**The Last Lecture** Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

**AntiFascism and Memory in East Germany** Josie McLellan,Lecturer in Modern European History Josie McLellan,2004-10-07 AntiFascism and Memory in East Germany is a book about remembering and about forgetting, about war, and about the peace which eventually followed. In the unlikely setting of the German Democratic Republic (GDR), the Spanish Civil War became the subject of a debate which both predated and outlasted the Cold War, involving historians, veterans, politicians, censors, artists, writers, and Church activists. Examining these multiple memories and interpretations of Spain casts new and unexpected light on the legacy of the Spanish Civil War, and the relationship between history and memory under state socialism. The ruling Socialist Unity Party made full use of the antifascist legacy as legitimation for a non-democratic state. But despite dogged attempts at control and censorship, the state was unable to silence competing voices. All over East Germany, International Brigade veterans preserved their version of events - in letters to each other, in communications with the party, in discussions with friends and family around the kitchen table, and in memoirs written for the 'desk drawer'. For younger East Germans, the war retained an undeniably romantic aura. From their perspective, Spain was a far-away land to which they were forbidden to travel, the stuff of camp-fire singalongs and fantasies of adventure. This book dissects the relationship between state-sponsored history, the lobbying of veterans, cultural interpretations of war, and the memory traces left behind by marginalised or politically oppositional groups and individuals. It is a cultural history of memory under state socialism, a social history of veteran groups and their relationship with the state, and a political history of communist culture. Above all, it is the story of how post-war Europeans came to terms with the heavy burden of their pre-war past.

**Icarus Went East** Sir Herbert Thompson,2013-12 In these memoirs, Herbert Thompson reflects on the two great experiences of his life: as a young fighter pilot exhilarating in the challenges of flying in the First World War and later, in the service of the Raj. The book also includes a translation of the German WWI ace, Hans Waldhausen's memoirs. The two former combatants became friends later in life.

**Aristotle East and West** David Bradshaw,2004-12-02 This book traces the development of conceptions of God and the relationship between God's being and activity from Aristotle, through the pagan Neoplatonists, to thinkers such as Augustine, Boethius and Aquinas (in the West) and Dionysius the Areopagite, Maximus the Confessor and Gregory Palamas (in the East). The result is a comparative history of philosophical thought in the two halves of

Christendom, providing a philosophical backdrop to the schism between the Eastern and Western Churches.

**East Wind Melts the Ice** Liza Dalby,2009-02-17 To read *East Wind Melts the Ice* is to slip into a time stream that is both as long and sinuous as history and as ephemeral as the present moment. Drawing inspiration from the thousand year old history of Japanese poetic diaries, and from the ancient Chinese almanac that she uses to contain her musings, Liza Dalby has accomplished the seemingly impossible task of translating the sensibility of the Heian Court of 11th century Japan into the context of contemporary America. The result is a stunning chronicle of the beauty of time passing and an evocation of the transient and whimsical nature of all things.—Ruth Ozeki, author of *My Year of Meats* and *All Over Creation* I imagine Liza Dalby writing this book in an ancient library, a lion sleeping at her side, as in the paintings of Saint Jerome. As she collects and layers arcane and fascinating pieces of knowledge, she builds her own very personal almanac packed with the wonder of loving two cultures, the intense inner life of each season, and boundless curiosity of the scholar/child. This is a book to dip in and out of throughout the year.—Frances Mayes, author of *Under the Tuscan Sun* Liza Dalby's memoir of the seasons is as fresh and captivating as springtime. A very special book.—Michael Pollan, author of *The Omnivore's Dilemma* This beautiful book awakens the senses. A journal, an almanac of the seasons, and a series of reflections on ancient Eastern Chinese and Japanese cultures, here you will find subtle observations of rain and heat, tangerines, mulberries and paulownia trees, crickets and doves forming a rich tapestry as they are woven with evocative fragments of history—stories of geishas, of salesmen who sold bulk fireflies, of the wood that was used for kimono chests, of emptiness in the tea ceremony. Like a lush garden, this book is meant to savor.—Susan Griffin, author of *The Book of the Courtesans*

**Babylon East** Marvin Sterling,2010-06-29 An important center of dancehall reggae performance, sound clashes are contests between rival sound systems: groups of emcees, tune selectors, and sound engineers. In *World Clash 1999*, held in Brooklyn, Mighty Crown, a Japanese sound system and the only non-Jamaican competitor, stunned the international dancehall community by winning the event. In 2002, the Japanese dancer Junko Kudo became the first non-Jamaican to win Jamaica's National Dancehall Queen Contest. High-profile victories such as these affirmed and invigorated Japan's enthusiasm for dancehall reggae. In *Babylon East*, the anthropologist Marvin D. Sterling traces the history of the Japanese embrace of dancehall reggae and other elements of Jamaican culture, including Rastafari, roots reggae, and dub music. Sterling provides a nuanced ethnographic analysis of the ways that many Japanese involved in reggae as musicians and dancers, and those deeply engaged with Rastafari as a spiritual practice, seek to reimagine their lives through Jamaican culture. He considers Japanese performances and representations of Jamaican culture in clubs, competitions, and festivals; on websites; and in song lyrics, music videos, reggae magazines, travel writing, and fiction. He illuminates issues of race, ethnicity, gender, sexuality, and class as he discusses topics ranging from the cultural capital that Japanese dancehall artists amass by immersing themselves in dancehall culture in Jamaica, New York, and England, to the use of Rastafari as a means of critiquing class difference, consumerism, and the colonial pasts of the West and Japan. Encompassing the reactions of Jamaica's artists to Japanese appropriations of Jamaican culture, as well as the relative positions of Jamaica and Japan in the world economy, *Babylon East* is a rare ethnographic account of Afro-Asian cultural exchange and global discourses of blackness beyond the African diaspora.

**Multicultural Picturebooks** Sylvia S. Marantz,Kenneth A. Marantz,2005 Picturebook, spelled as a single word to identify its unique qualities and to differentiate the genre from other books with illustrations, is one that tells a story either in pictures alone or in almost equal partnership with text. The picturebook has great potential for bridging the differences among us; the concept of a story is one common to all, a shared experience that sets the stage for communication. And the goal of multiculturalism is to emphasize the positive attributes of human society, the outstanding, rather than the stereotype. Because children born today will interact with people from different cultures much more than previous generations, it is important that they are taught about other cultures, starting at a young age. Multicultural picturebooks are, therefore, an excellent teaching tool for meeting this educational challenge. The picturebooks profiled are appropriate for children in grades K - 4 but can be used with older children, depending on the curriculum and the students' comprehension level. Books covering Asia and the Pacific, The Middle East, Africa, South America, North America (Native Americas, Inuit, etc.), and books specific to the immigrant experience are profiled. Each book is described in one paragraph that includes an engaging review of the story line, special features of the content, the look and style of the artwork, interior design, and layout of the book. The authors emphasize that the visual qualities of picturebooks affect their ability to tell stories about people whose values and behaviors are different from those of the reader. The analyses, therefore, used in selecting the books include not only the informational content, but also the emotional content--the feelings generated by the text and art. In choosing books for this volume, the authors have used the following criteria: ]Does the book tell an engaging story?]Do the illustrations convincingly portray and represent humans, animals, and objects?]Is the use of the media consistent?]Do the text and the pi
