Drive Daniel H. Pink, 2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Hard Drive James Wallace, Jim Erickson, 1993-06 The true story behind the rise of a tyrannical genius, how he transformed an industry, and why everyone is out to get him. In this fascinating exposé, two investigative reporters trace the hugely successful career of Microsoft founder Bill Gates. Part entrepreneur, part enfant terrible, Gates has become the most powerful -- and feared -- player in the computer industry, and arguably the richest man in America. In *Hard Drive*, investigative reporters Wallace and Erickson follow Gates from his days as an unkempt thirteen-year-old computer hacker to his present-day status as a ruthless billionaire CEO. More than simply a revenge of the nerds story though, this

is a balanced analysis of a business triumph, and a stunningly driven personality. The authors have spoken to everyone who knows anything about Bill Gates and Microsoft -- from childhood friends to employees and business rivals who reveal the heights, and limits, of his wizardry. From Gates's singular accomplishments to his equally extraordinary brattiness, arrogance, and hostility (the atmosphere is so intense at Microsoft that stressed-out programmers have been known to ease the tension of their eighty-hour workweeks by exploding homemade bombs), this is a uniquely revealing glimpse of the person who has emerged as the undisputed king of a notoriously brutal industry.

Drive James Sallis, 2011-10-04 Much later, as he sat with his back against an inside wall of a Motel 6 just north of Phoenix, watching the pool of blood lap toward him, Driver would wonder whether he had made a terrible mistake. Later still, of course, there'd be no doubt. But for now Driver is, as they say, in the moment. And the moment includes this blood lapping toward him...

Drive Kate Stewart, 2017-10-13 Music . . . the heart's greatest librarian. The average song is three and a half minutes long; those three and a half minutes could lead to a slow blink, a glimpse of the past, or catapult the soul into heart-shattering nostalgia. At the height of my career, I had the life I wanted, the life I'd always envisioned. I'd found my tempo, my rhythm. Then I received a phone call that left me off key. You see, my favorite songs had a way of playing simultaneously. I was in love with one man's beats and another's lyrics. But when it came to the soundtrack of a life, how could anyone choose a favorite song? So, to erase any doubt, I ditched my first-class ticket and decided to take a drive, fixed on the rearview. Two days. One playlist. And the long road home to the man who was waiting for me.

365 Sports Cars You Must Drive John Lamm,Steve Sutcliffe,Larry Edsall,James Mann,Kris Palmer,2020-10-27 365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck

magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

Horatio's Drive Dayton Duncan, Ken Burns, 2003 The companion volume to the PBS documentary film about the first—and perhaps most astonishing—automobile trip across the United States. In 1903 there were only 150 miles of paved roads in the entire nation and most people had never seen a “horseless buggy”—but that did not stop Horatio Nelson Jackson, a thirty-one-year-old Vermont doctor, who impulsively bet fifty dollars that he could drive his 20-horsepower automobile from San Francisco to New York City. Here—in Jackson's own words and photographs—is a glorious account of that months-long, problem-beset, thrilling-to-the-rattled-bones trip with his mechanic, Sewall Crocker, and a bulldog named Bud. Jackson's previously unpublished letters to his wife, brimming with optimism against all odds, describe in vivid detail every detour, every flat tire, every adventure good and bad. And his nearly one hundred photographs show a country still settled mainly in small towns, where life moved no faster than the horse-drawn carriage and

where the arrival of Jackson's open-air (roofless and windowless) Winton would cause delirious excitement. Jackson was possessed of a deep thirst for adventure, and his remarkable story chronicles the very beginning of the restless road trips that soon became a way of life in America. *Horatio's Drive* is the first chapter in our nation's great romance with the road. With 146 illustrations and 1 map

Velva Jean Learns to Drive Jennifer Niven, 2009-07-28 The New York Times bestselling author of *All the Bright Places*—soon to be a Netflix film starring Elle Fanning—presents a coming-of-age debut about ill-fated love during the Great Depression—and what it means to be a woman with ambition. Velva Jean's mother urged her to “live out there in the great wide world,” and growing up in Appalachia in the years before World War II, Velva Jean dreams of becoming a big-time singer in Nashville. Then she falls in love with Harley Bright, a handsome juvenile delinquent turned revival preacher. As their tumultuous love story unfolds, Velva Jean must choose between keeping her hard-won home and pursuing her dream of singing in the Grand Ole Opry. Like *All the Bright Places*, hailed as a “charming love story about [an] unlikely and endearing pair” (New York Times Book Review), Jennifer Niven's debut novel is a big-hearted story about the struggle to find happiness.

Future Drive Daniel Sperling,2013-02-22 In Future Drive, Daniel Sperling addresses the adverse energy and environmental consequences of increased travel, and analyzes current initiatives to suggest strategies for creating a more environmentally benign system of transportation. Groundbreaking proposals are constructed around the idea of electric propulsion as the key to a sustainable transportation and energy system. Other essential elements include the ideas that: improving technology holds more promise than large-scale behavior modification technology initiatives must be matched with regulatory and policy initiatives government intervention should be flexible and incentive-based, but should also embrace selective technology-forcing measures more diversity and experimentation is needed with regard to vehicles and energy technologies Sperling evaluates past and current attempts to influence drivers and vehicle use, and articulates a clear and compelling vision of the future. He formulates a coherent and specific set of principles, strategies, and policies for redirecting the United States and other countries onto a new sustainable pathway.

End of the Drive Louis L'Amour, 2005-03-08 A veteran trail driver, who has survived thundering stampedes and Comanche raids, discovers there’s nothing so dangerous as courting a beautiful woman. A brutally beaten homesteader crawls off to die—only to stumble upon an ancient talisman that restores his will to live. A mysterious preacher rides into town to deliver a warning that leads to a surprising revelation. And in the full-length novella *Rustler Roundup*, the hardworking citizens of a law-abiding

town are pushed to the edge as rumors of rustlers in their midst threaten to turn neighbor against neighbor. This treasure trove of stories captures the grit, grandeur, and glory of the men and women who wielded pistol and plow, Bible and branding iron, to tame a wild country. Each of these unforgettable tales bears the master's touch—comic twists, stark realism, crackling suspense—all the elements that have made Louis L'Amour an American legend.
