Since ancient Egypt and Greece, people have relied on the art of dreaming to diagnose illness and get answers to personal life challenges. Now, dreams are making a grand reappearance in the medical arena as recent scientific research and medical pathology reports validate the diagnostic abilities of precognitive dreams. Are we stepping back into the future as modern medical tests show dreams can be early warning signs of cancer and other diseases? Showcasing the important role of dreams and their power to detect and heal illness, Dr. Larry Burk and Kathleen O'Keefe-Kanavos share amazing research and true stories of physical and emotional healings triggered by dreams. The authors explore medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own research on dreams that come true and can be medically

validated. They share detailed stories--all confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives, including Kathleen's own story as a three-time breast cancer survivor whose dreams diagnosed her cancer even when it was missed by her doctors. Alongside these stories of survival and faith, the authors also include an introduction to dream journaling and interpretation, allowing the reader to develop trust in their dreams as a spiritual source of healing and inner guidance.

Bitter Greens Kate Forsyth, 2014-09-23 A story of desire, black magic and love interweaves the true-life story of French novelist Charlotte-Rose de la Force, who was banished from the court of Versailles by Louis XIV after a series of scandalous love affairs, with the Rapunzel fairy tale.

Lord of the Vampires Gena Showalter, 2011-09-01 Once upon a time...the Blood Sorcerer vanquished the kingdom of Elden. To save their children, the queen scattered them to safety and the king filled them with vengeance. Only a magical timepiece connects the four royal heirs...and time is running out... Nicolai the Vampire was renowned for his virility, but in a twist of fate The Dark Seducer had become a sex slave in the kingdom of Delfina—stripped of his precious timepiece and his memory. All that remained was a primal need for freedom, revenge—and the only woman who could help him. In her dreams, a wanton vampire called to Jane Parker, drawing her to his dark sexuality and his magical realm. But for a human, all was not a fairy tale in Delfina. Jane was the key to Nicolai's memory...but exploiting her meant dooming the only mortal he craved.

The Just City Jo Walton, 2015-01-13 Here in the Just City you will become your best selves. You will learn and grow and strive to be excellent. Created as an experiment by the time-traveling

goddess Pallas Athene, the Just City is a planned community, populated by over ten thousand children and a few hundred adult teachers from all eras of history, along with some handy robots from the far human future—all set down together on a Mediterranean island in the distant past. The student Simmea, born an Egyptian farmer's daughter sometime between 500 and 1000 A.D, is a brilliant child, eager for knowledge, ready to strive to be her best self. The teacher Maia was once Ethel, a young Victorian lady of much learning and few prospects, who prayed to Pallas Athene in an unguarded moment during a trip to Rome—and, in an instant, found herself in the Just City with grey-eyed Athene standing unmistakably before her. Meanwhile, Apollo—stunned by the realization that there are things mortals understand better than he does—has arranged to live a human life, and has come to the City as one of the children. He knows his true identity, and conceals it from his peers. For this lifetime, he is prone to all the troubles of being human. Then, a few years in, Sokrates arrives—the same Sokrates recorded by Plato himself—to ask all the troublesome questions you would expect. What happens next is a tale only the brilliant Jo Walton could tell. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

AA Gill is Away A.A. Gill, 2007-11-01 A. A. Gill is one of the most feared writers in London, noted--according to the New York Times--for his rapier wit. Some even consider the mere assignment of a subject to Gill a hostile act. But when the notice AA GILL IS AWAY runs in the Sunday Times of London, the city can rest peacefully in the knowledge that the writer is off traveling. My editor asked me what I wanted from journalism and I said the first thing that came into my head--I'd like to interview places. To treat a place as if it were a person, to go and listen to it, ask it questions, observe it the way you would interview a politician or a pop star, Gill writes. Upon his return, readers are treated to an account of his vacations to places like famine-stricken Sudan, the pornography studios of California's San Fernando Valley, the dying Aral Sea or the seedy parts of Kaliningrad. The result is one of the most fascinating, stylish and irreverent collections of travel writing.

The Five Ways We Grieve Susan A. Berger, 2011-03-08 In this new approach to understanding the impact of grief, Susan A. Berger goes beyond the commonly held theories of stages of grief with a new typology for self-awareness and personal growth. She offers practical advice for healing from a major loss in this presentation of five basic ways, or types, of grieving. These

five types describe how different people respond to a major loss. The types are: • Nomads, who have not yet resolved their grief and don't often understand how their loss has affected their lives • Memorialists, who are committed to preserving the memory of their loved ones by creating concrete memorials and rituals to honor them • Normalizers, who are committed to re-creating a sense of family and community • Activists, who focus on helping other people who are dealing with the same disease or issues that caused their loved one's death • Seekers, who adopt religious, philosophical, or spiritual beliefs to create meaning in their lives Drawing on research results and anecdotes from working with the bereaved over the past ten years, Berger examines how a person's worldview is affected after a major loss.

According to her findings, people experience significant changes in their sense of mortality, their values and priorities, their perception of and orientation toward time, and the manner in which they fit in society. The five types of grieving, she finds, reflect the choices people make in their efforts to adapt to dramatic life changes. By identifying with one of the types, readers who have suffered a recent loss—or whose lives have been shaped by an early loss—find ways of understanding the impact of the loss and of living more fully.

The Best American Science Fiction and Fantasy 2018 John Joseph Adams, N. K. Jemisin, 2018 A collection of the best American science fiction and fantasy stories from 2017.

True Story Michael Finkel, 2015-06-09 The improbable but true story of a man accused of murdering his entire family and the journalist he impersonated while on the run In 2001, Mike Finkel was on top of the world: young, talented, and recently promoted to a plum job at the New York Times Magazine. Then he made an irremediable slip: Under extraordinary pressure to keep producing blockbuster stories, he fabricated parts of an article. Caught and excommunicated from the Times, he retreated to his home in Montana, swearing off any contact with the media. When the phone rang, though, he couldn't resist. At the other end was a reporter from the San Francisco Chronicle, whom Finkel congratulated on being the first in what was sure to be a long and bloodthirsty line of media watchdogs. The reporter was puzzled. In Waldport, Oregon, Christian Longo had killed his young wife and three children and dumped their bodies into the bay. With a stolen credit card, he fled south, making his way to Cancun, where he lived for several weeks under an assumed identity: Michael Finkel, journalist for the New York Times. True Story is the tale of a bizarre and convoluted

collision between fact and fiction, and a meditation on the slippery nature of truth. When Finkel contacts Longo in jail, the two men begin a close and complex relationship. Over the course of a year, they exchange long letters and weekly phone calls, playing out a cat-and-mouse game in which it's never quite clear if the pursuer is Finkel or Longo—or both. Finkel's dogged pursuit of the true story pays off only at the end, in the gripping trial scenes in which Longo, after a lifetime of deception, finally tells the whole truth. Or so he says.
