### **Handbook of Research on Digital Citizenship and Management During Crises**

Öngün, Erdem, Pembecioğlu, Nilüfer, Gündüz, Uğur, 2021-11-12 Today, individuals and societies of the digital age are no longer constrained by conventional contexts, narratives, settings, and status; they are surrounded and guided by digital tools and applications leading to a digital revolution. That digital revolution changed the individual along with living styles and cultural and social relations among people. Moreover, these revolutionary changes and the increasing capabilities of smart devices have brought today's people a new kind of public sphere with questionable freedoms but also restraints in its digital dimensions. Now, it is possible to talk about the digital dimension and equivalence of all the concepts that are both individually and socially constructed in a new digital world. The Handbook of Research on Digital Citizenship and Management During Crises covers many different components engaged with digital world responsibilities. The authors assess the position, status, and reactions of the new citizen against future catastrophes. Covering topics such as epistemic divide, internet addiction, and new media technologies, this text serves as a cutting-edge resource for researchers, scholars, lawmakers, trainers, instructional designers, university libraries, professors, students, and academicians.

On Duty Vikas G. Gupta, 2018-09-27 When a plane carrying many hopes, dreams, love, hate, and greed diverts from its route and crashes into the snow-capped mountains of Antarctica, most of its passengers die. As the crash's few survivors attempt to endure the cold and uninhabited environment, they find their only ray of hope in their pilot, Captain Rahul. Sara, a passenger on the flight who loves him, fights for his dignity, but it is only Captain Rahul who can prove his innocence. But where is he? As a trial ensues, a shocking surprise occurs on the day of the final verdict when the captain arrives to unveil the mystery of the disappearance with the help of an energetic young reporter, Kiren Bakshi. As the world is left shocked and Sara broken, once again nature proves that it has no barrier and that everything depends on human will. The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a

legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*Bards From the Nobel Land* Lis Lovén, 2021-07-21 In every epoch there ought to be words of love and hate. To know a cultural history means that you can place yourself on your own map. So this poetic anthology is my own way to understand my Swedish heritage, and now I give this gift to the English-speaking world. Because in a global society we have to share our specific culture with one another. The war is just one button away. Instead of war we could try to understand all kinds of heritages. Where do we all

come from? And where are we heading? It began once back in Olduvai. And now as we are spread around the global earth we could commit ourselves to understanding. This is at least my own hope.
