All Those Explosions Were Someone Else's Fault James Alan Gardner,2017-11-07 Monsters are real. But so are heroes. Sparks are champions of weird science. Boasting capes and costumes and amazing super-powers that only make sense if you don't think about them too hard, they fight an eternal battle for truth and justice . . . mostly. Darklings are creatures of myth and magic: ghosts, vampires, were-beasts, and the like. Their very presence warps reality. Doors creak at their approach. Cobwebs gather where they linger. Kim Lam is an ordinary college student until a freak scientific accident (what else?) transforms Kim and three housemates into Sparks—and drafts them into the never-ending war between the Light and Dark. They struggle to master their new abilities—and (of course) to design cool costumes and come up with great hero-names. Turns out that “accident” was just the first salvo in a Mad Genius's latest diabolical scheme. Now it's up to four newbie heroes to save the day, before they even have a chance to figure out what their team's name should be! Looking Out the Back Door Ann Richardson Davis,2011-05-26 Stories seen in visions by the artist/author over the space of several years, the origin of which remain a mystery. Prefacing each story is a letter to an editor which reveal the sometimes rocky spiritual path taken by the author, her joy and

her doubts about her experiences and her growth as a writer and a spiritual being during the time she wrote these stories.

A Door Set Open Peter L. Steinke, 2010-08-23 We resist change less when we associate it with mission and fortify it with hope. So argues longtime congregational consultant Peter Steinke in his fourth book, *A Door Set Open*, as he explores the relationship between the challenges of change and our own responses to new ideas and experiences. Steinke builds on a seldom-explored principle posited by the late Rabbi Edwin Friedman: the 'hostility of the environment' is proportionate to the 'response of the organism.' The key, Steinke says, is not the number or strength of the stressors in the system--anxiety, poor conditions, deteriorating values--but the response of the individual or organization to 'what is there.' Drawing on Bowen system theory and a theology of hope, as well as his experience working with more than two hundred congregations, Steinke makes the case that the church has entered an era of great opportunity. Theologian and sociologist Ernst Troeltsch said the church had closed down the office of eschatology. Steinke reopens it and draws our attention to God's future, to a vision of hope for the people of God. The door is set open for exploration and new creation.

The Door of Everything Ruby Nelson, 2022 In twelve chapters, Nelson delves into lessons geared toward helping those who are adrift and searching for something more. It's not a "Christian" book so much as a life journey book, guiding readers to new paths of self enlightenment. If you want more than mere existence, *The Door of Everything* offers a chance to peek behind the curtains of your own mind. It opens doors to new understandings of life and spirituality. For only through personal growth like this can one rise beyond the mundane to a life full of richness and fulfillment.
