Winning Your Case With Graphics A. Tana Kantor, 1998-09-29 In an era where complex litigation is fast becoming the rule, not the exception, *Winning Your Case With Graphics* provides a clear methodology for designing and organizing visual exhibits for courtroom presentation. This unique, easy-to-read book contains illustrations that show how to solve numerous problems in the presentation of demonstrative or forensic evidence. Examples from case studies show attorneys the wide variety of design and media choices currently used in courtrooms. AN ESSENTIAL PART OF A WINNING COURTROOM STRATEGY Topics addressed include ways to focus and keep audience attention; how to explain difficult concepts to a lay audience; a practical primer on understanding animation, video, graphs, and illustrations; and appropriate uses of modern technology such as multimedia and on-screen navigation. A valuable addition to any litigator or litigation support specialist's arsenal of communication tools: Attorneys, paralegals, legal secretaries, and other litigation support specialists will find this an essential handbook for providing compelling, memorable visual evidence and for expanding their creativity in planning courtroom strategy. ABOUT THE AUTHOR: A. Tana Kantor, a multimedia specialist and award-winning designer with a master's degree in communications, has over nine years experience creating courtroom graphics and animations. At LSI Graphic Evidence in Los Angeles, she helped pioneer the use of modern technology and design to describe complex processes in the courtroom. She has also consulted with major video graphics equipment manufacturers on product and software design.

Document Image Processing for Scanning and Printing Ilia V. Safonov, Ilya V. Kurilin, Michael N. Rychagov, Ekaterina V. Tolstaya, 2019-03-25 This book continues first one of the same authors "Adaptive Image Processing Algorithms for Printing" and presents methods and software solutions for copying and scanning various types of documents by conventional office equipment, offering techniques for correction of distortions and enhancement of scanned documents; techniques for automatic cropping and de-skew; approaches for segmentation of text and picture regions; documents classifiers; approach for vectorization of symbols by approximation of their contour by curves; methods for optimal compression of scanned documents, algorithm for stitching parts of large originals; copy-protection methods by microprinting and embedding of hidden information to hardcopy; algorithmic approach for toner saving. In addition, method for integral printing is considered. Described techniques operate in automatic mode thanks to machine learning or ingenious heuristics. Most the techniques presented have a low computational complexity and memory consumption due to

they were designed for firmware of embedded systems or software drivers. The book reflects the authors' practical experience in algorithm development for industrial R&D.

Introduction to the Smart Court System-of-Systems Engineering Project of China Jianfeng Xu,Fuhui Sun,Qiwei Chen,2022-06-30 This book discusses the overall development and use of smart courts from the perspective of system-of-systems engineering (SoSE) and its methodology, analyzes the relationships between the components, structures, environments, and functions of various systems, and illustrates the basic approaches to system design, specification, integration, operation and management. As the general introductory book of the China Smart Court Development Series, this book provides an overview of the development of Chinese people's courts in the application of information technology over the past two decades and outlines the key areas of exploration in the Smart Court SoSe project centered on the development practices during the 13th Five-Year Plan period. It also forecasts the future development and evolution of the smart court information system. The key topics introduced in the book, including the overall design of complex information systems, integrated interconnection networks-based system integration, judicial big data quality control and analytics services, various types of AI-enabled judicial services, quality and efficiency-oriented operation and maintenance services for large-scale information systems, etc., all came from the basic research of information science and theories, as well as the systems engineering practices of the Smart Court SoSe project. They not only reflect the latest findings on systems engineering and architecture methods in China and overseas, but also reveal many innovative approaches to SoSE methods and paradigms, which can be used for the design and continued development of smart courts at a new and higher starting point. It is believed that they can also serve as good examples and reference points for the development in IT application and complex information systems engineering in other sectors.

Integration of Practice-Oriented Knowledge Technology: Trends and Prospectives Madjid Fathi,2012-12-14 The Scientific Network of Integrated Systems, Design and Technology (ISDT) is an initiative that has been established to respond industrial needs for integration of "Knowledge Technology (KT) with multi- and inter-disciplinary applications. In particular the objective of ISDT is to incorporate multilateral engineering disciplines i.e. Composite-, Automotive-, Industrial- , Control- and Micro-Electronics Engineering, and derive knowledge for design and development of innovative product and services. In this context, the discourse of KT is established to address effective use of Knowledge Management, Semantic Technology, Information Systems and Software Engineering towards evolution of adaptive and intelligent systems for industrial applications. This carefully edited book presents the results of the latest ISDT meeting with special involvement of leading researchers and industries whose contributions are presented in the book chapters. This book consists of three main chapters namely: · Chapter 1: Applied Knowledge Management in Practice · Chapter 2: Semantic Technologies for Industrial Management and Process Controlling · Chapter 3: Knowledge Driven Approaches for Product Engineering Each article presents a unique in-progress research with respect to the target goal of improving our common understanding of KT integration and promoting further researches and cooperation in future.

Principles and Practice of Clinical Trials Steven Piantadosi,Curtis L. Meinert,2022-07-19 This is a comprehensive major reference work for our SpringerReference program covering clinical trials. Although the core of the Work will focus on the design, analysis, and interpretation of scientific data from clinical trials, a broad spectrum of clinical trial application areas will be covered in detail. This is an important time to develop such a Work, as drug safety and efficacy emphasizes the Clinical Trials process. Because of an immense and growing international disease burden, pharmaceutical and biotechnology companies continue to develop new drugs. Clinical trials have also become extremely globalized in the past 15 years, with over 225,000

international trials ongoing at this point in time. Principles in Practice of Clinical Trials is truly an interdisciplinary that will be divided into the following areas: 1) Clinical Trials Basic Perspectives 2) Regulation and Oversight 3) Basic Trial Designs 4) Advanced Trial Designs 5) Analysis 6) Trial Publication 7) Topics Related Specific Populations and Legal Aspects of Clinical Trials The Work is designed to be comprised of 175 chapters and approximately 2500 pages. The Work will be oriented like many of our SpringerReference Handbooks, presenting detailed and comprehensive expository chapters on broad subjects. The Editors are major figures in the field of clinical trials, and both have written textbooks on the topic. There will also be a slate of 7-8 renowned associate editors that will edit individual sections of the Reference.

Practical Environmental Law Laurel A. Vietzen, 2013-06-04 Practical Environmental Law is a comprehensive, practical introduction to environmental law written exclusively for paralegal students. The concise, well-written text focuses on a broad understanding of the sources of environmental law and offers students numerous practical exercises as well as concrete methods for researching the law. Civil Litigation Peggy N. Kerley, Joanne Banker Hames, Paul Sukys, 2001 Civil Litigation is a comprehensive text designed to familiarize the paralegal student with all aspects of the civil litigation process and the role of the paralegal in that process. It provides substantive legal principles and their practical applications in a realistic litigation practice. The book presents a chronological approach to litigation, starting with the opening stages of a lawsuit, progressing to the preparing of pleadings and motions, followed by discovery and concluding with pre-trial, trial and appellate proceedings. Litigation technology and relevant Internet sources are incorporated into each chapter. Projects and exercises at the end of each chapter also give the student opportunities to prepare litigation documents such as letter, pleadings, motion and discovery. Students not only read about the litigation process, but benefit from the practical experiential assignments.

Clinical Drug Trials and Tribulations, Revised and Expanded, Second Edition Allen Cato, Lynda Sutton, Allen Cato III, 2002-03-26 Aimed at those already involved in drug development or those considering entering the field, Clinical Drug Trials and Tribulations, Second Edition comprehensively addresses the new, day-to-day challenges of drug development with valuable assessments of the areas affecting the conduction of nonclinical and clinical studies. Addressing which decisions should be made during drug development, this updated and expanded text/reference carefully guides readers through the various trials and tribulations that emerge phase-by-phase and are pertinent to all levels of pharmaceutical or

clinical drug management. Bringing together the latest information on drug development, the Second Edition contains: new material on... international regulation and deregulation venture capitalist investment the IND process informed consent changes in manufacturing and updated and extended coverage of... pediatric drug trial design the advantages and disadvantages of orphan drug designations the maximization of package inserts for marketing post approval safety surveillance withdrawals from the drug market Clinical Drug Trials and Tribulations, Second Edition will prove an invaluable reference for pharmacologists, pharmacists, clinical chemists, clinical coordinators, clinical monitors, government drug regulatory personnel, and bioethicists as well as a useful text for medical or pharmacy school courses on pharmaceutical development and research.
