Integrating Safety-II into Safety Management Toni Wäfler,Rahel Gugerli,Giulio Nisoli,2020-12-22 We all aim for safe processes. However, providing safety is a complex endeavour. What is it that makes a process safe? And what is the contribution of humans? It is very common to consider humans a risk factor prone to errors. Therefore, we implement sophisticated safety management systems (SMS) in order to prevent potential “human failure”. These SMS provide an impressive increase of safety. In safety science this approach is labelled “Safety-I”, and it starts to be questioned because humans do not show failures only. On the contrary, they often actively contribute to safety, sometimes even by deviating from a procedure. This “Safety-II” perspective considers humans to be a “safety factor” as well because of their ability to adjust behaviour to the given situation. However, adaptability requires scope of action and this is where Safety-I and Safety-II contradict each other. While the former restricts freedom of action, the latter requires room for manoeuvring. Thus, the task of integrating the Safety-II perspective into SMS, which are traditionally Safety-I based, is difficult. This challenge was the main objective of our project. We discovered two methods that contribute to the quality of SMS by integrating Safety-II into SMS without jeopardizing the Safety-I approach.

Hollywood's African American Films Ryan Jay Friedman,2011 In 1929 and 1930, during the Hollywood studios' conversion to synchronized-sound film production, white-controlled trade magazines and African American newspapers celebrated a vogue for Negro films. Hollywood's African American Films argues that the movie business turned to

black musical performance to both resolve technological and aesthetic problems introduced by the medium of talking pictures and, at the same time, to appeal to the white Broadway audience that patronized their most lucrative first-run theaters. Capitalizing on highbrow associations with white slumming in African American cabarets and on the cultural linkage between popular black musical styles and natural acoustics, studios produced a series of African American-cast and white-cast films featuring African American sequences. Ryan Jay Friedman asserts that these transitional films reflect contradictions within prevailing racial ideologies--arising most clearly in the movies' treatment of African American characters' decisions to migrate. Regardless of how the films represent these choices, they all prompt elaborate visual and narrative structures of containment that tend to highlight rather than suppress historical tensions surrounding African American social mobility, Jim Crow codes, and white exploitation of black labor.

Check and Mate Double Blessing,2023-02-17 "I'm fine. Leave me alone!" "We can't do that. You need help," Miss yelled as the helicopter drew closer. "What do you expect me to do?" I yelled. "Jump!" Madam responded. "NO WAY!" "You have to. There isn't any way out. Trust us; grab onto the ladder." "No, not doing it." "Come on, now's your chance." "T00 LATE!" hollered the person behind me. "Hurry!" Madam screeched as I saw Valley leap off the Eiffel Tower into the helicopter. I was about to go for the ladder when the suspicious person behind me tripped and bumped into me. "MISS AND MADAM, HELP!"
