*Who Owns the News?* Will Slauter, 2019-01-29 Can a free press survive in an era of free content? An "entertaining and well-written" examination of copyright law, its history, and its purpose (New York Law Journal). You can't copyright facts, but is news a category unto itself? Without legal protection for the "ownership" of news, what incentive does a news organization have to invest in producing quality journalism that serves the public good? Can a free press survive in the era of free content? This book explores the intertwined histories of journalism and copyright law in the United States and Great Britain, revealing how shifts in technology, government policy, and publishing strategy have shaped the media landscape. Publishers have long sought to treat news as exclusive to protect their investments against copying or "free riding." But over the centuries, arguments about the vital role of newspapers and the need for information to circulate have made it difficult to defend property rights in news. Beginning with the earliest printed news publications and ending with the Internet, Will Slauter traces these countervailing trends, offering a fresh perspective on debates about copyright and efforts to control the flow of news. "A well-written, thoughtful book, demonstrating how copyright law has struggled to keep up with the development of news culture, setting out the historical context in great detail and supported by much research, and with interesting conclusions and predictions for the future. It is unreservedly recommended." --European Intellectual Property Review

Every Week a Season Brian Curtis, 2007-12-18 "Brian Curtis tells the stories behind the stories. He brings the meetings, practice sessions, recruiting calls and game day experience to light like never before. Fans who want to know what goes on behind the scenes will find out in this book." –RON ZOOK, head football coach, the University of Florida In Every Week a Season, acclaimed sports reporter and author Brian Curtis takes readers on an unprecedented whirlwind tour of NCAA Division I football. It's a world that breeds great drama, a world that millions watch but few understand. It is a multibillion-dollar business. It is an obsession. To get to the beating heart of college football, Curtis embarked on a breakneck itinerary that took him where all red-blooded college football fans long to be: behind the scenes at nine big-time programs. In nine weeks, Curtis visited Colorado State University, the University of Georgia, Boston College, the University of Tennessee, the University of Maryland, the University of Wisconsin, Louisiana State University, Florida State University, and Arizona State University. He braved the rain to watch Wisconsin pull off the upset of the year; he was at Neyland Stadium to see Tennessee manage a thrilling overtime victory; he was in Tallahassee to witness Florida State's dramatic double overtime battle for the ACC title. As added bonuses, he was with Georgia when the team fought for the SEC Championship, and on the LSU sideline when the boys from Baton Rouge defeated Oklahoma to capture the BCS National Championship. At each stop, he brings us inside the game's inner sanctum: in team meetings and scouting sessions; on the field and on the sidelines, during scrimmages, practices, and games; at pre-game traditions, meals, and religious services; in the locker room before the game and at half-time. Virtually nothing and no one was off-limits. Along with the players, Curtis got to know the coaches—from the young guns to the legends—spending time with them in their offices and on the road. We see firsthand the challenges of running a major college football program—when called on, coaches must serve as CEOs, PR gurus, lawyers, politicians, and policemen. We also learn of the sacrifices made by wives and children that enable coaches to keep the numerous young athletes under their supervision focused, secure, and happy. Brian Curtis gives a no-holds-barred insider's account that will rank as one of the most honest and accurate books on big-time sports in America. Short of strapping on a helmet, you'll never get closer to the game.

**Mighty Wolves** Edwin Walker, 2023-04-18 As you travel with the Mighty Wolves and the Lady Wolves, those of you who recall, if one was not in Cope Hall by the tip off, would find themselves standing for the entire game. The Wolves' fans yelling Troop, Troop! as Tom Washington pulls down a rebound. You might recall the squad that averaged 100 points per game. My best memory is when the Wolves hosted the Eastern Regionals of the NCAA tournament in 1978. Cope Hall packed to the rafters, the Wolves hit the hardwood of Cope Hall, with the song Flashlight. Who at that point knew they were watching the Division II Champions of 1978. Since I have seen the Wolves since the early 60's, seeing such players as Booker, Mims, Kirkland, Wilson, Bell, Colston, and Green, just to name a few, I am asked, Who was the best? My reply is all, for all were winners! During those years, the race card was the issue. If you notice the box scores, the state championship game was not played at Cheyney until the 1970's. As a volunteer coach for the basketball program, I believe if the teachings of good fundamentals are taught, one will surely win, or be very competitive. I would like to thank all those members of the Mighty Wolves and those coaches who gave their all to the Mighty Wolves.

The Year 2000 Charles B. Strozier, Michael Flynn, 1997-08 A fascinating collection of predictions for the end-times in the year 2000 The Year 2000 is at hand. The end of the millennium means many things to many people, but it has significance for almost everyone. A thousand years ago, monks stopped copying manuscripts and religious building projects came to a halt as panic swept Europe. Today, anxiety about global warming, government power, superviruses, even recycling, is on some level rooted in the fear of irreversible cataclysm. In a landscape shadowed by racial conflict, technological upheaval, AIDS, and nuclear weapons, we reasonably fear the end of history. 2000 looms large in our religious, political, and cultural imagination. But while 2000 brings dread it also raises the prospect of transformation. There is hope to be found in the apocalyptic. This panoramic volume explores how the Year 2000 operates in contemporary political discourse, from Black evangelical politics to radical right-wing rhetoric. One section is devoted specifically to apocalyptic violence, analyzing twentieth-century cults and cultural movements, from David Koresh—who renamed his Waco compound Ranch Apocalypse and perished in a modern-day Armageddon that fueled the millennialist angst of other extremist groups—to environmental campaigns like Earth First! that also rely on the language of violence and imminent doom in their greening of the Apocalypse.
