He's Only Playing! Sarah Whitehead,2019-08-05 “He's Only Playing!” Why? Because as a dog behavior specialist, this is one of Sarah's LEAST favorite expressions! “He's Only Playing” is what people say when they have no clue what's really going on with their dog when it meets another dog. It covers the good, the bad and the downright inappropriate: a multitude of doggie sins and rudeness. Everything from one dog placing his paws on another dog without invitation, to another sniffing underneath just too intently.

Serious Fun ,

Playtime for Your Dog Christina Sondermann,2006 Part of the pleasure of owning a dog is the mutual fun that results from the playing of games. However these games also have a role in the development and well-being of dogs, not least of which is building up a dog's self confidence and boosting dog/owner relationships. The purpose of this book is to help pet owners discover and employ games and activities on an everyday basis that both owners and dogs will enjoy, and that will contribute towards the animal's fitness and training. Playing with My Dog Katie David Goode, 2007 The relationship between dogs and humans has been represented and contemplated since the beginning of human culture. Lasting expressions of this interest can be found in art, philosophy, literature, and science. With the rise of biological and social sciences in the nineteenth century, disciplinary frames of analysis have increasingly been brought to bear on this topic. These include, among others, evolutionism, biology, genetics, psychology, ethology, anthropology and sociology, with a more recent trend toward interdisciplinary treatments. At present, there is a large body of scientific literature about the relationship between humans and dogs based upon primarily biological, genetic and psychological approaches. It is only within the past decade that sociologists have shown a concerted interest in the social organization of dog-human interaction, and *Playing with My Dog Katie* is an example of this movement. This unique contribution to the literature - an in-depth case study of a single dog and her guardian (the author) at play uses an ethnomethodological approach, an important aspect of the research is providing the reader with various kinds of data - in written, photographic and video formats - in order to display the phenomenon of play as ordinary, mundane practice. Based upon these data, various theoretical, methodological and empirical issues regarding our understanding of dog-human play are explored. Some of these include: anthropomorphism and anthropomorphic language, the social organization of different 'kinds' (guardian, guide-dog, working dog) of dog-human relationships, the conceptualization of play as an interspecies activity, and intersubjectivity (loosely meaning mutual understanding) between dogs and humans.
