The 5 Essentials Bob Deutsch, Ph.D., Lou Aronica, 2013-09-03 Raise the bar to become the best version of you Most of us set the bar too low in our lives, both personally and professionally. Bob Deutsch, a cognitive neuroscientist/anthropologist turned entrepreneur, has spent a lifetime studying people and found that we choose not to pursue our greatest ambitions because we feel we are incapable of reaching them. But he has also found that we are each born with the fundamental abilities to live the full, creative, dynamic lives we dream about. Curiosity, Openness, Sensuality, Paradox, and Self-Story—these are our five inner resources. Through interviews with inspiring people, including Wynton Marsalis and Richard Feynman, and case studies of personalities like Bruce Springsteen and Anna Quindlen, Deutsch shows us how to access and use these resources to open our lives to unimagined possibilities.

Missional (Allelon Missional Series) Alan J. Roxburgh, 2011-03-01 The burgeoning missional church movement is a sign that believers are increasingly feeling the call to impact their communities, which is a good thing. But, says Alan J. Roxburgh, these conversations still prioritize church success over mission--how can being missional grow my church? But to focus on such questions misses the point. In *Missional*,

Roxburgh calls Christians to reenter their neighborhoods and communities to discover what the Spirit is doing there--to start with God's mission. He then encourages readers to shape their local churches around that mission. With inspiring true stories and a solid biblical base, *Missional* is a book that will change lives and communities as its message is lived out.

Speedrun: The Unauthorised History of Sonic The Hedgehog Julian Hazeldine, 2014-04 Sonic The Hedgehog was created to give Sega's Mega Drive a fighting chance against the market-dominating Nintendo. With Sega consoles now a distant memory, he's still running. But what gives the blue blur his staying power? *Speedrun* traces Sonic's entire history, from an artist's idle sketch to a multi-million pound videogame phenomenon. This book relives the highs; the hysteria of Sonic 2's day and the dawn of the Dreamcast, and the lows; cancelled projects and Sega's near-bankruptcy. It also looks at the creative influences behind the hedgehog, and how a handful of minds have steered and directed his progress through the years. Whether your first adventure with Sonic was in the Green Hill Zone or on a smartphone, *Speedrun* is the definitive guide to gaming's fastest hero.

Always On Brian Chen,X Chen,2012-09-25 Even Steve Jobs didn't know what he had on his hands when he announced the original iPhone as a combination of a mere three revolutionary products--an iPod, a cell phone, and a keyboard-less handheld computer. Once Apple introduced the App Store and opened it up to outside developers, however, the iPhone became capable of serving a rapidly growing number of functions--now more than 200,000 and counting. But the iPhone has implications far beyond the phone or gadget market. In fact, it's opening the way to what Brian Chen calls the always-on future, where we are all constantly connected to a global Internet via flexible, incredibly capable gadgets that allow us to do anything, anytime, from anywhere. This has far-reaching implications--both positive and negative--throughout all areas of our lives, opening the door for incredible personal and societal advances while potentially sacrificing both privacy and creative freedom in the process. Always On is the first book to look at the surprising and expansive significance of Apple's incredibly powerful vertical business model, and the future it portends.

Colleen Taylor Rigsby,2019-06-13 ?Is it what you suspected the first man, the silent man, asked. The leader cocked his head and locked eyes with Colleen. His monstrous, amber glare peered deeply into hers, violating her very psyche in some unexplainable way. Suddenly he grinned, revealing straight, gleaming

teeth. ?Oh what big teeth you have!? Colleen instantly thought. Oh yes, ? he murmured as a giddy amusement rose from deep within him. ?Yes, she carries his scent.? Colleen gulped thickly and her blood ran cold. Somehow she knew he was talking about her father. Besides, ? the leader went on, leaning in closer to her face, ?I would recognize those eyes anywhere.? After all, they were the exact same eyes he had hunted so many years before.
