Klaus Kinski, Beast of Cinema Matthew Edwards,2016-07-13 With more than 130 films and a career spanning four decades, Klaus Kinski (1926–1991) was one of the most controversial actors of his generation. Known for his wild tantrums on set and his legendary collaborations with auteur Werner Herzog—Aguirre, the Wrath of God (1972), Nosferatu the Vampyre (1979)—Kinski's intense performances made him the darling of European arthouse and exploitation/horror cinema. A genius in front of the camera, he was capable of lighting up the most risible films. Yet behind his public persona lurked a depraved man who took his art to the darkest extremes. This first ever collection of essays focusing on Kinski examines his work in exploitation and art house films and spaghetti westerns, along with his performances in such cult classics as Doctor Zhivago (1965), Crawlspace (1986), Venus in Furs (1965), The Great Silence (1968), Android (1982) and his only directorial credit, Paganini (1989). More than 50 reviews of Kinski's films are included, along with exclusive interviews with filmmakers and actors who worked with him.

Messy Ethnographies in Action Alexandra Plows,2019-02-04 This edited collection of chapters showcases original and interdisciplinary ethnographic fieldwork in a range of international settings; including studies of

underground pub life in North East England; Finnish hotels; and bio-scientific institutions in the Amazonian rainforest. Informed by John Law's concept of ethnographic "mess," this book makes a unique, empirically-informed, contribution to an understanding of the social construction of knowledge and the role that ethnography can and does play (Law, 2004). It provides a range of colourful snapshots from the field, showing how different researchers from multiple research environments and disciplines are negotiating the practicalities, and epistemological and ethical implications, of "messy" ethnographic practice as a means of researching "messy" social realities. Law notes that "social…science investigations interfere with the world…things change as a result. The issue, then, is not to seek disengagement but rather with how to engage" (ibid p14). Drawing on their own situated experiences, the book's contributors address the "messy" implications of this and also explore the (equally messy) issue of why engage. They reflect on the process of undertaking research, and their role in the research process as they negotiate their own position in the field. What is ethnography "for"? What impact should, or do, we have in the field and after we leave the research site? What about unintended consequences? When (if ever) are we "off duty?" What does "informed consent" mean in a constantly shifting, dynamic ethnographic context? Is ethnography by its very nature a form of "action research?" By providing a wide range of situated explorations of "messy ethnographies," the book presents a unique, hands-on guide to the challenges of negotiating ethnography in practice, which will be of use to all researchers and practitioners who use ethnography as a method.
