Promising Approaches in the Prevention of Underage Drinking ,1995 This report is a product of a joint project of the National Association of Governors' Highway Safety Representatives (NAGHSR) and the National Association of State Alcohol and Drug Abuse Directors (NASADAD) focusing on state and local efforts to reduce underage drinking. Part of the project included a survey of the memberships of both NAGSHR and NASADAD designed to assess what states were doing to prevent underage drinking and to determine the extent of interagency cooperation within these efforts. The 10 case studies featured in this report were chosen from the efforts described by survey respondents to the question: Can you identify current efforts to reduce underage drinking in your state that you consider to be particularly effective or promising?

Dot-Dash to Dot.Com Andrew Wheen,2010-11-04 Telecommunications is a major global industry, and this unique book chronicles the development of this complex technology from the electric telegraph to the Internet in a simple, accessible, and entertaining way. The book opens with the early years of the electric telegraph. The reader will learn how the Morse telegraph evolved into an international network that spanned the globe, starting with the development of international undersea cables, and the heroic attempts to lay a trans-Atlantic cable. The book describes the events that led to the invention of the telephone, and the subsequent disputes over who had really invented it. It takes a look at some of the most important applications that have appeared on the Internet, the mobile revolution, and ends with a discussion of future key developments in the telecommunications industry.

Dot Dot Dot 10 Stuart Bailey,Peter Bilak,2005-12 The journal whose very name promises more to come delivers two issues this season. There aren't too many places to find intelligent, passionate, and witty writing about the past, present, and future of visual culture. Dot Dot Dot, the brilliant journal edited by Stuart Bailey and Peter Bilak, is one of the few we've found, and we're happy to be able to present it in our catalog. Issue 10, the composite issue, collects the best pieces from the previous issues into one new one. In the first issue Dot Dot Dot laid out a statement of intent. Issue 10 will be the answer to that intent. It can only be answered with conviction now, in hindsight, after the necessary mistakes and false trails. So making this compilation issue is not really a retrospective act, but more the logical form for the next steps.
