*The Joy of Smoking: The Light-Hearted Look at Lighting Up* Sue Carroll & Sue Brealy,2015-04-01 Tired of being told to quit, put it out, stand outside, have some consideration, think about your health ...? The list of complaints against smokers would take much longer than a fag break to read out, and many of us (even those who don't smoke) have had just about enough of it! The passive whingeing we endure from the self-righteous is enough to have anyone gasping for another ciggie! Leaping to the defence of the smoker, The Daily Mirror's favourite columnist Sue Carroll and non-smoker Sue Brealey take a hilarious and irreverent look at the humble cigarette, its history and its place in life and death, love and sex, fiction and the silver screen, and champions its survival in the face of a modern tide of persecution from the health police. I knew a man who gave up smoking, drinking, sex and rich food. He was healthy, right up to the day he killed himself.' Johnny Carson 'I just hate being a non-smoker, because I always find smokers the most interesting people on the table.' Michelle Pfeiffer

**How Stella Learned to Talk** Christina Hunger,2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn’t take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn’t they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word “outside” when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella “spoke” her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that

Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.
