Tales from the Pit David G. Schwartz, 2016 Dealing in a casino presents challenges and rewards not seen in many workplaces. With hundreds of thousands of dollars at stake every minute, table games pits are high-stress workplaces. Managing a workforce of dealers and attending to the needs of players brings stresses of its own. In 2015, the University of Nevada, Las Vegas's Center for Gaming Research received a grant from the UNLV University Libraries Advisory Board that enabled it to undertake an oral history project intended to capture the stories of table games managers, including both those currently working in the field and those who have retired. Drawn from these interviews, *Tales from the Pit* provides an overview of how the interviewees felt about a variety of topics, ranging from their experiences breaking in as new dealers to their transitions to management and the changes the industry has seen over their careers. The current and former managers speak candidly about the owners, bosses, dealers, and players who made each day challenging. This book illuminates the past several decades of casino history through the words of those who lived and made it.

Scarne on Dice John Scarne, 2019-12-19 Scarne was often proclaimed by experts, magicians and editors of the time as the greatest card manipulator of all time. He was an expert at poker, blackjack, backgammon and any other game played at casinos. Scarne's famous card trick was Scarne's Aces. Taking a spectator's shuffled deck of cards and then cutting to all four aces.

Regulating Internet Gaming Anthony N. Cabot, Ngai L. Pindell, 2013 Internet gaming sparks controversy from corporate board rooms to legislative hallways. Unlike traditional casinos, the Internet permits people to engage in gaming activities from virtually anywhere over computers and mobile devices. Governments and policy makers looking at this activity struggle with such questions as whether regulation can assure that Internet gaming can be restricted to adults, the games offered are fair and honest, and players will be paid if they win. This book is a timely collection of eleven chapters discussing key considerations and model approaches to internet gaming regulation and outlining the important questions and emerging answers to regulating gaming activity outside of land-based casinos. Some of the regulatory insights are taken from lessons learned in the land-based casino industry and others from the relatively newer experiences of international internet gaming providers. Contributors are among the world's leading experts on Internet gaming. They focus on structural concerns including record-keeping, managing different taxing regimes, maintaining effective controls, protecting customer funds, and preventing money laundering, as well as on policy concerns ensuring responsible play, the detection of fraud, reliable age verification, and the enforcement of gaming laws and norms across jurisdictions. Internet gaming is an emerging field, especially in the U.S., and the contributors to this book provide regulatory examples and lessons that will be helpful to lawyers, policy makers, gaming operators and others interested in this burgeoning industry. Chapters include: 1 Licensing by Anthony Cabot 2 Accounting, Audits, and Recordkeeping by Peter J. Kulick 3 Taxation of Regulated Internet Gambling by Sanford I. Millar 4 Technical Compliance by Richard Williamson 5 The Protection Of Customer Funds by Nick Nocton 6 Financial Transactions and Money Laundering by Stuart Hoegner 7 Internet Gambling Advertising Best Practices by Lawrence G. Walters 8 Responsible Gaming by Frank Catania, Sr., Gary Ehrlich, and Antonia Cowan 9 Ensuring Internet Gaming that is Free from Fraud and Cheating by Alan Littler 10 Age Verification by J. Blair Richardson 11 Proposal for an International Convention on Online Gambling by Marketa Trimble The book also includes an introductory editors' note, an index, and a table of cases.

Frontiers in Chance David G. Schwartz, 2013 Collection of 17 papers from the University of Nevada, Las Vegas Center for Gaming Research's Occasional papers series.
