Dog Training Guide Monty Witt, 2014-04-28 Dog training tips and advice that will help you turn a difficult dog into an obedient pet. Most dogs are good at heart and capable of learning exactly how to behave. This app helps you learn the teaching method that works for them and helps you be consistent in how you approach their issues. Obedience training is one of the most important aspects of raising a dog. In fact, a well trained dog is much happier because a trained dog requires fewer restrictions and gets more freedom. For example, many stores and businesses that normally won't allow pets on their premises will make an exception for a puppy or a dog that will heel nicely by his owner's side, or will do a sit-stay or down-stay without hesitation. When company arrives in your home, there's no need to send a well-behaved family member to another room for fear that he will be a nuisance. A well-mannered, obedience-trained dog is both appreciated and welcome; he receives more attention and interaction from family members, visitors, and people passing by.

Pukka's Promise Ted Kerasote, 2013-02-05 This guide by the author of *Merle's Door* is "beneficial for anyone who wants to ensure that their dogs will be healthy and well" (Seattle Post-Intelligencer). From the bestselling author who offers "the most utterly compelling translation of dog to human I have ever seen" (Jeffrey Masson), this is a joyful chronicle of a dog and a groundbreaking answer to the question: How can we give our dogs the happiest, healthiest lives? When Ted Kerasote was ready for a new dog after losing his beloved Merle—who died too soon, as all our dogs do—he knew he wanted to give his puppy Pukka the longest life possible. But how to do that? So much has changed in the way we feed, vaccinate, train, and live with our dogs from even a decade ago. In an adventure that echoes *The Omnivore's Dilemma* with a canine spin, Kerasote tackles these subjects, questioning our conventional wisdom and emerging with vital new information that will surprise even the most knowledgeable dog lovers. Can a purebred be as healthy as a mixed breed? How many vaccines are too many? Should we rethink spaying and neutering? Is raw food really healthier than kibble, and should your dog be chewing more bones? Traveling the world and interviewing breeders, veterinarians, and leaders of the animal-welfare movement, Kerasote pulls together the latest research to help us rethink the everyday choices we make for our companions. And as he did in *Merle's Door*, Kerasote interweaves fascinating science with the charming stories of raising Pukka among his dog friends in their small Wyoming village. Funny, revelatory, and full of the delights of falling in love with a dog, *Pukka's Promise* will help redefine the potential of our animal partners.
