Back to the Drawing Board Colin B. Carter, Jay W. Lorsch, 2003-10-16 Business scandals from Enron to WorldCom have escalated concerns about corporate governance into a full-blown crisis. Institutional investors and legislators have dominated the debate and enacted important changes in corporate accounting and other areas. But Colin B. Carter and Jay W. Lorsch say that we must now focus on the performance of corporate boards. This timely book argues that boards are being pressed to perform unrealistic duties given their traditional structure, processes, and membership. Carter and Lorsch propose a strategic redesign of boards--making them better attuned to their oversight, decision-making, and advisory roles--to enable directors to meet 21st century challenges successfully. Based on the authors' deep expertise and longtime experience working with boards around the world, and on a probing survey of CEOs, Carter and Lorsch help boards to develop a realistic value proposition customized to the company they serve. The authors explore the core dilemmas and responsibilities boards face and outline a framework for designing the most effective structure, makeup, size, and culture. This book provides a candid account of the current state of boards and points the way in a time of crisis and change.

Back to the Drawing Board by Woody Woodman Drawing People Woody Woodman, 2017-05-03 Hello and welcome to Back to the Drawing Board with Woody Woodman; a former Disney storyboard artist working on films like Mulan, Tarzan, Treasure Planet and Brother Bear. After 20 years working in the animation industry I have learned a great many things about telling stories with drawings from many great artists and would like to share this knowledge with you. In this book Drawing People, I will cover the rules and tools of design and explain several different drawing methods to help you improve your understanding of drawing the human figure with movement, proper proportions, and a sense of weight and depth. On top of my examples and explanations of my process, I also included side by side student examples so you can see some of the common mistakes that are made when learning to draw people. This foundation will allow you to improve communication and compose figures to help tell stories with your drawings.

Back to the Drawing Board Jennifer Quick, 2022 The first book to consider the importance of commercial art and design for Ed Ruscha's work Ed Ruscha (b. 1937) emerged onto the Los Angeles art scene with paintings that incorporated consumer products, such as Spam and SunMaid raisins. In this revelatory book, Jennifer Quick looks at Ruscha's work through the tools, techniques, and habits of mind of commercial art and design, showing how his training and early work as a commercial artist helped him become an incisive commentator on the presence and role of design in the modern world. The book explores how Ruscha mobilized commercial design techniques of scale, paste-up layout, and perspective as he developed his singular artistic style. Beginning with his formative design education and focusing on the first decade of his career, Quick analyzes previously unseen works from the Ruscha archives alongside his celebrated paintings, prints, and books, demonstrating how Ruscha's engagement with commercial art has been foundational to his practice. Through this insightful lens, Quick affirms Ruscha as a powerful and witty observer of the vast network of imagery that permeates visual culture and offers new perspectives on Pop and conceptual art.

Over the Drawing Board Ben Jehudah Lubschez, 2015-07-06 Excerpt from Over the Drawing Board: A Draftmen's Hand Book It was a quite common custom in the West during the early nineties for draftsmen to visit each other's boards and discuss their work and methods, or during the noon hour while eating lunch at the board or at the big detail table which was used only occasionally, to talk over past experiences in other offices and tell about little shortcuts and methods of other draftsmen - that is how I first heard and learned of the work of Harvey Ellis and D. A. Gregg. Again perhaps one of the older men was working on a particularly interesting drawing and the student and some of the younger men were allowed to look on for a few minutes and even to ask a question or two. All these things did not help the orderly working of the drafting room but they contributed mightily to the

education of the draftsman, particularly if he were anxious to learn. I can recall no experiences of my cub days with greater pleasure.
