Integrated Neuroscience and Neurology Elliott M. Marcus, Stanley Jacobson, Thomas D. Sabin, 2014 This text focuses not only on localized diseases caused by infectious diseases, trauma, tumours, and vascular lesions within the central nervous system, but also these diseases within the systems of the brain and spinal cord. Over 250 real cases with associated MRI or CTs and any pathological findings from these patients illustrate numerous disorders and fully explain the nature of the pathology.

Marblehead Ron Stock, 2014-04-28 Written based on the events of his great grandparent's life in the dawn of the 20th century, Marblehead's a classic story with a classic hero – one man's selfless journey through rural America, with a supportive caste in tow and a bottle of the divine in hand. As a natural born storyteller with an eye for the smooth weave of a good plot, Ron Stock's prose pulls us through page after page, casting glimpses of the extents to which hope can carry us. Driven solely by purpose, everyman hero Gay Billings carries us from a well-worn, dirt-caked farm life, to the bustling industry of the big city. With a graceful hand, Ron Stock delivers troves of memorable characters, and chocks them full of spirit. Some struggle with values, and others pivot on a dime, but each one carries a unique essence, all their own. With the knack for unpredictability and a taste for good humor, Ron Stock's delivered his most layered title, to date. If you're in the mood for that down-home feel with a touch of the sublime, Marblehead is sure to please. -M. Paris

The Ghost and the Haunted Portrait Cleo Coyle, 2021-05-04 Bookshop owner Penelope Thornton-McClure and her gumshoe ghost team up to solve the stunning mystery at the heart of a madwoman's self-portrait in this all new installment from New York Times bestselling author Cleo Coyle. While gathering a collection of vintage book cover paintings for a special event in her quaint Rhode Island bookshop, Penelope discovers a spooky portrait of a beautiful woman, one who supposedly went mad, according to town gossip. Seymour, the local mailman, falls in love with the haunting image and buys the picture, refusing to part with it, even as fatal accidents befall those around it. Is the canvas cursed? Or is something more sinister at work? For answers, Pen turns to an otherworldly source: Jack Shepard, PI. Back in the 1940s, Jack cracked a case of a killer cover artist, and (to Pen's relief) his spirit is willing to help her solve this mystery, even if he and his license did expire decades ago.

Double Six Debbie McGowan, 2013-12-06 When Izzy Barlow passes her driving test, her mum buys her a Fiat 126 that's intent on returning to 1990. But it's not the car; it's the rather uncool accessories it came with - a pair of fluffy dice that are a little bit different. A typical YA sci-fi adventure quickly turns into an intricately woven journey. What they said about NO DICE (the 'accidental' prequel): A quirky but entertaining tale. Recommended for anyone looking for something a bit unusual and mysterious with a slight sci-fi touch. A great story, with a sneaky history lesson thrown in.

The Hidden Fortune Colin McKenzie Pinkerton, Kathrene Sutherland Gedney Pinkerton, 1902

Integrated Neuroscience Elliott M. Marcus, Stanley Jacobson, 2012-12-06 This textbook takes as a premise that, in order to make intelligent diagnosis and provide a rational treatment in disorders of the nervous system, it is

necessary to develop the capacity to answer the basic questions of clinical neurology: (1) Where is the disease process located? (2) What is the nature of the disease process? The purpose of this textbook is to enable the medical student to acquire the basic information of the neurosciences and neurology and most importantly the ability to apply that information to the solution of clinical problems. The authors also suggest that hospital trips be a part of any Clinical Neurosciences Course so that the student can put into actual practice what he has learned in the classroom. We believe that this textbook will be of value to the student throughout the four years of the medical school curriculum. Medical, psychiatry and neurology residents may also find this text of value as an introduction or review.

A Touch of Midas Jan Carew,1958

Arkansas Methodist ,1915

Review of Contemporary Fiction ,1991

Black Midas Jan Carew,1958 Astonishingly vivid, bawdy, and tempestuous, this novel is a cautionary tale about greed and class conflict in postcolonial Guyana. Comparing ruthless 20th-century prospectors to the long-ago Spanish explorers who raped a continent in their quest for El Dorado, the novel follows the dreams and delusions of Aron Smart, a youth orphaned early in life and brought up on a farm by his grandparents who impressed upon him the value of an education. When Aron's schooling is cut short after a reversal of fortune, however, he becomes deeply discouraged by his lack of opportunity and decides to follow in his father's footsteps as a diamond prospector. He quickly becomes very rich--his companions in the mines call him Shark--and he is determined to use his new wealth to buy his way into the middle class. But Aron is out of his element in the world of property and prestige, and, cheated of his fortune, he returns to the interior, mining with a reckless madness that leaves him terribly maimed in an accident--and causes him to dream of returning to his grandfather's life, built on the

solid rhythms of farming and caring for the land.

Sneeuw van Hem Koos van Zomeren, 2011-06-14 Koos van Zomeren schreef een roman over kou - kou van buiten en kou van binnen. Een maar al te menselijk verhaal over eeuwigheid en overspel, creativiteit en bederf, poolexpedities en bergbeklimmers. En meesterlijk geschreven.

De gin-kast Leslie Jamison, 2016-11-07 Tilly is een verloren ziel: ze verliet het ouderlijk huis voordat ze echt volwassen was, op zoek naar het echte leven. In plaats daarvan belandde ze in de holle onderwereld van Nevada, waar ze enkel slechte gewoontes opdeed. Ze sloeg zich bijna dertig jaar zonder familie door het leven, om ten slotte in een woonwagen aan de rand van de woestijn te belanden met een stevige alcoholverslaving. Op een dag staat haar nichtje Stella op de stoep, die op haar manier een leven van lege beloftes heeft geleid in de stad New York. Hoewel Stella op het eerste gezicht een redder in nood lijkt, blijken beide vrouwen aan de afgrond te wankelen. De gin-kast legt de vreemde, krachtige intimiteit die tussen hen ontstaat bloot. Met een fijnzinnig oor voor dialoog en geestige, vrijmoedige beschrijvingen van seks, liefde en macht herinnert Leslie Jamison ons eraan dat we ongeacht alle onverwachte wendingen alleen het leven hebben dat we krijgen.
