The Professional Poker Dealer's Handbook Dan Paymar, Donna Harris, Mason Malmuth, 1998 Recognizes that the poker industry has recently grown at a phenomenal rate. It wasn't that long ago that only a few places had small poker rooms. But times have changed. Today there are many locations throughout the country that offer poker, including several giant poker facilities. This explosive growth has created a need for quality dealers, which is immediately apparent to anyone who either plays poker or works in the industry. Dealing poker is an occupation that looks easy when performed by a top quality dealer. In fact, the best dealers not only perform their job in a seemingly effortless manner, they enjoy what they are doing. We hope that this text will establish a standard for the industry. It will assure that poker continues to grow and prosper. It is the ultimate book for anyone interested in a career as a professional poker dealer.

Treat Your Poker Like a Business, 2009-12 Poker star Dusty Schmidt presents his first book [→ one that stands to shake up poker in the same way Moneyball did for baseball. Schmidt offers an inspiring look at how in just five years, he went from not knowing a thing about poker to netting a seven-figure annual income. Far from a mathematical or technological genius, Schmidt says what guides him through is a fundamental understanding of business. Treat Your Poker Like A Business provides a foundation upon which all poker will be evaluated in the future, and will help an entire generation of poker players evolve their games into empires. A consummate grinder, Dusty Schmidt has played nearly 7 million hands of online poker over more than 10,000 hours during his five-year career. He's won over \$3 million during that period, and has never experienced a losing month. In 2007, he achieved Poker Stars' SuperNova Elite status in just eight months while playing high-stakes cash games exclusively. Schmidt posted the world's highest win rate in both 5/10 NL and 10/20 NL in both 2007 and 2008. In a four-month period between Nov. 2007 and Feb. 2008, Schmidt won in excess of \$600,000 in high-stakes cash games. He is now a highly respected instructor at Stoxpoker.com, and plays as high as 25/50 NL. As a young man, Schmidt was a top-ranked golfer. He broke two of Tiger Woods' junior records, and was the leading money winner on the Golden States Tour when, at age 23, he suffered a career-ending heart attack. Schmidt returned to golf in 2009, winning medalist honors in qualifying for the Oregon Amateur Championship. Later that year, Schmidt famously represented himself in federal court in his suit against the United States Golf Association, which controversially stripped him of his amateur status, in part due to his poker profession. Schmidt is now a volunteer assistant coach for the University of Oregon's men's golf team, working under his good friend, Head Coach Casey Martin. Schmidt is also a successful entrepreneur. He is part-owner of Stoxpoker.com and Imagine Media, and the creator of 10thGreen.com, the first social network for golfers. His story has been featured in Sports Illustrated, Card Player, Poker News, Golf Magazine, Fairways and Greens, Golf Week, Golf World and the Portland Oregonian, as well as on ESPN, cnn.com, wallstreetjournal.com, forbes.com, fortune.com, espn.com, golfdigest.com and golf.com, among many others. He recently founded the House of Cards Project, a philanthropic effort to provide food and shelter to disadvantaged families. His life story will be told in the book [→ Raise: The Impossibly True Tale of Dusty Schmidt, [→? to be released later in 2010. He lives in Portland, Ore., with his wife, Nicole, and daughter, Lennon.

The Mathematics of Poker Bill Chen, Jerrod Ankenman, 2006 For decades, the highest level of poker have been dominated by players who have learned the game by playing it, road gamblers' who have cultivated intuition for the game and are adept at reading other players' hands from betting patterns and physical tells. Over the last five to ten years, a whole new breed has risen to prominence within the poker community. Applying the tools of computer science and mathematics to poker and sharing the information across the Internet, these players have challenged many of the assumptions that underlay traditional approaches to the game.'

AMORALMAN Derek DelGaudio, 2022-02-01 Truth and lies are two sides of the same coin. But who's flipping it? A thought-provoking and brilliantly entertaining work of nonfiction from one of the world's leading deceivers, the creator and star of the astonishing theater show and forthcoming film In & Of Itself. Derek DelGaudio believed he was a decent, honest man. But when irrefutable evidence to the contrary is found in an old journal, his memories are reawakened and Derek is forced to confront--and try to understand--his role in a significant act of deception from his past. Using his youthful notebook entries as a road map, Derek embarks on a soulful, often funny, sometimes dark journey, retracing the path that led him to a world populated by charlatans, card cheats, and con artists. As stories are peeled away and artifices are revealed, Derek examines the mystery behind his father's vanishing act, the secret he inherited from his mother, the obsession he developed with sleight-of-hand that shaped his future, and the affinity he felt for the professional swindlers who taught him how to deceive others. And once he finds himself working as a crooked dealer in a big-money Hollywood card game, Derek begins to question his own sense of morality, and discovers that even a master of deception can find himself trapped inside an illusion. A M O R A L M A N is a wildly engaging exploration of the fictions we live as truths. It is ultimately a book about the lies we tell ourselves and the realities we manufacture in others.

Tournament Poker for the Rest of Us Steve Selbrede, 2019-02-24 Tournament Poker For The Rest Of Us teaches a loose-aggressive style of no-limit hold'em. It is aimed at the experienced player who is familiar with the general concepts it takes to be a winning player. It is not aimed at the superstar pro who relies on his brilliance to pull off plays the rest of us only dream about. Part One covers the basic concepts necessary to play strong tournament poker the way I believe it should be played. Some of these basic concepts are discussed in novel and controversial ways, especially ICM, chip utility, tournament variance and game theory. Additionally, tournament statistics are presented for the first time here. Part Two is where you will learn a tournament LAG playing strategy,

building on the concepts discussed in Part One. We begin by creating a deep stack playing strategy founded on the principles of tournament variance and chip utility. Then we learn how to play a perfect GTO strategy when our stacks are less than 30 big blinds.This book has been published with support from CardsChat.com and the CardsChat community. Founded in 2004, CardsChat serves a global network of more than 270,000 members -- providing an online destination for poker players who are passionate about improving their game.
