- SENCO Update

Yes!! This book is a winner. At last someone is addressing in detail many of the challenges these students are meeting....A wonderful toolkit!

- Jenny Stent, SENCO, International Student Co-ordinator, Hankanui School, Hamilton, New Zealand

`Who says numbers are boring?! This is a bright and inviting addition to any good support library...this toolkit does what it says on the packet. A ready to run resource that is very user friendly. Lots of game based activities with clear instructions. Ideas would be useful for students with specific difficulties however the fun based element will help all students enjoy working with numbers

- Times Educational Supplement

`Finally, a book which understands! This book is full of pain-free games and activities which show that the author really gets dyscalculia. Things are broken down well so there are opportunities to build up basic understanding without getting bogged down and overwhelmed - and never a worksheet in sight. Now my daughter is happy to sit down and do maths with

me. I'm really delighted with this - it has filled a real gap -

Amazon Reviewer `This book is absolutely brilliant! I would highly recommend it to any parent or teacher who has a child or children with numberwork difficulties. Very easy and exciting to use -

Amazon Reviewer This collection of 200 teaching activities and 40 games to use with pupils who struggle with maths is based on the author's years of experience in schools, working with dyslexic, dyspraxic and dyscalculic pupils - but all the suggested strategies are equally suitable for teaching the basics of numeracy to any pupil aged 7 to 14. The toolkit covers: - early number work with numbers under 10 - basic calculations with numbers above 10 - place value - times tables, multiplication and division The activities and games provided can be used with individuals, pairs or small groups of pupils, and the CD-rom accompanying the book contains printable and photocopiable resources.

**Luck of The Draw** Jack Daniels, 2020-04-08 In looking over my life, it's interesting to realize how often some luck has been involved. Growing up in the San Francisco Bay area led to learning to love the Pacific Ocean and to getting to attend Sequoia High School in Redwood City, a school that I later realized had prepared me for winning National Championships, and medals in two Olympics. Our family's move to Montana led to lots of great hunting and fishing with brother Danny, and attending the University of Montana led to Danny, brother Jerry and I all being smoke jumpers for the U.S. Forest Service. That work also prepared Jerry for successful years with the CIA in Laos and Thailand, work that earned him three CIA medals of honor. Brother Kent was Montana State Trap-shooting champ and State champ in high school wrestling. My 4 years of military service sent me to Korea where I learned about the sport of modern pentathlon, and which also sent me to a year of study in a great Sport Institute in Stockholm, Sweden. Next came graduate studies at the universities of Oklahoma and Wisconsin, which also led to many outstanding years of research in exercise physiology and how to be a successful running coach. Coaching years found me starting men's track and cross-country at Oklahoma City University, National

Track Coach in the country of Peru, and women's track and cross-country coach at University of Texas. Then 6 years of research with Nike, followed by 19 years coaching runners at the State University of New York in Cortland to numerous national titles. I also began coaching post-collegiate runners, several of whom competed in Olympic Games, including a Silver-Medal winner in women's marathon. However, all of these accomplishments all take second place to my marriage to Nancy Jo Scardina, who was first a great runner (Olympic Trials qualifier in the totally-different events of 1500 and marathon), then was my Assistant Coach for 25 years during which she also became the mother of our two wonderful daughters, Audra Marie and Sarah Tupper. Sarah is an opera singer in New York City and Audra a very dedicated worker at the University of Washington in Seattle. Nancy has become a Registered Nurse and is as dedicated to that profession as she was to her running career. I always envy those for whom she provides aid. Few people have had the luck I have had. God bless Nancy Jo, Audra Marie and Sarah Tupper.

*Trends in the Draw of Americans to Foreign Terrorist*

*Organizations from 9/11 to Today* Heather J. Williams, Nathan Chandler, Eric Robinson, 2019-01-31 This report seeks to better understand why the Islamic State of Iraq and the Levant (ISIL) has been more successful than its predecessor organization, al Qaeda, in recruiting individuals within the United States. The authors consider whether the demographic profile of individuals drawn to foreign terrorist organizations (FTOs) has changed over time or whether new groups are more successful appealing to the same segment of the population. They take an expansive approach, analyzing all known cases of U.S. citizens or persons within the

United States connected to a FTO with Islamist orientation since September 11, 2001, and use consistent criteria for inclusion and exclusion to identify individuals meeting this definition, and coding multiple demographic variables. They then conduct a quantitative analysis of the entire population, as well as the population broken down by group and by role (i.e., foreign fighters, homegrown violent extremists, etc.). Their findings reveal that the number of U.S. recruits drawn to al Qaeda and its affiliate groups has declined precipitously, commensurate with the ascent of ISIL, and that the average terrorist recruited by ISIL is not only younger and less educated but more likely to be African American/black or Caucasian/white and a U.S.-born citizen. Historically, terrorist recruits were more likely immigrants of Middle Eastern descent. These findings are relevant to U.S. defense, intelligence, and law enforcement officials, as well as to civilian academic and policymaking audiences, who may be unaware of this altered demographic profile, a perception that could bias counterterrorism policy and efforts.

**The Freedom Race** Lucinda Roy, 2021-07-13 *The Freedom Race*, Lucinda Roy's explosive first foray into speculative fiction, is a poignant blend of subjugation, resistance, and hope. In the

aftermath of a cataclysmic civil war known as the Sequel, ideological divisions among the states have hardened. In the Homestead Territories, an alliance of plantation-inspired holdings, Black labor is imported from the Cradle, and Biracial “Muleseeds” are bred. Raised in captivity on Planting 437, kitchen-seed Jellybean “Ji-ji” Lottermule knows there is only one way to escape. She must enter the annual Freedom Race as a runner. Ji-ji and her friends must exhume a survival story rooted in the collective memory of a kidnapped people and conjure the voices of the dead to light their way home.
