Pete Collins, Editor

*Eastern Air Lines* David Lee Russell,2013-10-01 Eastern Air Lines began in 1926 when aviation pioneer Harold Pitcairn started the first carrier air mail route from New York to Atlanta under his company, Pitcairn Aviation. Clement Keys of National Air Transport bought the company in 1929, changed the name to Eastern Air Transport and began passenger service the next year on daily round trips between New York and Richmond. The growing airline was purchased by General Motors and became Eastern Air Lines in 1934. World War I flying ace Edward V. Rickenbacker purchased the airline four years later and led it to become by the 1950s the most profitable airline in the United States. Former astronaut Frank Borman became president of Eastern in 1975 and tried to manage the airline through deregulation, labor union conflict, and heavy debt, ending with the sale of Eastern to Frank Lorenzo and Texas Air in 1986. The airline entered bankruptcy in March 1989 and ended service in less than two years. This detailed history follows Eastern from start to finish, studying such corporate decision-making as aircraft purchases and route expansions, as well as the personalities that shaped the airline throughout its history.

**From the Captain to the Colonel** Robert J. Serling,1980 An account of Eastern Airline's history and of the personalities who shaped it, from its early years led by Eddie Rickenbacker, to the present leadership of Frank Borman.

*Final Destination* George Jehn,2014 Final Destination: Disaster is a book that will open the eyes of many about the inner working of those that are running the show at the very top level of any corporation. Former Astronaut Frank Borman was the CEO at Eastern Airlines when the demise was destined to happen. You have greed at the center ruling the decisions that are made with or without the consensus of the Union. You also have implications that point right up to the Reagan administration that intertwines with the Iran-Contra affair. This journey will take you to how the crash of Eastern Airline Flight 980 lead to the downward spiral that needed to be kept out of the public eye. All of this plus more are in the pages of this unbelievable read.

*Grounded* Aaron Bernstein,1999 The inside account of how Frank Lorenzo took over a sputtering Airlines and flew it into the ground. With access to the major players -- the guarded Lorenzo and his inner circle, former Eastern Airlines president Frank Borman, Peter Ueberroth, and union boss Charlie Bryan -- author Aaron Bernstein explains how Lorenzo brought a corporate raider's mentality to running a business, and how its failure marked a watershed in the 1980s Age of Greed.

**The Wings of Man** Vito Borrelli,Roland Moore,2021-07-06 The Wings of Man - The Story of Eastern Air Lines as Told by Its People is a collection of over seventy stories written by pilots, flight attendants, management and ground staff of the iconic Eastern Air Lines, an airline that was an industry pioneer for decades. The book recalls Eastern's proud history of aviation firsts, features stories about important events and recollections about the people who built Eastern, including Captain Eddie Rickenbacker, Floyd Hall, Capt. Dick Merrill, CFO Charlie Simons, VP Russ Ray, and President Sam Higginbottom. Besides the stories, the book is chock full of beautiful color and vintage photographs of aircraft and people, as well as images of rare and nostalgic collector's memorabilia. This book has something for everyone.

*The Eastern Airlines Strike* Ernie Mailhot,Judy Stranahan,Jack Barnes,1991 The story of the 686-day strike in which a rank-and-file resistance by

Machinists prevented Eastern's union-busting onslaught from becoming the road to a profitable nonunion airline.

Mayday! Mayday! Joan Lacey Mazauskas,1990

**Reluctant Hero** Robert M Wilbur III,2019-08-08 Having already attempted suicide at the age of 16, John Devivo, Jr. boarded the Eastern Airlines shuttle from Newark to Boston on St. Patrick's Day, 1970, as a 27 year old with a plan. On the second anniversary of his father's death, armed with a .38 caliber handgun, he intended to kill himself, along with the other 72 souls on board. Only with the unflinching sacrifice of a young first officer, coupled with the bravery and otherworldly calm of the recently promoted captain, would the passengers and crew have a chance to survive. RELUCTANT HERO is the riveting true story of a man who was born to fly and, in a way, raised to meet the unbelievable challenge he would face as a 35 year old commercial airline captain. After reading it you'll wonder, as I always have, how such a story has remained in the shadows for so many years.

Eastern Air Lines' Plans to Subcontract Flight Operations to Orion Air United States. Congress. House. Committee on Government Operations. Government Activities and Transportation Subcommittee,1988

**Freefall** Jack E. Robinson,1992 Chronicles the events that lead to the shut down of Eastern Airlines and negotiations to save it against insurmountable odds.

**Eastern's Armageddon** Martha D. Saunders,1992-09-30 This book examines the escalation of an organizational conflict to one of the most talked about industrial crises of the past decade: the demise of Eastern Airlines. Through an analysis of the messages exchanged by some of its key participants--the representatives of the pilots and management of Eastern--this study attempts to explain how and why some 4,000 men and women walked away from high-paying glamour jobs and toppled an institution. The book is not an evaluation of the economic climate or financial events that put Eastern into a critical bind; instead, it is an analysis of the human cost of an organizational tragedy that might possibly have been avoided. The results of the study support communication theory that predicts that when an agitative group bearing the characteristics of the pilots of Eastern Airlines conflicts with an establishment such as Eastern's management under Frank Lorenzo, the establishment can always successfully avoid or suppress agitative movements. This work will be of interest to scholars and practitioners in industrial relations, labor-management studies, corporate communication, and American industrial history.

**AIR CRASH INVESTIGATIONS - Inadvertent In-Flight Slat Deployment - The Near Crash of China Eastern Airlines Flight 583** Dirk Barreveld,2015-11-28 On April 6, 1993, a China Eastern Airlines McDonnell Douglas MD-11, flight 583, on its way from Beijing, China, to Los Angeles, California, had an inadvertent deployment of the leading edge wing slats while in cruise flight, not far from Shemya, Alaska. The autopilot disconnected, and the captain was manually controlling the airplane when it progressed through several violent pitch oscillations and lost 5,000 feet of altitude. Two passengers were fatally injured, and 149 passengers and 7 crewmembers received various injuries. The airplane did not receive external structural damage, but the passenger cabin was substantially damaged. The National Transportation Safety Board determined that the probable cause of this accident was the inadequate design of the flap/slat actuation handle by the Douglas Aircraft Company that allowed the handle to be easily and inadvertently dislodged from the UP/RET position, thereby causing extension of the leading edge slats during cruise flight.

AIR CRASH INVESTIGATIONS GHOSTS? The Crash of Eastern Air Lines Flight 401 Pete Collins, Editor, 2012-11-01 On December 29, 1972 an Eastern Air Lines' Lockheed L-1011, as Flight 401 on its way from John F. Kennedy International Airport, New York, to Miami International Airport, Miami, Florida, crashed at 2342 eastern standard time in the Everglades, approximately 18 miles west northwest of Miami International Airport. The aircraft was destroyed. There were 163 passengers and a crew of 13 aboard the aircraft, 99 people died in the crash. The flight was diverted because of problems with the nose landing gear The aircraft climbed to 2,000 feet while the crew attempted to correct the problem. Surviving passengers and crewmembers stated that the flight was routine and operated normally before impact with the ground. The National Transportation Safety Board determines that the probable cause of this accident, was preoccupation with a malfunction of the nose landing gear position indicating system distracted the crew's attention from the instruments and allowed the descent to go unnoticed.
