ENTRAPMENT - DREAM Mohamed Yasar,2017-01-01 Revealing a controversial novel about Tun Dr. Mahathir Bin Mohamad. Find out untold story that hidden through breaking the secret code set in it. Within each story there is a thread of truth, something to be drawn out and learned. Costs of Democracy Devesh Kapur, Milan Vaishnav, 2018-06-13 One of the most troubling critiques of contemporary democracy is the inability of representative governments to regulate the deluge of money in politics. If it is impossible to conceive of democracies without elections, it is equally impractical to imagine elections without money. *Costs of Democracy* is an exhaustive, ground-breaking study of money in Indian politics that opens readers' eyes to the opaque and enigmatic ways in which money flows through the political veins of the world's largest democracy. Through original, in-depth investigation—drawing from extensive fieldwork on political campaigns, pioneering surveys, and innovative data analysis—the contributors in this volume uncover the institutional and regulatory contexts governing the torrent of money in politics; the sources of political finance; the reasons for such large spending; and how money flows, influences, and interacts with different tiers of government. The book raises uncomfortable questions about whether the flood of money risks washing away electoral democracy itself.

The Politics of Heritage from Madras to Chennai Mary E. Hancock, 2008-10-29 In this anthropological history, Mary E. Hancock examines the politics of public memory in the southern Indian city of Chennai. Once a colonial port, Chennai is now poised to become a center for India's new economy of information technology, export processing, and back-office services. State and local governments promote tourism and a heritage-conscious cityscape to make Chennai a recognizable brand among investment and travel destinations. Using a range of textual, visual, architectural, and ethnographic sources, Hancock grapples with the question of how people in Chennai remember and represent their past, considering the political and economic contexts and implications of those memory practices. Working from specific sites, including a historic district created around an ancient Hindu temple, a living history museum, neo-traditional and vernacular architecture, and political memorials, Hancock examines the spatialization of memory under the conditions of neoliberalism.
