Roy Innis

The Dumb Book Editors of Reader's Digest, 2014-03-18 The old adage truth is stranger than fiction can also be construed as truth is funnier than fiction and we see no shortage of real people doing and saying dumb things and making us laugh in the process. The Editors of Reader's Digest present a hilarious collection of dumb people doing dumb things. Every day in America we are

bombarded by stupidity; sometimes we just shake our heads, but most of the time we get a good laugh out of the really dumb things people do and say. In our first collection of dumb stories we poke a little fun at the unbelievably dumb things that happen in our lives and have a good chuckle along the way. "You're a dumb criminal if...You're not picky about your office locations. Christopher Exley of Everett, Washington, was arrested for conducting a drug deal over the phone—in the bathroom of the Everett Police Department." "During my brother-in-law's first performance review, his boss said, "I'm not quite sure what it is you do here. But whatever it is, could you do it faster?" --Jeanie Waara, Philip, SD "In an attempt to balance work and motherhood, I delegated the grocery shopping to my young babysitter. But the job proved a tad daunting. One day while I was at work, she texted me from the supermarket. "Can't find Brillo pads," she wrote. "All they have are Tampax and Kotex." --Kimberly Clark, Alpharetta, GA "I overheard an elderly gentleman tell his friend that he couldn't meet him the next day because he had to go to the hospital for an autopsy. His friend was sympathetic: "I had one of those last year. Luckily it wasn't serious." --Tracy Moralee, Hitchin, Great Britain

Hey, Idiot! Leland H. Gregory, 2003-10-01 Features more than two hundred stories celebrating the worst traits of humanity and idiocy.

The Sky's Not Falling! Holly Fretwell, 2007 Offers information that counters generally accepted beliefs concerning global warming and shows how we can adapt to a changing world in ways that help animals and the environment while still keeping jobs for people and growth for countries.

Climate Confusion Roy W. Spencer, 2010-01-12 The current frenzy over global warming has galvanized the public and cost taxpayers billions of dollars in federal expenditures for climate research. It has spawned Hollywood blockbusters and inspired major political movements. It has given a higher calling to celebrities and built a lucrative industry for scores of eager

scientists. In short, ending climate change has become a national crusade. And yet, despite this dominant and sprawling campaign, the facts behind global warming remain as confounding as ever. In *Climate Confusion*, distinguished climatologist Dr. Roy Spencer observes that our obsession with global warming has only clouded the issue. Forsaking blindingly technical statistics and doomsday scenarios, Dr. Spencer explains in simple terms how the climate system really works, why man's role in global warming is more myth than science, and how the global warming hype has corrupted Washington and the scientific community. The reasons, Spencer explains, are numerous: biases in governmental funding of scientific research, our misconceptions about science and basic economics, even our religious beliefs and worldviews. From Al Gore to Leonardo DiCaprio, the climate change industry has given a platform to leading figures from all walks of life, as pandering politicians, demagogues and biased scientists forge a self-interested movement whose proposed policy initiatives could ultimately devastate the economies of those developing countries they purport to aid.

Energy Keepers Energy Killers Roy Innis, 2008 *Energy Keepers Energy Killers: The New Civil Right Battle* exposes the wrongs done to the poor and minorities by environmental and political elites trying to eradicate fossil fuel production - coal, oil, and gas - supposedly to 'save the world from global warming.' Author Roy Innis, national chairman of the Congress of Racial Equality, shows how their wrongheaded policies price energy out of reach and violate the civil rights of all Americans, but hurt the poor and minorities worst. Innis demands an end to this 'energy racism' and calls for the opening of all federal lands - which belong to the disadvantaged as much as to well-funded environmental leaders - to more energy production in a sustained campaign to increase supply and lower prices. Innis reveals the flaws in global warming hysteria and makes the stunning fact clear in his 'Energy Reality' chart that so-called 'alternative energy' from wind and solar power

actually provided less than one-half of one percent of America's energy needs in 2006.

How to Live on Mars Robert Zubrin, 2008-12-02 Thinking about moving to Mars? Well, why not? Mars, after all, is the planet that holds the greatest promise for human colonization. But why speculate about the possibilities when you can get the real scientific scoop from someone who's been happily living and working there for years? Straight from the not-so-distant future, this intrepid pioneer's tips for physical, financial, and social survival on the Red Planet cover: • How to get to Mars (Cycling spacecraft offer cheap rides, but the smell is not for everyone.) • Choosing a spacesuit (The old-fashioned but reliable pneumatic Neil Armstrong style versus the sleek new—but anatomically unforgiving—elastic “skinsuit.”) • Selecting a habitat (Just like on Earth: location, location, location.) • Finding a job that pays well and doesn't kill you (This is not a metaphor on Mars.) • How to meet the opposite sex (Master more than forty Mars-centric pickup lines.) With more than twenty original illustrations by Michael Carroll, Robert Murray, and other renowned space artists, *How to Live on Mars* seamlessly blends humor and real science, and is a practical and exhilarating guide to life on our first extraterrestrial home.

Energy Victory Robert Zubrin, 2010-09-09 In this compelling argument for a new direction in U.S. energy policy, a world-renowned engineer and the bestselling author of *The Case for Mars* lays out a bold plan for breaking the economic stranglehold that the OPEC oil cartel has on the world. With a new Preface and Postscript by the author.
