, and their history.

Steelpan in Education Andrew Martin, Ray Funk, Jeannine Remy, 2017-11-15 Founded by Al O'Connor in 1973, the steelband program at Northern Illinois University was the first of its kind in the United States. Thanks to the talent and dedication of O'Connor, Cliff Alexis, Liam Teague, Yuko Asada, and a plethora of NIU students and staff members, the program has flourished into one of the most important in the world. Having welcomed a variety of distinguished guest artists and traveled to perform in locales around the US and in Taiwan, Trinidad, and South Korea, the NIU Steelband has achieved international acclaim as a successful and unique university world music program. This fascinating history of the NIU Steelband traces the evolution of the program and engages with broader issues relating to the development of steelband and world music ensembles in the American university system. In addition to investigating its past, Steelpan in Education looks to the future of the NIU Steelband, exploring how it attracts and trains new generations of elite musicians who continue to push the boundaries of the steelpan. This study will appeal to musicians, music educators, ethnomusicologists, and fans of the NIU Steelband.

Secrets of the Steelpan Dr. Anthony Achong, 2013-09-30 This book describes a truly remarkable musical instrument „o the Steelpan (Pan) „o a melodic percussion instrument that produces tones of immense beauty. This instrument is the National Instrument of the twin islands of Trinidad and Tobago. The concepts, the ideas, the theories, the physics and the mathematics contained in this

book are the answers to the question the author asked himself as a little boy peering over the face of a ping pong steelpan, ¿how does it work?¿ Revealed, are the subtleties and secrets of the instrument¿s operation, its laws, its construction and details of its tuning. Contained herein is the information sought by pan musicians, pan makers, panists, pan researchers and ¿pan lovers¿, o nothing is left out. The rigor of the analytical methods of this book matches, in depth and intensity, the expert craftsmanship of the Master Pan Maker and Tuner. There is a unifying force within this book that combines the stick-note impacts to the panist¿s creativity in his production of musical tones. This book doesn¿t dodge the difficult questions; it ends with a chapter on the exotic non-musical features of the steelpan.

From Tin Pan to TASPO Kim Johnson,2011 From its first appearance in 1939 with a group of men knocking on pots and pans to the 1951 Trinidad All-Steel Percussion Orchestra (TASPO), steelband has fascinated the world. Relying largely on oral histories, this work investigates and documents the different technical, musical and organizational steps by which the steelband movement was born and grew to maturity. This study is a radical break with the approach to cultural creativity in general and music of the African diaspora in particular, emphasizing the role of individual agency, microsociology and aesthetic values. This contrasts with the ¿resistance? school of thought, which views music as an automatic reaction to oppression rather than a deliberate attempt to satisfy aesthetic needs and impulses. The minute biographical and psychological details provide a unique theory of creolization and chart its relationship to African retentions, based on empirical data. This authoritative study will appeal to both the general reader interested in the origins of steelband and to scholars concerned with the creolization of African and European cultures and Caribbean creativity.

The Steelband Movement Stephen Stuempfle,1995 The Steelband Movement examines the dramatic transformation of pan from a Carnival street music into a national art and symbol in Trinidad and Tobago. By focusing on pan as a cultural process, Stephen Stuempfle demonstrates how the struggles and achievements of the steelband movement parallel the problems and successes of

building a nation. Stuenkel explores the history of the steelband from its emergence around 1940 as an assemblage of diverse metal containers to today's immense orchestra of high-precision instruments with bell-like tones. Drawing on interviews with different generations of pan musicians (including the earliest), a wide array of archival material, and field observations, the author traces the growth of the movement in the context of the grass-roots uprisings of the 1930s and 1940s, the American presence in Trinidad in World War II, the nationalist movement of the postwar period, the aftermath of independence from Britain in 1962, the Black Power protests and the oil boom of the 1970s, and the recession of recent years. The Steelband Movement suggests that the history of pan has involved a series of negotiations between different ethnic groups, socioeconomic classes, and social organizations, all of which have attempted to define and use the music according to their own values and interests. This drama provides a window into the ways in which Trinidadians have constructed various visions of a national identity.
