## **I Drum, Therefore I Am** Dr Gareth Dylan Smith, 2013-04-28

Despite their central role in many forms of music-making, drummers have been largely neglected in the scholarly literature on music and education. Drawing on data collected from in-depth interviews and questionnaires, Gareth Dylan Smith explores the identities, practices and learning of teenage and adult kit drummers in and around London. As a London-based drummer and teacher of drummers, Smith uses his own identity as participant-researcher to inform and interpret other drummers' accounts of their experiences. Drummers drum; therefore they are, they do, and they learn - in a rich tapestry of means and contexts.

The first section is an alphabetical list of T.O. Library's significant radio script collections, with notes on their content and format. **The Periodic Table of Elements Coloring Book** Teresa Bondora, 2010-07-31 A coloring book to familiarize the user with the Primary elements in the Periodic Table. The Periodic Table Coloring Book (PTCB) was received worldwide with acclaim. It is based on solid, proven concepts. By creating a foundation that is applicable to all science (Oh yes, Hydrogen, I remember coloring it, part of water, it is also used as a fuel; I wonder how I could apply this to the vehicle engine I am studying...) and creating enjoyable memories associated with the elements science becomes accepted. These students will be interested in chemistry, engineering and other technical areas and will understand why those are important because they have colored those elements and what those elements do in a non-threatening environment earlier in life.
