Originally published anonymously in 1837, it was later published in Hawthorne's collection *Twice-Told Tales*, also in 1837.

**Dr. Heidegger's Experiment** Nathaniel Hawthorne,2017-09-14 Dr. Heidegger is an eccentric old man. He invites four elderly friends to participate in an experiment in his mysterious, gloomy study. He shows them a withered rose that he claims is fifty-five years old. He then displays a vase, a gift from an acquaintance, that contains a generous quantity of sparkling water. Heidegger explains that this bewitching water is from the legendary Fountain of Youth, near Lake Macaco (now known as Lake Okeechobee, in Florida). The water wondrously causes the old rose to bloom again when it is dropped into it.

**Dr. Heidegger's Experiment - Large Print** Nathaniel Hawthorne,2020-10-23 That very singular man old Dr. Heidegger once invited four venerable friends to meet him in his study. There were three white-bearded gentlemen--Mr. Medbourne, Colonel Killigrew and Mr. Gascoigne--and a withered gentlewoman whose name was the widow Wycherly. They were all melancholy old creatures who had been unfortunate in life, and whose greatest misfortune it was that they were not long ago in their graves. Mr. Medbourne, in the vigor of his age, had been a prosperous merchant, but had lost his all by a frantic speculation, and was now little better than a mendicant. Colonel Killigrew had wasted his best years and his health and substance in the pursuit of sinful pleasures which had given birth to a brood of pains, such as the gout and divers other torments of soul and body.

He shows them a withered rose that he claims is fifty-five years old. He then displays a vase, a gift from an acquaintance, that contains a generous quantity of sparkling water. Heidegger explains that this bewitching water is from the legendary Fountain of Youth, near Lake Macaco (now known as Lake Okeechobee, in Florida). The water wondrously causes the old rose to bloom again when it is dropped into it. Dr. Heidegger's friends become cautiously intrigued. They wish to taste the water, hoping it will restore their youth and give them an opportunity to live life again, free from the mistakes they made when they were young. As Heidegger watches, they anxiously drink the water. Their youth restored, they begin acting as fatuously as they did in their prime. Soon, the three men of the group begin competing for the attention of the now-youthful and beautiful widow. While experiencing their newfound youth, however, a tall ominous mirror in the study reflects an image of the four guests as still being elderly and feeble. The vase is accidentally smashed as the men fight over her, and its miraculous water is lost. The guests' transformation only lasts for minutes, and therefore returns them to their original old age. To obtain more of the enchanted water, the four test subjects determine to travel to Florida to find the Fountain of Youth.

Nathaniel Hawthorne's Dr. Heidegger's Experiment Jerome Tiller,2014-12-31 Doctor Heidegger has invited four old friends to his study. He needs their help with an experiment. His friends presume the experiment will be nothing out of the ordinary. Perhaps they will inspect a cobweb under a microscope or witness the slow death of a mouse. But when Dr. Heidegger's guests gather around a small black table that holds a cut-glass vase, strange things begin to happen that will change their lives, or so it seems. Enlivened and enriched by Marc Johnson-Pencook's neo-classic, pen and ink illustrations, this adaptation of Nathaniel Hawthorne's classic story will introduce middle school readers to one of America's greatest authors. But it's not only for middle school readers. It will also entertain young adult readers and everybody who enjoys great stories and fine art illustrations. Not a graphic novel, not a picture book, this is illustrated classic literature that melds a great story told in outstanding prose by a great author with fine art illustrations that rival those from the golden era of illustration.
