Easter in Kishinev Edward H. Judge, 1995-02 Judge's book is the best to date on the Kishinev pogrom of 1903. In seven gracefully written chapters, the author lays out the background of the Jewish question in Russia, profiles the city of Kishinev, narrates the events leading up to and included in the pogrom, and analyzes its causes and effects. -Choice A detailed re-examination of the notorious Kishinev pogrom of 1903. -East European Jewish Affairs In February of 1903, in a town in the southwestern part of the Russian empire, a peasant stumbled upon the corpse of 14-year old Mikhail Rybachenko, bruised and covered with stab wounds, in a garden. The murder immediately fueled wild rumors that he had been killed by local Jews in need of his Christian blood to prepare their matzah bread. Panic rumors, grounded in sinister superstitions of Jewish sorcery and ritual murder, quickly spread to nearby towns. By April, they had hit Kishinev -- a growing metropolis of 100,000 inhabitants rife with the unrest of rapid expansion, ethnic rivalry, revolutionary agitation, and anti-Semitism -- with full force. The resulting massacre left dozens dead, and hundreds wounded, maimed, widowed, orphaned or homeless. This is the story of Kishinev. In this extensively researched book, Edward Judge examines these anti-Jewish riots, detailing their background, cause, and aftermath. He traces the evolution of the riots, analyzing the broader impact of imperial policies, urbanization, nationalism, population growth, and revolutionary activism upon the Jewish situation in Russia. Recounting the activities and attitudes of anti-semitic agitators and Kishinev officials, the book examines the spiral of violence, the inaction of the authorities in the wake of the pogrom, the storm of indignation that followed the pogrom, and the efforts of tsarist officials to counter subsequent negative publicity. *EASTER IN KISHINEV* also portrays the investigation of the disorders and the trials of the rioters and carefully considers the question of government responsibility for the outbreak of the pogrom.

Pasta Missy Robbins, Talia Baiocchi, 2021-10-26 JAMES BEARD AWARD NOMINEE • A stylish, transporting pasta master class from New York City's premier pasta chef, with recipes for 40 handmade pasta shapes and 100 Italian American, regional Italian, and modern dishes IACP AWARD FINALIST • "Missy Robbins brings her extraordinary knowledge and generous heart to teach us to prepare the pastas that made her restaurants, Lilia and Misi, two of the best in the world."—Ina Garten, Barefoot Contessa ONE OF THE TEN BEST COOKBOOKS OF THE YEAR: San Francisco Chronicle, Boston Globe • ONE OF THE BEST COOKBOOKS OF THE YEAR: Minneapolis Star Tribune, Glamour, Food52, Epicurious Food trends come and go, but pasta holds strong year after year. Despite its humble ingredients—made of merely flour and water or flour and eggs—the magic, rituals, and art of pasta making span over five centuries. Two ingredients are turned into hundreds of stuffed, rolled, extruded, dried, stamped, and hand-cut shapes, each with its own unique provenance and enrobed in a favored sauce. New York City chef Missy Robbins fell in love with Italian food and pasta twenty-five years ago. She has been cooking, researching, and studying her way across Italy ever since, which led her to open two of America's most renowned pasta restaurants, Lilia and Misi. With illustrated step-by-step recipes for handmaking forty of the most versatile pasta

shapes and one hundred recipes for Italian American, regional Italian, and Robbins's own best pasta dishes, plus two dozen vegetable sides, this is the hard-working manual for home cooks who aspire to master the art of pasta cooking. Whether making pasta sheets for lasagna or stamping out pasta "coins" for Corzetti with Goat Cheese and Asparagus—or even buying handmade pasta to make Tagliatelle with Porcini, Rosemary, and Garlic—Robbins provides all the inspiration, instruction, and encouragement required to make pasta exceptionally well. Evocatively photographed with nearly 100 full-color mouthwatering photos of pasta dishes and twenty images from Italy, this is a richly illustrated ode to the ingredients, recipes, and craft that have made pasta the most popular fare of a beloved cuisine.

Eternal Life? Hans Küng,2003-04-07 The fact cannot be overlooked that we are in the midst of a sociological crisis of orientation on the grand scale. New problems and needs have become insistent, new fears and longings have come to light. Many are looking for a new foothold, a fundamental certainty, a compass for their life and the life of other human beings. The inconsistencies and ambivalence of the phenomena cannot conceal the fact that religion is attracting greater attention: the old religion and many new ones, the Christian religion as well as the Islamic, Hindu, and Buddhist religions. In East and West anyway the God Progress seems to have lost rapidly something of its credibility; belief in a continually better life with the aid of science and technology and also through revolution and socialism has been shaken by serious doubts. And, while the elderly have not been able - with all the aids of psychology - to come to terms with the meaning of death, younger people - supposedly a no future generation, apathetic, noncommittal, nervous, and self-destructive - are asking afresh about the missing sense of life. Meanwhile, though science did the most in the last century to destroy belief in immortality and made stupendous efforts to prolong life, it is medicine today that has broken through the taboos in regard to death and with its research into dying has given new life to the question of death and survival. But has medicine - or perhaps parapsychology - proved that there is life after death?

The Environment in the Age of the Internet Heike Graf,2016-07-18 How do we talk about the environment? Does this communication reveal and construct meaning? Is the environment expressed and foregrounded in the new landscape of digital media? The Environment in the Age of the Internet is an interdisciplinary collection that draws together research and answers from media and communication studies, social sciences, modern history, and folklore studies. Edited by Heike Graf, its focus is on the communicative approaches taken by different groups to ecological issues,

shedding light on how these groups tell their distinctive stories of the environment. This book draws on case studies from around the world and focuses on activists of radically different kinds: protestors against pulp mills in South America, resistance to mining in the Sámi region of Sweden, the struggles of indigenous peoples from the Arctic to the Amazon, gardening bloggers in northern Europe, and neo-Nazi environmentalists in Germany. Each case is examined in relation to its multifaceted media coverage, mainstream and digital, professional and amateur. Stories are told within a context; examining the what and how of these environmental stories demonstrates how contexts determine communication, and how communication raises and shapes awareness. These issues have never been more urgent, this work never more timely. The Environment in the Age of the Internet is essential reading for everyone interested in how humans relate to their environment in the digital age.
