God Jerry Martin,2016-03-17 The voice announced, I am God. For Jerry Martin, that encounter began a personal, intellectual, and spiritual adventure. He had not believed in God. He was a philosopher, trained to be skeptical-- to doubt everything. So his first question was: Is this really God talking? There were other urgent questions: What will my wife think? Why would God want to talk to me? Does God want me to do something? He began asking all the questions about life and death and ultimate things to which he--and all of us--have sought answers: Love and loss. Happiness and suffering. Good and evil. Death and the afterlife. The world's religions. The ways God communicates with us. How to live in harmony with God. God: An Autobiography tells the story of these mind-opening conversations with God.Jerry L. Martin was raised in a Christian home. By the time he left college, he was not a believer. But he was interested in the big questions and so he studied the great thinkers. He became a philosophy professor and served as head of the philosophy department at the University of Colorado at Boulder and of the National Endowment for the Humanities. In addition to scholarly articles on epistemology, the philosophy of mind, and public policy, he wrote reports on education that received national attention and was invited to testify before Congress. He stepped down from that career to write this book.

The Remote Sensing of Tropospheric Composition from Space John P. Burrows,Ulrich Platt,Peter Borrell,2011-01-15 The impact of anthropogenic activities on our atmospheric environment is of growing public concern and satellite-based techniques now provide an essential component of observational strategies on regional and global scales. The purpose of this book is to summarise the state of the art in the field in general, while describing both key techniques and findings in particular. It opens with an historical perspective of the field together with the basic principles of remote sensing from space. Three chapters follow on the techniques and on the solutions to the problems associated with the various spectral regions in which observations are made. The particular challenges posed by aerosols and clouds are covered in the next two chapters. Of special importance is the accuracy and reliability of remote sensing data and these issues are covered in a chapter on validation. The final section of the book is concerned with the exploitation of data, with chapters on observational aspects, which includes both individual and synergistic studies, and on the comparison of global and regional observations with chemical transport and climate models and the added value that the interaction brings to both. The book concludes with scientific needs and likely future developments in the field, and the necessary actions to be taken if we are to have the global observation system that the Earth needs in its present, deteriorating state. The appendices provide a comprehensive list of satellite instruments, global representations of some ancillary data such as fire counts and light pollution, a list of abbreviations and acronyms, and a set of colourful timelines indicating the satellite coverage of tropospheric composition in the foreseeable future. Altogether, this book will be a timely reference and overview for anyone working at the interface of environmental, atmospheric and space sciences.

Evangelical and Frontier Mission Beth Snodderly,A. Scott Moreau,2011 Description: The centennial celebrations of the Edinburgh 1910 conference offered Christians of all stripes multiple opportunities to reflect on the past century of mission. Over the course of the twentieth century one of the stories of the church that has moved towards center stage is the growth of evangelicalism around the world. While certainly until the late 1980s this went largely unnoticed among the academic elite of the world, even so by then the vast majority of the missionaries serving to and from every corner of the globe were framed in some way by this evangelical surge. As we reflect on the past century, then, the stories of the evangelical world church deserve to be heard. Endorsements: This extraordinary compendium documents and illustrates the movement from what Edinburgh 1910 designated as 'unoccupied fields' to what R. Winter strategically designated as 'unreached people groups' thus repioneering frontier missiology focused on 'finishing the task.' Peter Kuzmic This important volume demonstrates that, 100 years after the World Missionary Conference in Edinburgh, Evangelicalism has become truly global. Twenty-first-century Evangelicalism continues to focus on frontier mission, but significantly, and in the spirit of Edinburgh 1910, it also has re-engaged social action. Pentecostalism exhibits a similar direction, and these characteristics (global reach, frontier focus, social engagement) point to a vibrant future for both movements. At the same time, however, the essays in this volume present a cautionary tale of overstating goals and plans as they relate to proclamation and development. Todd Johnson, Associate Professor of Global Christianity, Gordon-Conwell Theological Seminary About the Contributor(s): Beth Snodderly is President of William Carey International University in Pasadena, California, Vice President of the Southwest Region of the Evangelical Missiological Society, and became editor of the World Christian Foundations degree study program following the death of Ralph D. Winter. Scott Moreau is Professor of Intercultural Studies and Missions at Wheaton College. He is Editor of Evangelical Missions quarterly and General Editor of the Encountering Mission Series. He has written or edited more than a dozen books and numerous articles in journals, magazines, dictionaries and Web sites.

Language, Society and Power Annabelle Mooney,Jean Stilwell Peccei,Suzanne LaBelle,Berit Engøy Henriksen,Eva Eppler,Anthea Irwin,Pia Pichler,Siân Preece,Satori Soden,2010-12-14 Language, Society and Power is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme South Park and satirical news website The Onion new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' – giving readers suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

Dictionary of the c Inscriptions (2 vols) Hoftijzer,Karel Jongeling,2015-11-02 The North-West Semitic epigraphic contributes considerably to our understanding of the Old Testament and of the Ugaritic texts and to our knowledge of the North-West Semitic languages as such. This dictionary is concerned with the North-West Semitic material found in inscriptions, papyri and ostraca in Phoenician, Punic, Hebrew, various forms of Aramaic, Ammonite, Edomite, the language of Deir Alla et cetera. The material covers the period from ca. 1000 B.C. to ca. 300 A.D. Besides translations, the entries include discussions and full references to scholarly literature. The book is a translated, updated and considerably augmented edition of Jean & Hoftijzer, Dictionnaire des inscriptions sémitiques de l'ouest. The additions concern newly found texts as well as references to new scholarly literature. The book is an indispensable tool for research in North-West Semitic epigraphy, on the Old Testament and on Ugaritic texts, and for Semitic linguistics. Please note that this version is an unrevised reprint of the original version published in 1995.

Katherine Dunham Joanna Dee Das,2017-05-23 One of the most important dance artists of the twentieth century, dancer and choreographer Katherine Dunham (1909-2006) created works that thrilled audiences the world over. As an African American woman, she broke barriers of race and gender, most notably as the founder of an important dance company that toured the United States, Latin America, Europe, Asia, and Australia for several decades. Through both her company and her schools, she influenced generations of performers for years to come, from Alvin Ailey to Marlon Brando to Eartha Kitt. Dunham was also one of the first choreographers to conduct anthropological research about dance and translate her findings for the theatrical stage. Katherine Dunham: Dance and the African Diaspora makes the argument that Dunham was more than a dancer-she was an intellectual and activist committed to using dance to fight for racial justice. Dunham saw dance as a tool of liberation, as a way for people of African descent to reclaim their history and forge a new future. She put her theories into motion not only through performance, but also through education, scholarship, travel, and choices about her own life. Author Joanna Dee Das examines how Dunham struggled to balance artistic dreams, personal desires, economic needs, and political commitments in the face of racism and sexism. The book analyzes Dunham's multiple spheres of engagement, assessing her dance performances as a form of black feminist protest while also presenting new material about her schools in New York and East St. Louis, her work in Haiti, and her network of interlocutors that included figures as diverse as ballet choreographer George Balanchine and Senegalese president Léopold Sédar Senghor. It traces Dunham's influence over the course of several decades from the New Negro Movement of the 1920s to the Black Power Movement of the late 1960s and beyond. By drawing on a vast, never-utilized trove of archival materials along with oral histories, choreographic analysis, and embodied research, Katherine Dunham: Dance and the African Diaspora offers new insight about how this remarkable woman built political solidarity through the arts.

Swami Vivekananda: A Historical Review Dr. R. C. Majumdar,2016-06-13 Among the many biographies of Swami Vivekananda, the present book has a place of special importance, as it is a historical review of the great life and contribution of the Swami by one whose scrutiny of facts, analysis of events and unbiased search for truth won him a place of honour among the eminent historians of the twentieth century. In this book published by Advaita Ashrama, a publication house of Ramakrishna Math, Belur Math, India, the author has deliberately avoided discussions on mystic experiences and philosophical ideas of the Swami and has portrayed him purely on historical lines.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for

his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
