**Vita Viri Clarissimi Et Famosissimi Kyriaci Anconitani** Francesco Scalamonti, 1996 Montana Disasters is real-life thriller. It will leave you with the breathless sense of how it feels to be caught in mining catastrophes, flash floods, train wrecks, and more. It will expose you to the sorrow and elation of victims' friends and families. Taut with the fury of calamities and the courageous efforts of men and women to save lives, Montana Disasters takes you to the scenes where the forces of nature and humans wreaked havoc.

Cicero's De consulatu and Marius Marcus Tullius Cicero, William Withers Ewbank, 1978 This book argues there is much to admire in Cicero's translations from Homer, from Greek tragedy and especially from the Phaenomena of Aratus which influenced Virgil's use of that poem in the Georgics.

**The History of Alexander the Great** Pseudo-Callisthenes, 1889 This 1889 book is an edition of the Syriac version of a text on the life of Alexander the Great.

**Seneca the Elder and His Rediscovered ›Historiae ab initio bellorum civilium‹** Maria Chiara Scappaticcio, 2020-06-08 The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's Historiae. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the Historiae of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's Historiae greatly contribute.

*Ovid, Metamorphoses, 3.511-733* Ingo Zissos Andrew Gildenhard, 2020-10-09 This extract from Ovid's 'Theban History' recounts the confrontation of Pentheus, king of Thebes, with his divine cousin, Bacchus, the god of wine. Notwithstanding the warnings of the seer Tiresias and the cautionary tale of a character Acoetes (perhaps Bacchus in disguise), who tells of how the god once transformed a group of blasphemous sailors into dolphins, Pentheus refuses to acknowledge the divinity of Bacchus or allow his worship at

Thebes. Enraged, yet curious to witness the orgiastic rites of the nascent cult, Pentheus conceals himself in a grove on Mt. Cithaeron near the locus of the ceremonies. But in the course of the rites he is spotted by the female participants who rush upon him in a delusional frenzy, his mother and sisters in the vanguard, and tear him limb from limb. The episode abounds in themes of abiding interest, not least the clash between the authoritarian personality of Pentheus, who embodies 'law and order', masculine prowess, and the martial ethos of his city, and Bacchus, a somewhat effeminate god of orgiastic excess, who revels in the delusional and the deceptive, the transgression of boundaries, and the blurring of gender distinctions. This course book offers a wide-ranging introduction, the original Latin text, study aids with vocabulary, and an extensive commentary. Designed to stretch and stimulate readers, Gildenhard and Zissos's incisive commentary will be of particular interest to students of Latin at AS and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Ovid's poetry and discussion of the most recent scholarly thought. **Looking Reality in the Eye** Museums Association of Saskatchewan, 2005 Museums are often stereotyped as dusty storage facilities for ancient artefacts considered important by only a handful of scholars. Recently there has been effort on the part of some museumologists to reconsider the role and responsibilities of museums, art galleries and science centres as integral social institutions in their communities. The book attempts to point the way towards a sustainable future for museums by examining institutions that have found creative ways to attain a socially responsive model for cultural resource management. Accessible and engaging, the articles presented here are an excellent starting point for any discussion on what museums have been and what they should strive to be.

**The Religion of the Etruscans** Nancy Thomson de Grummond, Erika Simon, 2009-04-20 Devotion to religion was the distinguishing characteristic of the Etruscan people, the most powerful civilization of Italy in the Archaic period. From a very early date, Etruscan religion spread its influence into Roman society, especially with the practice of divination. The Etruscan priest Spurinna, to give a well-known example, warned Caesar to beware the Ides of March. Yet despite the importance of religion in Etruscan life, there are relatively few modern comprehensive studies of Etruscan religion, and none in English. This volume seeks to fill that deficiency by bringing together essays by leading scholars that collectively provide a state-of-the-art overview of religion in ancient Etruria. The eight essays in this book cover all of the most important topics in Etruscan religion, including the Etruscan pantheon and the roles of the gods, the roles of

priests and divinatory practices, votive rituals, liturgical literature, sacred spaces and temples, and burial and the afterlife. In addition to the essays, the book contains valuable supporting materials, including the first English translation of an Etruscan Brontoscopic Calendar (which guided priests in making divinations), Greek and Latin sources about Etruscan religion (in the original language and English translation), and a glossary. Nearly 150 black and white photographs and drawings illustrate surviving Etruscan artifacts and inscriptions, as well as temple floor plans and reconstructions.
