

Dogs And All About Them

Charles Henry Lane

Dogs and All about Them Robert Leighton,1910

Many years ago Mr. Alfred de Rothschild tried, through his agents in China, to secure a specimen of the Palace dog for the writer, in order to carry on the Goodwood strain, but without success, even after a correspondence with Pekin which lasted more than two years; but we succeeded in obtaining confirmation of what we had always understood: namely, that the Palace dogs are rigidly guarded, and that their theft is punishable by death. At the time of the Boxer Rebellion only Spaniels, Pugs, and Poodles were found in the Imperial Palace when it was occupied by the Allied Forces, the little dogs having once more preceded the court in the flight to Sianfu.

Dogs and All about Them Robert

Leighton, 2010-09-23 Although British writer Robert Leighton wrote this book one hundred years ago, this is a fascinating look at the history of man and dog, as well as perhaps the most detailed information of that time on many breeds. Mr. Leighton has broken the breeds into four groups - those being Non-sporting, Hounds/Sporting, Terriers, and Toy or Miniature breeds. There are many photos in this book (b&w) and the author goes into great detail regarding the desirable characteristics of each breed - the things judges look for in competition. In addition to the physical features, the author includes the history of the breed, as well as its personality and disposition. Here is just part of what he says are the desirable traits for an Old English Sheepdog: GENERAL APPEARANCE - A strong, compact-looking dog of great symmetry, absolutely free from legginess, profusely coated all over, very elastic in its gallop, but in walking or trotting he has a characteristic ambling or pacing movement, and his bark should be loud. Taking him all round, he is a thick-set, muscular, able-bodied dog, with a most intelligent expression, free from all Poodle or

Deerhound character. SKULL-Capacious, and rather squarely formed, giving plenty of room for brain power. The parts over the eyes should be well arched and the whole well covered with hair. JAW-Fairly long, strong, square and truncated; the stop should be defined to avoid a Deerhound face. The attention of judges is particularly called to the above properties, as a long, narrow head is a deformity. EYES-Vary according to the colour of the dog, but dark or wall eyes are to be preferred. NOSE-Always black, large, and capacious. TEETH-Strong and large, evenly placed, and level in opposition. EARS-Small, and carried flat to side of head, coated moderately. LEGS-The fore-legs should be dead straight with plenty of bone, removing the body to a medium height from the ground, without approaching legginess; well coated all round.

Let Dogs Be Dogs The Monks of New Skete, Marc Goldberg, 2017-09-12 America's foremost authorities on dog care and training distill decades of experience in a comprehensive foundational guide for dog owners. No matter what training method or techniques you use with your dog, the training is unlikely to be optimally successful unless it is predicated on an understanding of the dog's true nature. Dogs need food, water, exercise and play, rest, veterinary care--the basics. But since dogs naturally want to be led, they also need focused and compassionate guidance. Through abundant stories and case studies, the authors reveal how canine nature manifests itself in various

behaviors, some potentially disruptive to domestic accord, and show how in addressing these behaviors you can strengthen the bond with your dog as well as keep the peace. The promise of this book is that, especially in an ever-accelerating world filled with digital distractions, you can learn from your dog's example how to live in the moment, thereby enriching your life immeasurably.

What the Dogs Have Taught Me Merrill

Markoe, 2011-08-24 Award-winning comedy writer Merrill Markoe, the slightly warped mind behind *Stupid Pet Tricks*, is an old hand with dogs. She knows who's boss (they are) and the myriad ways a loving pet can make you feel guilty twenty-four hours a day. This new edition of Merrill Markoe's classic collection of humorous essays gives readers the choicest selections along with brand-new material. In these razor-sharp essays, Markoe recounts her dogs' phone chats with animal communicators, her search for past lives, and her brief stint as a stun gun saleswoman. She describes the workshop that taught her how to launch an Internet porn business and another that gave proper instruction in the esoteric art of becoming a dominatrix. She shares insight into what it is like to structure your day using only dog rules, how to spot a really horrible restaurant, and what it's like to have a romantic dinner with Fabio. There's even a bright side to preparing for the apocalypse: "At last, it is time to forget about fat grams and low cholesterol." This enchantingly rambunctious and boundlessly enjoyable book gives you Merrill Markoe at her best. You'll devour it in one sitting (and so may

your pet).

With Dogs at the Edge of Life Colin Dayan, 2015-12-08 In this original and provocative book, Colin Dayan tackles head-on the inexhaustible world, at once tender and fierce, of dogs and humans. We follow the tracks of dogs in the bayous of Louisiana, the streets of Istanbul, and the humane societies of the United States, and in the memories and myths of the humans who love them. Dayan reorients our ethical and political assumptions through a trans-species engagement that risks as much as it promises. She makes a powerful case for questioning what we think of as our deepest-held beliefs and, with dogs in the lead, unsettles the dubious promises of liberal humanism. Moving seamlessly between memoir, case law, and film, Dayan takes politics and animal studies in a new direction—one that gives us glimpses of how we can think beyond ourselves and with other beings. Her unconventional perspective raises hard questions and renews what it means for any animal or human to live in the twenty-first century. Nothing less than a challenge for us to confront violence and suffering even in the privileged precincts of modernity, this searing and lyrical book calls for another way to think the world. Theoretically sophisticated yet aimed at a broad readership, *With Dogs at the Edge of Life* illuminates how dogs—and their struggles—take us beyond sentimentality and into a form of thought that can make a difference to our lives.

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog

lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Dogs As I See Them Lucy Dawson, 2015-10-20 A BELOVED CLASSIC FOR DOG LOVERS OF ALL AGES With a new foreword by Ann Patchett In the 1930s, Lucy Dawson's friendly, sympathetic portraits of dogs were so popular with readers of American and British magazines that she agreed to gather them together in a book, *Dogs As I See Them*. Now available once again after being out of print for decades, and a complete replication the original 1936 edition, *Dogs As I See Them* includes all of Dawson's irresistible graphite and pastel drawings and handwritten notes. Along with her illustrations are her own amusing stories about the conduct of each of her subjects as they posed for her. Her charming reminiscences interpret the character and mood of each dog, and make us friends at once with each and every one in this gallery of endearing portraits. *Dogs As I See Them* is a remarkable collection dog lovers of all generations will take to their hearts.
