Not So Fast Tim Hollister, Sandy Spavone, 2013-09-01 Most of the information available to parents of teen drivers acknowledges that driving is risky, and then advises parents that their obligation is to teach their teens how to operate a vehicle—but little more. Missing from most available resources are explanations of why teen driving is so dangerous, and specific, proactive steps that parents can take day-by-day, each time a teen driver gets behind the wheel, to counteract the situations that most often lead to crashes. **Not So Fast** fills this gap in the existing literature, providing advice to parents, guardians, and other adults who supervise teen drivers about the critical decisions that must be made before a teen drives. **Not So Fast** empowers and guides parents to:

- Evaluate the circumstances of every driving trip
- Be able to say “No” when necessary
- Prepare a “flight plan” for each drive
- Become an informed, proactive supervisor
- Control distracted driving and texting
- Put safety before convenience
- Manage curfews, and much more

Since losing his 17-year-old son Reid in a one-car crash in 2006, Tim Hollister has become a national authority and spokesperson for safer teen

driving, serving on a Connecticut state task force to overhaul his state's teen driving laws; launching From Reid's Dad, a national blog for parents of teen drivers; appearing as an expert commentator on regional TV and radio; and being awarded the US Department of Transportation Public Service Award, the nation's highest civilian award for traffic safety. Sandy Spavone is the executive director of National Organizations for Youth Safety (NOYS), a coalition of national organizations that promote youth empowerment and leadership and build partnerships that save lives, prevent injuries, and enhance safe and healthy lifestyles among all youth.

The Warlock in Spite of Himself Christopher Stasheff, 1969-01-01 SCIENCE AND

SORCERY DO NOT MIX—EXCEPT ON GRAMARYE Skeptical, cynical Rod Gallowglass is a spacefaring man of science who does not believe in magic. He's also an operative of the agency SCENT, tasked with finding lost colony planets, then guiding them toward democracy and eventual membership in the galactic community. But when he stumbles across the strange new planet Gramarye, he's shocked to discover a medieval society full of witches and warlocks, elves and monsters. How is it even possible? Worse, Rod's advanced technology quickly gets him labeled a warlock, despite his constant denials. Moreover, the Kingdom is in political turmoil, with a young girl-queen on the brink of civil war with her rebellious lords. Rod slowly discovers off-world organizations are behind the unrest, trying to subtly corrupt Gramarye away from democratic rule. His mission is threatened at every turn by fascists, anarchists, and double-dealing royalists playing vicious political power games for the future of the most unique—and perhaps most important—planet in the galaxy. Aided only by a coven of teenage witches, a ragtag army of beggars, and his epileptic robot horse Fess, Rod decides the only way to thwart these destructive influences—both native and off-planet—is for him to become a part of the local fabric and lead Gramarye as one of their own. But to do so, Rod Gallowglass must put aside his own convictions and beliefs, and become a warlock, in spite of himself.

Many books have been written about this but; you will find this book is special and unique in many respects. In short 'THIS IS AN ACTION BOOK' however even small action will have an impact on society now and in future. Its main theme is 'YOU ARE THE ONLY PERSON WHO CAN AND SHOULD ENSURE YOUR OWN SAFETY.' Driverthink Frank Miller, 2009-06 Driverthink is not just another Go Slow Safe Driving guidebook. Within its pages are reality based driving tips, ideas and suggestions that can literally save your life For too long, the focus on safe driving has been to expound Politically Correct driving

concepts that simply don't take into account the Reality of driving a vehicle at high speed on modern roads and highways. Otherwise responsible people don't suddenly shed their responsibility when they slip behind the wheel. But they don't often really think about their driving either. Thus the title Driverthink. In order to be responsible, safe drivers, we need to think about our driving. We need to know our machines, know our limitations, maximize our driving skills and gain driving experience as quickly as possible.

Driverthink breaks new ground by exploring each of these areas in lively, entertaining detail. Drive Fast or Drive Slow - but Driverthink when you drive Driverthink is a collection of articles from the popular blog of the same name. Written in a lively and entertaining style, each of the articles explore specific driving situations or issues in detail, offering driving tips, ideas and suggestions on how to deal with the different situations. Driverthink is an excellent review for the seasoned driver and a must read for the newer, less experienced driver. Driverthink would suggest that Speed may kill, but unskilled driving can definitely kill. Does the average driver even know what over steer or under steer are? Do they know what kind of rear suspension they're driving on? Do they really understand how these most basic driving concepts will affect the handling of their vehicles - especially in an emergency situation? Driving on our roads and highways must be about reality. It is dealing with that reality that will keep us alive. Following standard issue, politically correct advice offered by those with limited

skills and no appreciation for the realities of driving, simply doesn't create safer driving. Just Slow Down, might not be the best advice on a highway where even the slow lanes are doing limit plus ten. High speed rear end accidents can really ruin the day and excessively slow driving will most surely restrict traffic flow. Perhaps it's not the best advice after all Driverthink is a most serious effort by the author, to start really saving lives on our Highways and Byways. It will help you to become a much safer Driverthink driver It may even save your life.

Texting While Driving for Geniuses 4dham J. Henders8,Just for Geniuses,2014-06-20 Some people think that they are able to text while driving and it's safe as long as they don't get caught. You may know people like that. You may even be that person. To reinforce the message how dangerous it is to text while driving, this book pretends to be a book for instructing geniuses how to text while driving. However, the book is actually a warning how dangerous it is to text while driving. To reinforce the message, the same warning is repeated for all 102 pages. This is a perfect gift for the family member, friend, or colleague that no matter how much you warn them about the dangers about texting while driving, they somehow think that the laws of physics don't apply to them. The Geniuses Guide to Texting While Driving is part of a new series. A series made for geniuses. Geniuses who think they know everything. Geniuses who are too smart for their own good. WARNING: There is one page of content which is repeated for 102 pages.

The pages are lined so that when you are done reading the book, it can also be used as a notebook.

1001 Ways to Drive Defensively Honesto Marcos, 2014-02-01 In spite of better-engineered vehicles and roads, traffic accidents are increasing. Why? Drivers are now better prepared and trained. Accidents are also mostly preventable if only drivers learn defensive driving and accident avoidance techniques. It teaches among other things, to be helpful, courteous, and defensive regardless of who is at fault but who has the last clear chance to avoid the accident. It's easy to learn and to execute. Without knowledge of defensive driving and accident avoidance techniques, that person is considered half a driver. We can't continue the carnage in the roads; it's expensive and can result in losing health and/or life. In this book, 1001 Ways to Drive Defensively, for your safety and driving enjoyment, the ideas are sometimes repeated because driving is a repetition of the same maneuvers for any trip made. To help remember the procedures, it is presented in different ways. It is also not organized chronologically because when we are behind the wheel, things don't happen in logical order; the situations and circumstances do dictate. The author has a bachelor's degree in education. He has been a North American driver for almost fifty years, most of which were in Cold Alberta, Canada, where winter could last for six months. You guessed it—lots of traffic accidents. Thus, the knowledge of defensive driving was a must. In Alberta, he was a schoolteacher, operated a driving school, a

driving instructor and driver examiner. Author urges safety-conscious individuals not to wait any longer; get a copy of 1001 Ways to Drive Defensively. It makes driving enjoyable, less stressful, and most of all, you'll experience safety whenever you are behind the wheel. Don't forget you're protecting the most expensive thing that was created, and no amount of money can replace it. This book is suitable for all drivers. However, discretion is necessary; you might save one or two accidents in what is left of your driving days. We all have to pitch in and help make the roads safer. No government can do it alone. We must not forget that other drivers are our friends we haven't met. Why don't we help them and, in the process, help ourselves too? In an accident, regardless of who is at fault, we'll still suffer the same consequences. It takes only a second or two to help versus days or months recuperating. Some drivers make this statement, "whatever I do, if other drivers make a mistake what can I do?" Drivers that have this kind of reasoning forget that to be safe, one does not only drive their vehicle, follow traffic rules, but help other driver if they make a mistake. Apply defensive driving technique if one notices a condition that can develop into vehicle conflict. This book will make a perfect gift for anybody, for any occasion and they will be grateful and remember you for life.

Distracted Driving: the Multi-Tasking Myth Steven Gacovino (D.), Edward Lake, Luke Russell (W.), 2014-03-18 We all want to believe we can drive responsibly and monitor distractions. But our attention is limited by nature, and we are often very subtly distracted from noticing things right in front of us. Depending on what you're doing while you're driving, you could literally miss seeing a giraffe grazing on the roadside. Because of distractions, many people have failed to see a gorilla beating its chest right in front of them, and this is no joke. We really are not good multi-taskers when our attention is spread over tasks that require dedicated attention. That's why conversations on cellphones turn out to be a serious distraction to drivers. Read this book and see what you think. And then see what you think about whether it's fair to the rest of the people in your car or on the road when you allow yourself to be distracted in the special way that cellphones can distract.

Safe Driving Tips Everyone Should Know Christian Leibman, 2021-07-15 No one will admit to being a terrible driver, but we've all, at one point or

another, tried multitasking while driving behind the wheel on the road. Most of us have also gone on long road trips by car. This book can help you avoid the costly mistakes that far too many drivers make because of not being fully aware of their driving risk. Much is said about driving safely and defensively but little is taught about HOW to manage the actual risk involved. In each section of the book are exercises for both experienced and inexperienced drivers that will greatly reduce your chances of collision. The added bonus is also less stress. It is an in depth look at an unseen epidemic that is on going every day in all the lives of drivers here in the U.S. (averaging 200 deaths daily)and in fact throughout the entire world (1.3+ million deaths every year). From how we all drive to an actionable plan to end this epidemic. The book will take you on a trip of self discovery that will challenge you as either a new driver or very experienced.
