Drugs, Law, People, Place and the State Stewart Williams, Barney Warf, 2017-10-02 Though any psychoactive substance can be revered or reviled as a drug, as people's cultural norms shift, ultimately its status is determined in law by the state. This publication explores the regulation of drugs – alcohol and cannabis to heroin and cocaine – and practices such as social drinking and public injecting under political regimes. Drugs are discussed in their geographical contexts: the colonial legacy of cannabis prohibition for bioprospecting in Africa; the veracity of the persistent notion of the narco-state; Turkey's governance of drinking amid civil unrest; and alcohol's place in the neoliberal political economy of Ireland. In addition, drug policies are examined: from problems in managing drug-related litter in the UK to supervised injecting facility provision in Australia; harm reduction in Canada; and the global network of drug policy activists. Place is significant, but porous borders, territorial overlaps and multi-scalar linkages are influential in remaking the world through current challenges to the 'war on drugs'. This book was originally published as a special issue of *Space & Polity*.

Why Our Drug Laws Have Failed James Gray,2010-08-05 A devastating indictment of the War on Drugs.

Law, Drugs and the Making of Addiction Kate Seear,2019-06-25 This book considers how largely accepted 'legal truths' about drugs and addiction are made and sustained through practices of lawyering. Lawyers play a vital and largely underappreciated role in constituting legal certainties about substances and 'addiction', including links between alcohol and other drugs, and phenomena such as family violence. Such practices exacerbate, sustain and stabilise 'addicted' realities, with a range of implications – many of them seemingly unjust – for people who use alcohol and other drugs. This book explores these issues, drawing upon data collected for a major international study on alcohol and other drugs in the law, including interviews with lawyers, magistrates and judges; analyses of case law; and legislation. Focussing on an array of legal practices, including processes of law-making, human rights deliberations, advocacy and negotiation strategies, and the sentencing of offenders, and buttressed by overarching analyses of the ethics and politics of such practices, the book looks at how alcohol and other drug 'addiction' emerges and is concretised through the everyday work lawyers and decision makers do. Foregrounding 'practices', the book also shows that law is more fragile than we might assume. It concludes by presenting a blueprint for how lawyers can rethink their advocacy practices in light of this fragility and the opportunities it presents for remaking law and the subjects and objects shaped by it. This ground-breaking book will be of interest not only to those studying and working within the field of alcohol and drug addiction but also to lawyers and judges practising in this area and to scholars in a range of disciplines, including law, science and technology studies, sociology, gender studies and cultural studies

Drugs and Drug Policy Mark A.R. Kleiman,Jonathan P. Caulkins,Angela Hawken,2011-07-13

While there have always been norms and customs around the use of drugs, explicit public policies--regulations, taxes, and prohibitions--designed to control drug abuse are a more recent phenomenon. Those policies sometimes have terrible side-effects: most prominently the development of criminal enterprises dealing in forbidden (or untaxed) drugs and the use of the profits of drug-dealing to finance insurgency and terrorism. Neither a drug-free world nor a world of free drugs seems to be on offer, leaving citizens and officials to face the age-old problem: What are we going to do about drugs? In *Drugs and Drug Policy*, three noted authorities survey the subject with exceptional clarity, in this addition to the acclaimed series, *What Everyone Needs to Know®*. They begin, by defining drugs, examining how they work in the brain, discussing the nature of addiction, and exploring the damage they do to users. The book moves on to policy, answering questions about legalization, the role of criminal prohibitions, and the relative legal tolerance for alcohol and tobacco. The authors then dissect the illicit trade, from street dealers to the flow of money to the effect of catching kingpins, and show the precise nature of the relationship between drugs and crime. They examine treatment, both its effectiveness and the role of public policy, and discuss the beneficial effects of some abusable substances. Finally they move outward to look at the role of drugs in our foreign policy, their relationship to terrorism, and the ugly politics that surround the issue. Crisp, clear, and comprehensive, this is a handy and up-to-date overview of one of the most pressing topics in today's world. *What Everyone Needs to Know®* is a registered trademark of Oxford University Press.

Nation's Toughest Drug Law: Evaluating the New York Experience - Final Report of the Joint Committee on New York Drug Law Evaluation U.S. National Institute of Law Enforcement and Criminal Justice,

Informing America's Policy on Illegal Drugs National Research Council, Commission on Behavioral and Social Sciences and Education, Committee on National Statistics, Committee on Law and Justice, Committee on Data and Research for Policy on Illegal Drugs, 2001-09-27 How should the war on drugs be fought? Everyone seems to agree that the United States ought to use a combination of several different approaches to combat the destructive effects of illegal drug use. Yet there is a remarkable paucity of data and research information that policy makers require if they are to create a useful, realistic policy package-details about drug use, drug market economics, and perhaps most importantly the impact of drug enforcement activities. *Informing America's Policy on Illegal Drugs* recommends ways to close these gaps in our understanding-by obtaining the necessary data on drug prices and consumption (quantity in addition to frequency); upgrading federal management of drug statistics; and improving our evaluation of prevention, interdiction, enforcement, and treatment efforts. The committee reviews what we do and do not know about illegal drugs and how data are

assembled and used by federal agencies. The book explores the data and research information needed to support strong drug policy analysis, describes the best methods to use, explains how to avoid misleading conclusions, and outlines strategies for increasing access to data. Informing America's Policy on Illegal Drugs also discusses how researchers can incorporate randomization into studies of drug treatment and how state and local agencies can compare alternative approaches to drug enforcement. Charting a course toward a better-informed illegal drugs policy, this book will be important to federal and state policy makers, regulators, researchers, program administrators, enforcement officials, journalists, and advocates concerned about illegal drug use.

Why Our Drug Laws Have Failed and What We Can Do About It James Gray, 2011-12-16
Our drug prohibition policy is hopeless, just as Prohibition, our alcohol prohibition policy, was before it. Today there are more drugs in our communities and at lower prices and higher strengths than ever before. We have built large numbers of prisons, but they are overflowing with non-violent drug offenders. The huge profits made from drug sales are corrupting people and institutions here and abroad. And far from being protected by our drug prohibition policy, our children are being recruited by it to a lifestyle of drug use and drug selling. Judge Gray's book drives a stake through the heart of the War on Drugs. After documenting the wide-ranging harms caused by this failed policy, Judge Gray also gives us hope. We have viable options. The author evaluates these options, ranging from education and drug treatment to different strategies for taking the profit out of drug-dealing. Many officials will not say publicly what they acknowledge privately about the failure of the War on Drugs. Politicians especially are afraid of not appearing tough on drugs. But Judge Gray's conclusions as a veteran trial judge and former federal prosecutor are reinforced by the testimonies of more than forty other judges nationwide.
