I Have No Enemies Perry Link, Wu Dazhi, 2023-06-20 Late one night in December 2008, police arrived at the home of Liu Xiaobo—China's leading dissident, a key figure in the prodemocracy manifesto Charter 08—and took him away. When Liu won the 2010 Nobel Peace Prize as a political prisoner, the award was bestowed on an empty chair. Inside China, the regime sought to erase every trace of his existence. Liu died of liver cancer in 2017 without ever having been allowed to return home. *I Have No Enemies* is the definitive biography of Liu Xiaobo, offering a meticulously researched account of the twists and turns of a remarkable life. Perry Link and Wu Dazhi explore Liu's upbringing,

immersion in classical Chinese poetry and philosophy, bold challenges to literary conformity, and involvement in democratic movements. They trace the lifelong evolution of his thinking and chronicle his persecution, incarceration, and death. *I Have No Enemies* emphasizes Liu's principled commitment to dissent and the significance of the example he set in China and around the world. Liu was a farsighted strategist whose ultimate goal was "to change a regime by changing a society." In Tiananmen Square, he showed others how to face down armed soldiers; in daily life, he looked for ways to build a more democratic culture. A powerful record of Liu's life and times, this book also tells the story of a generation of Chinese intellectuals who sought a better way forward.

School for Cool Eitan Y. Wilf, 2014-05-05 Jazz was born on the streets, grew up in the clubs, and will die—so some fear—at the university. Facing dwindling commercial demand and the gradual disappearance of venues, many aspiring jazz musicians today learn their craft, and find their careers, in one of the many academic programs that now offer jazz degrees. *School for Cool* is their story. Going inside the halls of two of the most prestigious jazz schools around—at Berklee College of Music in Boston and the New School for Jazz and Contemporary Music in New York—Eitan Y. Wilf tackles a formidable question at the heart of jazz today: can creativity survive institutionalization? Few art forms epitomize the anti-institutional image more than jazz, but it's precisely at the academy where jazz is now flourishing. This shift has introduced numerous challenges and contradictions to the music's practitioners. Solos are transcribed, technique is standardized, and the whole endeavor is plastered with the label "high art"—a

far cry from its freewheeling days. Wilf shows how students, educators, and administrators have attempted to meet these challenges with an inventive spirit and a robust drive to preserve—and foster—what they consider to be jazz’s central attributes: its charisma and unexpectedness. He also highlights the unintended consequences of their efforts to do so. Ultimately, he argues, the gap between creative practice and institutionalized schooling, although real, is often the product of our efforts to close it.

For White Folks Who Teach in the Hood... and the Rest of Y'all Too Christopher Emdin, 2016-03-22 A New York Times Best Seller Essential reading for all adults who work with black and brown young people...Filled with exceptional intellectual sophistication and necessary wisdom for the future

of education.—Imani Perry, National Book Award Winner author of *South To America* An award-winning educator offers a much-needed antidote to traditional top-down pedagogy and promises to radically reframe the landscape of urban education for the better Drawing on his own experience of feeling undervalued and invisible in classrooms as a young man of color, Dr. Christopher Emdin has merged his experiences with more than a decade of teaching and researching in urban America. He takes to task the perception of urban youth of color as unteachable, and he challenges educators to embrace and respect each student's culture and to reimagine the classroom as a site where roles are reversed and students become the experts in their own learning. Putting forth his theory of Reality Pedagogy, Emdin provides practical tools to unleash the brilliance and eagerness of youth and educators alike—both of whom have been typecast and stymied by outdated modes of thinking about urban education. With this fresh and engaging new pedagogical vision, Emdin demonstrates the importance of creating a family structure and building communities within the classroom, using culturally relevant strategies like hip-hop music and call-and-response, and connecting the experiences of urban youth to indigenous populations globally. Merging real stories with theory, research, and practice, Emdin demonstrates how by implementing the “Seven Cs” of reality pedagogy in their own classrooms, urban youth of color benefit from truly transformative education.

Why Knowing What To Do Is Not Enough Anne-Greet Keizer,Will Tiemeijer,Mark Bovens,2019-01-01 This open access book sets out to explain the reasons for the gap between knowing and doing in view of self-reliance, which is more and more often expected of citizens. In todays society, people are expected to

take responsibility for their own lives and be self-reliant. This is no easy feat. They must be on constant high alert in areas of life such as health, work and personal finances and, if things threaten to go awry, take appropriate action without further ado. What does this mean for public policy? Policymakers tend to assume that the government only needs to provide people with clear information and that, once properly informed, they will automatically do the right thing. However, it is becoming increasingly obvious that things do not work like that. Even though people know perfectly well what they ought to do, they often behave differently. Why is this? This book sets out to explain the reasons for the gap between 'knowing and 'doing. It focuses on the role of non-cognitive capacities, such as setting goals, taking action, persevering and coping with setbacks, and shows how these capacities are undermined by adverse circumstances. By taking the latest psychological insights fully into account, this book presents a more realist perspective on self-reliance, and shows government officials how to design rules and institutions that allow for the natural limitations in peoples 'capacity to act.
