Connecting the Dots John Chambers,Diane Brady,2018-09-25 Silicon Valley visionary John Chambers shares the lessons that transformed a dyslexic kid from West Virginia into one of the world's best business leaders and turned a simple router company into a global tech titan. When Chambers joined Cisco in 1991, it was a company with 400 employees, a single product, and about \$70 million in revenue. When he stepped down as CEO in 2015, he left a \$47 billion tech giant that was the backbone of the internet and a leader in areas from cybersecurity to data center convergence. Along the way, he had acquired 180 companies and turned more than 10,000 employees into millionaires. Widely recognized as an innovator, an industry leader, and one of the world's best CEOs, Chambers has outlasted and outmaneuvered practically every rival that ever tried to take Cisco on--Nortel, Lucent, Alcatel, IBM, Dell, and Hewlett-Packard, to name a few. Now Chambers is sharing his unique strategies for winning in a digital world. From his early lessons and struggles with dyslexia in West Virginia to his bold bets and battles with some of the biggest names in tech, Chambers gives readers a playbook on how to act before the market shifts, tap customers for strategy, partner for growth, build teams, and disrupt themselves. He also adapted those lessons to transform government, helping global leaders like French President Emmanuel Macron and Indian Prime Minister Narendra Modi to create new models for growth. As CEO of JC2 Ventures, he's now investing in a new generation of game-changing startups by helping founders become great leaders and scale their companies. *Connecting the Dots* is destined to become a business classic, providing hard-won insights and critical tools to thrive during the accelerating disruption of the digital age.

Storytelling at Work Mitch Ditkoff,2015-10-27 *Storytelling at Work* is a groundbreaking book about the power of personal storytelling to spark insight, meaning, and innovation - especially in the modern day workplace where data and information have too often supplanted knowledge and wisdom. The author of the book, Mitch Ditkoff, has been an innovation provocateur to some of the world's most forward thinking organizations since 1987 and has come to realize

that the single most effective way to jump start wisdom in the workplace is via the sharing of well told stories - first person moments of truth that have embedded within them the DNA of what it really takes to be a positive force for change, on or off the job. Part One of *Storytelling at Work* includes 37 of the author's own stories from the front lines of business, both as the Co-Founder of Idea Champions - a leading innovation consultancy - and earlier in his life, as a young entrepreneur trying to find his way in the world. The stories are entertaining, evocative, and mind opening. Each one is followed by a brief reflection - a simple way for readers to apply the message of the story to their own lives. Part Two of the book is a collection of 16 essays on the art and science of storytelling, a thought provoking exploration of why stories are such a powerful communication medium and how the reader can make best use of stories to have the most possible positive impact on others. I truly LOVE this book Mitch Ditkoff has delivered a modern classic on how to communicate with wisdom. Kudos --Rowan Gibson, author of *The Four Lenses of Innovation* *Storytelling at Work* is filled with Eureka moments that will spark your creativity and ignite your motivation. Original and deeply insightful --Marshall Goldsmith, author of *Triggers*, a New York Times and Wall Street Journal #1 bestseller Mitch Ditkoff's powerfully written book shows us how storytelling, well done, humanizes the world of work and helps us tune into the deep well of timeless wisdom within. --Tim Gallwey, author of *The Inner Game of Tennis*

Is there anything more random than middle school? Sixth graders Oliver and Frankie don't think so. Their first few weeks have been full of weirdness -- lunchtime thievery, free beef jerky, and Matilda, the mysterious new girl who knows everything about them, but has a lot to learn about making friends. But what if none of it is random at all? What if a reclusive genius is keeping an eye on them and making sure the tiny pieces of his puzzle fall into place, one by one, until strange, seemingly unconnected incidents snowball totally out of control? Imagine the odds! First a cardamom shortage takes down the school bully. Then a giant dog leads to some extracurricular spying. Soon Oliver is being followed and Matilda is hacking the FBI. And by the time they discover a gang of angry clowns and the world's largest game of Mousetrap, an insanely brilliant plan has been set in motion that will change their lives forever. Connect the Dots is an intricately plotted story about the power of human connection and a chain of coincidences so serendipitous they must be destiny at work.
