### **Another Country - Growing Up In '50s Ireland** Gene

Kerrigan,1998-04-01 From First Communions to CIE Mystery Tours - the heartwarming story of award-winning journalist Gene Kerrigan's childhood in Dublin in the '50s In his highly addictive style, Gene Kerrigan effortlessly reconstructs the Ireland of the 1950s and early '60s in which he grew up. An adult world of absolute moral certainties, casual cruelties and mass emigration; for children an age of innocence, but an innocence hemmed in by fear and guilt. In this brilliant and humorous memoir, Kerrigan tells of a world that now seems as distant as another country. Into the details of school, street and family life, of Christmas, First Communion, school violence, CIE Mystery Tours and the arrival of television are woven the political background of the day and recollections of the impact of major figures: Michael O Hehir, Seán Lemass, Eamon 'Dev' De Valera, JFK, not to mention Hector Grey, Shane, Davy Crockett and Audie Murphy. It's a compelling, touching and often very funny account of a happy childhood in a country that was itself far from happy.

### **A Spree of Comedy** Cormac G. McDermott BA,

MEconSc.,2015-02-12 'A Spree of Comedy' is a collection of individual scenes involving ordinary Irish people in everyday circumstances akin to a soap opera but is not a continuous storyline. The author repeats the characters in order for the readers to familiarise themselves with them. These characters are fictitious people whom most people will be able to relate to. The conversations are very light-hearted and often include really funny punchlines. This book allows one to escape the stresses of modern-day living and enjoy a good laugh. It is a work of comic genius!

### **Dublin: The Chaos Years** Neil Cotter,2018-10-04 Dublin has

become the dominant force in Gaelic football, setting new standards of skill and efficiency. But it was not very long ago that the county was a byword for underachievement and

disorganization. Every year from 1996 to 2010, the Dubs found new and creative ways of losing, of causing their fans to suffer, and of earning the scorn of the wider GAA public. Based on interviews with former players and coaches, *Dublin: The Chaos Years* tells the entertaining and sometimes scarcely believable story of how the Dubs managed to make such a hames of things over a period of fifteen years. It also traces the beginnings of the turnaround, as the bad habit of failure began to give way to a healthier culture. Full of frank, witty and sometimes outrageous stories and analysis from the people who were at the centre of it, *Dublin: The Chaos Years* is a book for every Gaelic football fan.

Dublin Oldschool Emmet Kirwan, 2016-03-22 Epic. In small ways. Jason, a wannabe DJ, is making his way through the streets of Dublin on a chemically enhanced trip, stumbling from one misguided misadventure to another. Somewhere between the DJs, decks, drug busts and hilltop raves, he stumbles across a familiar face from the past: his brother, Daniel. Daniel is an educated, homeless addict, living on the streets of Dublin. The brothers haven't seen or spoken to each other in three years but over a lost weekend they reconnect and reminisce over tunes, trips, their history and their city. Two brothers living on the edge, perhaps they have more in common than they think, but how long can this buzz last? This programme text edition of *Dublin Oldschool* was published to coincide with the revival of the play at the Project Arts Centre, Dublin, on 11 January 2016.

## **The Irish Art of Controversy** Lucy McDiarmid, 2018-07-05

Controversies are high drama: in them people speak lines as colorful and passionate as any recited on stage. In the years before the 1916 Rising, public battles were fought in Ireland over French paintings, a maverick priest, Dublin slum children, and theatrical censorship. Controversy was popular, wrote George Moore, especially when accompanied with the breaking of chairs. In her new book, Lucy McDiarmid offers a witty and illuminating account of these and other controversies, antagonistic exchanges with no single or no obvious high ground. They merit attention, in her view, not because the Irish are more combative than other peoples, but because controversies functioned centrally in the debate over Irish national identity. They offered to everyone direct or vicarious involvement in public life: the question they articulated was not Irish Ireland or English Ireland but whose Irish Ireland would dominate when independence was finally achieved. *The Irish Art of Controversy* recovers the histories of the man who died for the language, Father O'Hickey, who defied the bishops in his fight for Irish Gaelic; Lady Gregory and Bernard Shaw's defense of the Abbey Theatre against Dublin Castle; and the 1913 Save the Dublin Kiddies campaign, in which priests attacked socialists over custody of Catholic children. The notorious Roger Casement—British consul, Irish rebel, humanitarian, poet—forms the subject of the last chapter, which offers the definitive commentary on the long-lasting controversy over his diaries. McDiarmid's use of archival sources, especially little-known private letters, indicates the way intimate exchanges, as well as cartoons, ballads, and editorials, may exist within a public narrative. In its original treatment of the rich material Yeats called intemperate speech, *The Irish Art of Controversy* suggests new ways of thinking about modern Ireland and about controversy's bluff, bravado, and improvisational flair.

**Global and Regional Dynamics in Knowledge Flows and Innovation** Chris Van Egeraat, Dieter Kogler, Phil Cooke, 2015-10-14  
Innovation, which in essence is the generation of knowledge and its subsequent application in the marketplace in the form of novel products and processes, has become the key concept in inquiries concerning the contemporary knowledge based economy. Geography plays a decisive role in the underlying processes that enable and support knowledge formation and diffusion activities. Place specific characteristics are considered especially important in this context, however, more recently investigation into innovative capacity of places has also turned its attention to external knowledge inputs through innovation networks, and increasingly recognize the evolutionary character of the processes that lead to knowledge creation and subsequent application in the marketplace. The chapters that comprise this book are embedded at the intersection of the dynamic processes of knowledge production and creative destruction. The first three contributions all discuss the role of global innovation networks, in the context of territorial and/or sectoral dynamics, while the following two chapters investigate the evolution of regional or metropolitan knowledge economies. The final three contributions adopt a knowledge base approach in order to provide insight into the organisation of innovation networks and spatiality of knowledge flows. This book was published in a special issue of European Planning Studies.

**Snapshot Stories** Erika Hanna, 2020-02-06  
During the twentieth century, men and women across Ireland picked up cameras, photographing days out at the beach, composing views

of Ireland's cities and countryside, and recording political events as they witnessed them. Indeed, while foreign photographers often still focused on the image of Ireland as bucolic rural landscape, Irish photographers—snapshotter and professional alike—were creating and curating photographs which revealed more complex and diverse images of Ireland. *Snapshot Stories* explores these stories. Erika Hanna examines a diverse array of photographic sources, including family photograph albums, studio portraits, the work of photography clubs and community photography initiatives, alongside the output of those who took their cameras into the streets to record violence and poverty. The volume shows how Irish men and women used photography in order to explore their sense of self and society and examines how we can use these images to fill in the details of Ireland's social history. By exploring this rich array of sources, *Snapshot Stories* asks what it means to see—to look, to gaze, to glance—in modern Ireland, and explores how conflicts regarding vision and visibility have repeatedly been at the centre of Irish life.

Media Industries in Crisis Vicki Mayer, Noa Lavie, Miranda Banks, 2024-04-02 This edited volume offers a global overview of the immediate impacts the COVID pandemic had on local and national film, television, streaming, and social media industries—examining in compelling detail how these industries managed the crisis. With accounts from the frontlines, *Media Industries in Crisis* provides readers with a stakeholder framework, management lessons, and urgent commentaries to unpack the nature of crisis management and communications. The authors show how these industries have not only survived, but often thrive amidst a backdrop of critical national and regional emergencies, wars, financial meltdowns, and climate disasters. This international collection—featuring case studies from 16 countries—examines how media industries managed all of these crises, successfully rebranding themselves as “essential” while making power plays in politics, economics, and culture. The

chapters reveal key lessons for the meltdowns, tectonic shifts, and struggles ahead. This collection will be of interest to media and communication students, particularly those focused on media industries, crisis communications, and management, as well as to practitioners working in media industries.
