Give a Little Wendy Smith,2009-11-03 With open hearts and open hands, we gave what we could, and a little became a lot. --from Give a Little Dimes destroyed polio. Five bucks can beat malaria. Give a Little: How Your Small Donations Can Transform Our World not only contains remarkable, inspiring stories of how small donations are making an extraordinary difference in the lives of millions both here in the United States and around the world, but also lays out where and how to start giving . . . today. Together, ordinary Americans have far more transformational power than any government or big foundation. In 2007, giving by American individuals amounted to \$229 billion--that is, 82 times the amount the Gates Foundation gave that same year. Simple, inexpensive things--a water filter, a bike, an irrigation pump, a bed net, a goat--cause a ripple effect that lifts a whole family, a town, and, astonishingly, even a nation out of poverty. Inspired by Smith's twenty years in the nonprofit sector, Give a Little shows how easily we can dip into our pockets and, with just a few dollars, change the world.

The Ethics of Medical Data Donation Jenny Krutzinna,Luciano Floridi,2019-01-16 This open access book presents an ethical approach to utilizing personal medical data. It features essays that combine academic argument with practical application of ethical principles. The contributors are experts in ethics and law. They address the challenges in the re-use of medical data of the deceased on a voluntary basis. This pioneering study looks at the many factors involved when individuals and organizations wish to share information for research, policy-making, and humanitarian purposes. Today, it is easy to donate blood or even organs, but it is virtually impossible

to donate one's own medical data. This is seen as ethically unacceptable. Yet, data donation can greatly benefit the welfare of our societies. This collection provides timely interdisciplinary research on biomedical big data. Topics include the ethics of data donation, the legal and regulatory challenges, and the current and future collaborations. Readers will learn about the ethical and regulatory challenges associated with medical data donations. They will also better understand the special nature of using deceased data for research purposes with regard to ethical principles of autonomy, beneficence, and justice. In addition, the contributors identify the key governance issues of such a scheme. The essays also look at what we can learn in terms of best practice from existing medical data schemes.

Passing the Plate Christian Smith, Michael O Emerson, Patricia Snell, 2008-09-29 *Passing the Plate* shows that few American Christians donate generously to religious and charitable causes. This eye-opening book explores the reasons behind such ungenerous giving, the potential world-changing benefits of greater financial giving, and what can be done to improve matters. By illuminating the social and psychological forces that shape charitable giving, *Passing the Plate* is sure to spark a much-needed debate on a critical issue.

The More of Less Joshua Becker, 2016-05-03 Don't Settle for More Most of us know we own too much stuff. We feel the weight and burden of our clutter, and we tire of cleaning and managing and organizing. While excess consumption leads to bigger houses, faster cars, fancier technology, and cluttered homes, it never brings happiness. Rather, it results in a desire for more. It redirects our greatest passions to things that can never fulfill. And it distracts us from the very life we wish we were living. Live a better life with less. In *The More of Less*, Joshua Becker helps you... • Recognize the life-giving benefits of owning less • Realize how all the stuff you own is keeping you from pursuing your dreams • Craft a personal, practical approach to decluttering your home and life • Experience the joys of generosity • Learn why the best part of minimalism isn't a clean house, it's a full life The beauty of minimalism isn't in what it takes away. It's in what it gives. *Make Room in Your Life for What You Really Want* "Maybe you don't need to own all this stuff." After a casual conversation with his neighbor on Memorial Day 2008, Joshua Becker realized he needed a change. He was spending far too much time organizing possessions, cleaning up messes, and looking for more to buy. So Joshua and his wife decided to remove the nonessential possessions from their home and life. Eventually, they sold, donated, or discarded over 60 percent of what they owned. In exchange,

they found a life of more freedom, more contentment, more generosity, and more opportunity to pursue the things that mattered most. The More of Less delivers an empowering plan for living more by owning less. With practical suggestions and encouragement to personalize your own minimalist style, Joshua Becker shows you why minimizing possessions is the best way to maximize life. Are you ready for less cleaning, less anxiety, and less stress in your life? Simplicity isn't as complicated as you think.

Giving Blood Johanne Charbonneau, André Smith, 2015-07-24 Giving Blood represents a new agenda for blood donation research. It explores the diverse historical and contemporary undercurrents that influence how blood donation takes place, and the social meanings that people attribute to the act of giving blood. Drawing from empirical studies conducted in the United States, Canada, France, Australia, China, India, Latin America and Africa, the book's chapters turn our attention to the evolution of blood donation worldwide, examining: the impact of technology advances on blood collection practices the shifting approaches to donor recruitment and retention the governance and policy issues associated with the establishment of blood clinics the political and legal challenges of regulating blood systems. This innovative examination moves the focus from individual explanations of rates of blood donation to a social, structural explanation. It will appeal to international scholars and students working in the areas of sociology, medical anthropology, health care, public policy, socio-legal studies, comparative politics, organizational management, health and illness, the history of medicine, and public health ethics.

Charitable Giving and Tax Policy Gabrielle Fack, Camille Landais, 2016-09-01 Over the past couple of decades, differentials in the level of private contributions to charitable organizations have become a central matter of public policy. Because private charitable contributions finance many socially valuable activities (for example, education and the arts), many governments have tried to boost private philanthropy through various active policy interventions. Furthermore, the temptation to rely on private contributions to finance the provision of public goods has increased substantially in recent years as fiscal constraints have become tighter. Yet there is little robust quantitative evidence regarding the differentials in private charitable giving across countries, and more importantly very little consensus on why these differentials may exist. This volume provides an original, comparative, and historical analysis of charitable giving and of tax policies towards private philanthropy across different countries. It sheds new light on the determinants of private philanthropy and offers interesting practical insights for improving tax policies towards charitable giving.

Sleep Donation Karen Russell, 2020-09-29 Newly illustrated and available for the first time in years, a haunting novella from the uncannily imaginative author of the national bestsellers *Swamplandia!* and *Orange World*: the story of a deadly insomnia epidemic and the lengths one woman will go to to fight it. Trish Edgewater is the Slumber Corps' top recruiter. On the phone, at a specially organized Sleep Drive, even in a supermarket parking lot: Trish can get even the most reluctant healthy dreamer to donate sleep to an insomniac in crisis--one of hundreds of thousands of people who have totally lost the ability to sleep. Trish cries, she shakes, she shows potential donors a picture of her deceased sister, Dori: one of the first victims of the lethal insomnia plague that has swept the globe. Run by the wealthy and enigmatic Storch brothers, the Slumber Corps is at the forefront of the fight against this deadly new disease. But when Trish is confronted by Baby A, the first universal sleep donor, and the mysterious Donor Y, whose horrific infectious nightmares are threatening to sweep through the precious sleep supply, her faith in the organization and in her own motives begins to falter. Fully illustrated with dreamy evocations of Russell's singular imagination and featuring a brand-new Nightmare Appendix, *Sleep Donation* will keep readers up long into the night and long after haunt their dreams.

Smart Giving Is Good Business Curt Weeden, 2011-03-15 Answers to the 12 most common and critical questions about corporate giving In this groundbreaking resource, Weeden shows how to strategically plan, manage and evaluate corporate contributions. Questions include: Why Should We Give?; How Much?; Who Decides?; Does a Company Need a Foundation?; How to Give Products or Services?; How Do We Know What Works? The book covers a wide range of topics including: The case for conditional corporate philanthropy; increasing stewardship to give more; assigning responsibility for signature programs; how CEOs leverage contributions programs for maximum benefit; effectively staffing corporate contributions programs; the pros and cons of corporate foundations; and more. Offers benchmarks for determining if a business has a meaningful philanthropic program that fosters constructive corporate citizenship Reveals how an effective philanthropic program and commitment can be incorporated in any organization Contains a comprehensive review of the information corporations need to make informed decisions about giving The author offers a prescription for linking businesses with causes and the nonprofits addressing critical issues in a way that will preserve or restore services and activities essential to our quality of life.

Hope Blooms Bryan Stewart, 2018-04-07 For Bryan Stewart, it began with his exposure to a compelling vision that supported an urgent, life-saving mission: to help many more people benefit from the gift of organ, eye, and tissue donation. Through insightful and emotional anecdotes illuminating the challenges and rewards of building a national public health campaign around one of the world's premier live events, Stewart imparts the value of inspiration, authenticity, ingenuity, and perseverance as guideposts for leading people, organizations, and causes.

Cause Related Marketing: A substitute for direct donations? Sebastian Siebert, 2014-02-01 Despite the vast research on Cause-Related Marketing, little is known about the instrument's potential to substitute direct donations. A company engages in Cause-Related Marketing when it teams up with a cause supporting charity organisation. The similarity with direct donations suggests that cause-marketed products bear the potential to tap the donation market. The present investigation extends prior research by identifying key drivers for purchasing cause-marketed products and its potential to gain access to the market of direct donations (Hypothesis 1). Second, the work tries to assess the geographic implications of a Cause-Related Marketing campaign (Hypothesis 2). The results of Hypothesis 1 indicate that cause-marketed products bear a potential to substitute direct donations. Findings of Hypothesis 2 show that the geographical context of a CRM campaign has implications on the cause supported by a nongovernmental organisation.

Louder Than Words William H. Shore, 1989 Contains previously unpublished stories from Louise Erdrich, Anne Tyler, Mona Simpson, Ethan Canin, Joyce Carol Oates, Robert Olmstead and 16 additional writers who donated their work to benefit the hungry and homeless.

Things That Matter Joshua Becker, 2023-12-12 #1 WALL STREET JOURNAL BESTSELLER • Discover practical steps you can take today to live a life focused on things that matter, from the bestselling author of *The More of Less* and *The Minimalist Home*. “Things That Matter points the way to free ourselves from the distractions of everyday life so that we can build the lives we seek to create.”—Gretchen Rubin, author of *The Happiness Project* Everywhere around you are distractions: That text you respond to quickly, just to get it out of the way. The newest money-making side hustle to cross your mind. The evening spent organizing your overflowing kitchen cupboards. Disruptions are the enemies of a life well lived—both the new distractions of our generation and timeless ones that have existed for centuries. They all add up to make you feel restless, tired, and unfulfilled. They’re keeping you from living with joy,

from accomplishing the good that only you can do. But that can change today. In *Things That Matter*, Joshua Becker uses practical exercises, questions, insights from a nationwide survey, and success stories to give you the motivation you need to • identify the pursuits that matter most to you • align your dreams with your daily priorities • recognize how money and possessions keep you from happiness • become aware of how others' opinions of you influence your choices • embrace what you're truly passionate about instead of planning that next escape • figure out what to do with all those emails, notifications, and pings • let go of past mistakes and debilitating habits *Things That Matter* is a book about living well. It's about overcoming the chatter of a world focused on all the wrong things. It's about rethinking the common assumptions of today to find satisfaction and fulfillment tomorrow. How do we get to the end of our lives with minimal regrets? We set aside lesser pursuits to seek lasting meaning. And we discover the joy of doing it every day.

A Life Everlasting Sarah Gray, 2016-09-27 A donor mother's powerful memoir of grief and rebirth that is also a fascinating medical science whodunit, taking us inside the world of organ, eye, tissue, and blood donation and cutting-edge scientific research. When Sarah Gray received the devastating news that her unborn son Thomas was diagnosed with anencephaly, a terminal condition, she decided she wanted his death—and life—to have meaning. In the weeks before she gave birth to her twin sons in 2010, she arranged to donate Thomas's organs. Due to his low birth weight, they would go to research rather than transplant. As transplant donors have the opportunity to meet recipients, Sarah wanted to know how Thomas's donation would be used. That curiosity fueled a scientific odyssey that leads Sarah to some of the most prestigious scientific facilities in the country, including Harvard, Duke, and the University of Pennsylvania. Pulling back the curtain of protocol and confidentiality, she introduces the researchers who received Thomas's donations, held his liver in their hands, studied his cells under the microscope. Sarah's journey to find solace and understanding takes her beyond her son's donations—offering a breathtaking overview of the world of medical research and the valiant scientists on the horizon of discovery. She goes behind the scenes at organ procurement organizations, introducing skilled technicians for whom death means saving lives, empathetic counselors, and the brilliant minds who are finding surprising and inventive ways to treat and cure disease through these donations. She also shares the moving stories of other donor families. *A Life Everlasting* is an unforgettable testament to hope, a tribute to life and discovery, and a portrait of unsung heroes pushing the boundaries of medical science for the benefit of all humanity.

Save, Spend, Or Donate? Nancy Loewen, 2005 Josie and Sam allocate their allowances in different ways and learn a lesson in money management.

Kidney to Share Martha Gershun, John D. Lantos, 2021-05-15 In *Kidney to Share*, Martha Gershun tells the story of her decision to donate a kidney to a stranger. She takes readers through the complex process by which such donors are vetted to ensure that they are physically and psychologically fit to take the risk of a major operation. John D. Lantos, a physician and bioethicist, places Gershun's story in the larger context of the history of kidney transplantation and the ethical controversies that surround living donors. Together, they help readers understand the discoveries that made transplantation relatively safe and effective as well as the legal, ethical, and economic policies that make it feasible. Gershun and Lantos explore the steps involved in recovering and allocating organs. They analyze the differences that arise depending on whether the organ comes from a living donor or one who has died. They observe the expertise—and the shortcomings—of doctors, nurses, and other professionals and describe the burdens that we place on people who are willing to donate. In this raw and vivid book, Gershun and Lantos ask us to consider just how far society should go in using one

person's healthy body parts in order to save another person. Kidney to Share provides an account of organ donation that is both personal and analytical. The combination of perspectives leads to a profound and compelling exploration of a largely opaque practice. Gershun and Lantos pull back the curtain to offer readers a more transparent view of the fascinating world of organ donation.

The Life You Can Save Peter Singer,2010 Argues that for the first time in history we're in a position to end extreme poverty throughout the world, both because of our unprecedented wealth and advances in technology, therefore we can no longer consider ourselves good people unless we give more to the poor. Reprint.
