**The Last Lecture** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*Earn It* Katie Malachuk, 2013-12-04 "This book is far better than it has any right to be. My best advice is that you shouldn't waste the time and money it takes to get an MBA. But if you're going to ignore that advice, please (please!) read this book first." - Seth Godin, Stanford MBA and New York Times bestselling author of *Linchpin* and *Tribes* Here's the powerful truth about getting into business school: it starts by being honest with yourself. As a graduate of Stanford's Graduate School of Business, and throughout her career as a highly sought-after admissions consultant as well as yoga instructor and life coach, Katie Malachuk has learned that no matter your vocation, fulfillment is only achieved when you find your true place in the world. With *Earn It*, she offers her surprising yet highly successful approach that transforms the admissions

process from burden to adventure. Earn It can supply you with the practical, insider savvy of a winning consultant, but it goes well beyond other books in the field. It seeks to reveal your true self-your gifts, values, and callings. This is more than your average guide to getting accepted to prestigious programs. It's a guide to finding your bliss and making it last well beyond graduation.

Internet Governance and the Global South A.

Bhuiyan,2014-05-29 A welcome addition to Palgrave's Global Media Policy and Business series, Internet Governance and the Global South documents the role of the global south in Internet policymaking and challenges the globalization theories that declared the death of the state in global decision-making. Abu Bhuiyan argues that the global Internet politics is primarily a conflict between the states - the United States of America and the states of the global south - because the former controls Internet policymaking. The states of the global south have been both oppositional and acquiescing to the sponsored policies of the United States on Internet issues such as digital divide, multilingualism, intellectual property rights and cyber security. They do not oppose the neoliberal underpinnings of the policies promoted by the United States, but ask for an international framework to govern the Internet so that they can work as equal partners in setting norms for the global Internet.

**Earning It** Joann S. Lublin,2016-10-18 More than fifty trailblazing executive women who broke the corporate glass ceiling offer inspiring and surprising insights and lessons in this essential, in-the-trenches career guide from Joann S. Lublin, a Pulitzer-Prize winning journalist and management news editor for The Wall Street Journal. Among the first female reporters at The Wall Street Journal, Joann S. Lublin faced a number of uphill battles in

her career. She became deputy bureau chief of the Journal's important London bureau, its first run by women. Now, she and dozens of other women who successfully navigated the corporate battlefield share their valuable leadership lessons. Lublin combines her fascinating story with insightful tales from more than fifty women who reached the highest rungs of the corporate ladder—most of whom became chief executives of public companies—in industries as diverse as retailing, manufacturing, finance, high technology, publishing, advertising, automobiles, and pharmaceuticals. Leaders like Carly Fiorina, former CEO of Hewlett-Packard, as well as Mary Barra, CEO of General Motors, and Brenda Barnes, former CEO of Sara Lee, were the first women to run their huge employers. *Earning It* reveals obstacles such women faced as they fought to make their mark, choices they made, and battles they won—and lost. Lublin chronicles the major milestones and dilemmas of the work world unique to women, providing candid advice and practical inspiration for women of all ages and at every stage of their careers. The extraordinary women we meet in the pages of *Earning It* and the hard-won lessons they share provide a compelling career compass that will help all women reach their highest potential without losing a meaningful personal life.

College Success Amy Baldwin, 2020-03

*What Actually Counts in the College Admissions Process* Keith Berman, 2019-07-18 Students and families often ask the internet to find advice on the college admissions process, leaving them in a sea of incorrect and contradictory advice that eliminates their chances of standing out in the admissions process. In fact, many websites on college include advice GIVEN by high school students, not experts in the field of admissions, so in most cases for those aspiring to get into selective schools, it

truly is a case of the blind leading the blind. In this volume in *The Way There*, Keith Berman explains how to think about admissions so that you remain focused on 'what matters,' learning how to keep your own counsel in the admission process and succeed where others don't. Using the analytical framework employed with his private clientele at Options for College, where he has been a leader in providing private college advice since 2005, Mr. Berman gives you the benefit of how those who get this right think about how to get admitted.

About the Author, Keith Berman, Ed.M., M.S.Ed. Keith Berman has been providing premium private college advice since 2005 when he founded Options for College in Harvard Square before moving to New York City in 2007. Mr. Berman has appeared on MSNBC, CNBC, CNN, PBS, Fox Business and Lifetime. Mr. Berman is quoted numerous times on issues related to school selection in *US News & World Report's America's Best Colleges*, the *Boston Globe*, *Yale Daily News*, *Harvard Crimson*, *Boston Magazine*, the *Chicago Tribune* and *Columbia Spectator* among many others. He was also quoted in *The Portable Guidance Counselor: Answers to the 284 Most Important Questions...* by the Princeton Review, and *Life's Little College Admissions Insights: Top Tips From the Country's Most Acclaimed Guidance Counselors*. He has spoken at a number of venues, including Yale, Columbia, Harvard, MIT, Wesleyan, the Hong Kong University of Science & Technology, the Davidson Institute, the Yale Club of NYC, the NYU Center for Family Life, the Parents Network at Merrill Lynch, Ernst & Young Working Families Network and the Young Presidents Organization. Keith's entire career has been dedicated to knowing real students in real schools. He was the creator and instructor of Johns Hopkins University's CTY College Prep course. He has worked as the staff

trainer in the Rochester City Public Schools (NY) and the staff trainer for The Princeton Review - India. His in-school guidance positions include running the college guidance departments at the Rudolf Steiner School and the Yeshiva University High School for Boys. He also was a New York City Teaching Fellow in the New York City Public Schools. His other professional activities have included consulting with the American Museum of Natural History and the NYC Department of Education. Mr. Berman has held several admissions positions at Ivy League institutions. He worked for Yale University as a Senior Interviewer, and a three-year member of the Undergraduate Recruitment Office. He also held an Interviewer position at the Harvard College Admissions Office, where he interviewed prospective students and participated in undergraduate admissions committee meetings. In his career, Mr. Berman has won awards from Harvard University, the Jack Kent Cooke Foundation, AmeriCorps, and the New York City Teaching Fellowship. Mr. Berman earned his B.A. as a double major (music, linguistics) at Yale University and his M.Ed. from Harvard Graduate School of Education. His other experiences include being a school teacher in the New York City public school system, earning an M.S.Ed. at Bank Street College, and being a researcher at a Washington, D.C. education think tank, developing a national testing project and working on technology and special education issues of national importance. Mr. Berman grew up in Irvington, NY (Westchester County), and has lived in Washington, DC, Cambridge, MA, and New Haven, CT. His office is in New York, NY.

**Paying the Price** Sara Goldrick-Rab, 2016-09-01 A “bracing and well-argued” study of America’s college debt crisis—“necessary reading for anyone concerned about the fate of American higher education” (Kirkus). College is far

too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. In *Paying the Price*, education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls. Goldrick-Rab examines a study of 3,000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008. Half the students in the study left college without a degree, while less than 20 percent finished within five years. The cause of their problems, time and again, was lack of money. Unable to afford tuition, books, and living expenses, they worked too many hours at outside jobs, dropped classes, took time off to save money, and even went without adequate food or housing. In many heartbreaking cases, they simply left school—not with a degree, but with crippling debt. Goldrick-Rab combines that data with devastating stories of six individual students, whose struggles make clear the human and financial costs of our convoluted financial aid policies. In the final section of the book, Goldrick-Rab offers a range of possible solutions, from technical improvements to the financial aid application process, to a bold, public sector-focused “first degree free” program. Honestly one of the most exciting books I've read, because [Goldrick-Rab has] solutions. It's a manual that I'd recommend to anyone out there, if you're a parent, if you're a teacher, if you're a student.—Trevor Noah, *The Daily Show*

*Live from the Underground* Katherine Rye

Jewell, 2023-11-07 Bands like R.E.M., U2, Public Enemy, and Nirvana found success as darlings of college radio, but the extraordinary influence of these stations and their DJs on musical culture since the 1970s was anything but inevitable. As media deregulation and political conflict over

obscenity and censorship transformed the business and politics of culture, students and community DJs turned to college radio to defy the mainstream—and they ended up disrupting popular music and commercial radio in the process. In this first history of US college radio, Katherine Rye Jewell reveals that these eclectic stations in major cities and college towns across the United States owed their collective cultural power to the politics of higher education as much as they did to upstart bohemian music scenes coast to coast. Jewell uncovers how battles to control college radio were about more than music—they were an influential, if unexpected, front in the nation's culture wars. These battles created unintended consequences and overlooked contributions to popular culture that students, DJs, and listeners never anticipated. More than an ode to beloved stations, this book will resonate with both music fans and observers of the politics of culture.

**Who You Know** Julia Freeland Fisher, 2018-07-24

Improve student outcomes with a new approach to relationships and networks Relationships matter. Who You Know explores this simple idea to give teachers and school administrators a fresh perspective on how to break the pattern of inequality in American classrooms. It reveals how schools can invest in the power of relationships to increase social mobility for their students. Discussions about inequality often focus on achievement gaps. But opportunity is about more than just test scores.

Opportunity gaps are a function of not just what students know, but who they know. This book explores the central role that relationships play in young people's lives, and provides guidance for a path forward. Schools can:

Integrate student support models that increase access to caring adults in students' lives Invest in learning models

that strengthen teacher-student relationships Deploy emerging technologies that expand students' networks to experts and mentors from around world Exploring the latest tools, data, and real-world examples, this book provides evidence-based guidance for educators looking to level the playing field and expert analysis on how policymakers and entrepreneurs can help. Networks need no longer be limited by geography or circumstance. By making room for relationships, K-12 schools can transform themselves into hubs of next-generation learning and connecting. Who You Know explains how.

**Surviving the Shift** William F. Pickard, PhD, 2023-01-10 A positive attitude, the ability to adapt to change, and the willingness to learn from failure . . . these are all good markers of a successful person. But what does it take to become a successful entrepreneur—someone who can create something out of nothing? Someone who can start from the bottom and work their way to the top? In Dr. William Pickard's new book *Surviving the Shift*, this is exactly what he provides. As one of the country's most successful Black entrepreneurs, Dr. Pickard knows a thing or two about overcoming failure and mistakes to become an extraordinary entrepreneur. In this book, he details the highs and lows of his entrepreneurial evolution and offers seven proven principles for embracing change and building wealth. *Surviving the Shift* will teach you how to:

- Develop positive vision and attitude.
- Prepare for opportunities.
- Understand that financing is not that difficult.
- Build good relationships.
- Choose a team with the right talent and skill set.
- Learn from failure.
- Cultivate strong faith.

Successful entrepreneurship requires a shift in thinking, planning, and doing. It requires avoiding the many pitfalls people often face in business. Whether you are a new college graduate ready to make your mark on the world,

someone who is trying to figure out the next step for their career, an aspiring entrepreneur, or you want to explore new ways to grow your business, you have the power to become the person you were meant to be. This book is your road map, and Dr. Pickard has equipped you with everything you need for your journey.

*Universities and Regions* Michael Shattock, Aniko Horvath, 2023-04-06 This book explores the impact of localities and regions on universities and shows how the diversity of the higher education landscape is critically affected by the geophysical character of regions and their differentiated economies and cultures; regional inequalities bear heavily on universities' strategy-making. A study of the interrelationship between higher and further education argues that from a regional perspective a change to a tertiary education system in England (following Wales) would create the conditions for better local and regional coordination. Universities make a significant contribution to 'levelling up' through technology transfer and the creation of innovation hubs but the contribution of locally or regionally based students who on graduation return to disadvantaged communities rather than seek employment elsewhere should be recognised also as a longer term step to redressing regional inequality. The book argues strongly that the time has come to decentralise the governance of a re-aligned tertiary system to regions and identifies the move to create metro mayors and combined authorities as providing the appropriate vehicle to release new initiative from regional sources. It cites the success of decentralisation to Scotland and Wales as offering relevant models for scrutiny. The authors draw on 12 UK widely differentiated university case studies, a survey of further education and a study of three continental European comparators (Germany, Ireland and Norway) to develop

the argument.

**Next Indiana** ,2002

*College* Andrew Delbanco,2023-04-18 The strengths and failures of the American college, and why liberal education still matters As the commercialization of American higher education accelerates, more and more students are coming to college with the narrow aim of obtaining a preprofessional credential. The traditional four-year college experience—an exploratory time for students to discover their passions and test ideas and values with the help of teachers and peers—is in danger of becoming a thing of the past. In *College*, prominent cultural critic Andrew Delbanco offers a trenchant defense of such an education, and warns that it is becoming a privilege reserved for the relatively rich. In describing what a true college education should be, he demonstrates why making it available to as many young people as possible remains central to America's democratic promise. In a brisk and vivid historical narrative, Delbanco explains how the idea of college arose in the colonial period from the Puritan idea of the gathered church, how it struggled to survive in the nineteenth century in the shadow of the new research universities, and how, in the twentieth century, it slowly opened its doors to women, minorities, and students from low-income families. He describes the unique strengths of America's colleges in our era of globalization and, while recognizing the growing centrality of science, technology, and vocational subjects in the curriculum, he mounts a vigorous defense of a broadly humanistic education for all. Acknowledging the serious financial, intellectual, and ethical challenges that all colleges face today, Delbanco considers what is at stake in the urgent effort to protect these venerable institutions for future generations.
