Drive Safe Jeff Head,2012-12-11 With Drive Safe, I hope to bring to the forefront a whole new way of teaching drivers of all kinds how to share the road in a safer way. So if you are new to driving a car or an eighteen wheeler all the way to having driven your whole life, a new way of thinking just might be what is needed to help save lives out on the open road.

How to Drive Safely Damian Brindle,2018-03-27 Did You Know That Texting While Driving Increases Your Risk of a Car Accident by 23 Times? Or that the average duration of distraction was a staggering 135 seconds? Sadly, new, teenage drivers are most at risk for fatal car accidents for two main reasons: Their inexperience driving (which leads to hasty, poor decisions), and Peer pressure from friends (which causes them to make dumb, reckless decisions) They need to understand how to drive safely right from the start, and this book will help you do just that. In fact, we'll detail 49 expert tips, tricks, and advice that any driver--new or old--should be aware of before hitting the road. Who I Am, Why Listen To Me My name is Damian Brindle. I'm a longtime survival blogger with many thousands of readers. I've spent the past decade studying and discovering nearly everything I can about survival, especially at home preparedness, to ensure my own family's survival. Over the last several years I've dedicated my life and my time to helping others just like you better survive disasters of all kinds. Like I said, it's my life. I'm also husband to a wonderful wife and father to two growing boys (one of whom is a new driver). I've spent years ensuring my family will be 100% safe, secure, and ready for disasters of all kinds and now I'm offering you the chance to take an important--even crucial--action for yourself by ensuring your new, teenage driver is ready for the road as well. Here's What's Covered Inside The Most Dangerous Driving Times, Days, and Situations (some of these might surprise

you) 5 Actions You Should Always Do Before Driving Off (how spending 15 seconds now can save your life) Why Not Speeding is Much More Than Avoiding Speeding Tickets (and why it doesn't actually save time) What NOT to Do While Driving (you'd be surprised at how much safer you'll be) 11 More Common-Sense Safety Tips to Know (these could keep you the safest of all) Why Semi-Trucks and Other Large Vehicles Deserve Special Attention (hint: they always win car accidents) How to Really Get Your Car Ready for the Road (most people ignore these to their detriment) Why You Must Start Educating Them Now Young adults think they know everything, they think they're invincible, and they think that nothing bad will ever happen to them. You and I both know that's not true. You simply MUST prepare your new, teen driver to be as safe as possible while you still have the opportunity to do so. Here's how to educate your teen to drive safely on the road right from the start. How To Get The Kindle Version Free This book qualifies for the Kindle MatchBook program. Safe Young Drivers Phil Berardelli,2008-05-01 Teenagers are by far the most dangerous age group on the road: a 16-year-old is 12 times as likely as older drivers to die in a crash as a single occupant; put two young teens in a vehicle, and the odds of death and injury nearly double. Safe Young Drivers helps to address this enormous problem. It is an indispensable guide for teaching teens to drive. Intended for parents and teens to use together, it addresses parental issues such as how to choose a car for your teen, and provides teens with simple instruction and important tips to remember. The Motivation Toolkit: How to Align Your Employees'

Interests with Your Own David Kreps,2018-01-09 Renowned Stanford economist David M. Kreps reveals the fundamental principles of employee motivation. Getting your employees to do their best work has never been easy. But it is a particular challenge for knowledge workers, who must attend to many different tasks and whose to-do list is often ambiguous, requiring outside-the-box thinking. Lists of dos and don'ts are rarely effective. Instead, your best bet is to align their interests with your own—the heart of motivation—and set them free to use their own drive and creativity on their, and your, behalf. But how do you align their interests with your own? How do you avoid incentive schemes that warp priorities, encourage perfunctory and sloppy work, or cause unethical behavior? In The Motivation Toolkit, economist and management expert David Kreps offers a

variety of tools, drawn from the disciplines of economics and social psychology, that you can adapt to your specific situation to achieve better motivation. This starts with understanding both the economic and social relationship your employees have with their work, their jobs, and your organization, then using that understanding to find economic or psychological motivators that will work. Whatever your business, and whether you're a newly minted manager, a seasoned executive hungry for your employees' best work, or a curious leader looking for new ways to be effective, The Motivation Toolkit will prove a useful and enlightening read.
