Crystal Eastman Amy Aronson,2019-11-01 In 1910, Crystal Eastman was one of the most conspicuous progressive reformers in America. By the 1920s, her ardent suffragism, insistent anti-militarism, gregarious internationalism, and uncompromising feminism branded her the most dangerous woman in America and led to her exile in England. Yet a century later, her legacy in shaping several defining movements of the modern era--labor, feminism, free speech, peace--is unquestioned. A founder of the ACLU and Woman's Peace Party, Eastman was a key player in a constellation of high-stakes public battles from the very beginning of her career. She first found employment investigating labor conditions--an endeavor that would produce her iconic publication, *Work Accidents and the Law*, a catalyst for the first workers' compensation law. She would go on to fight for the rights of women, penning the Equal Rights Amendment with Alice Paul. As a pacifist in the First World War era, she helped to found the Civil Liberties Bureau, which evolved into the ACLU. With her brother, the writer Max Eastman, she frequented the radical, socialist circles of Greenwich Village. She was also a radical of the politics of private life, bringing attention to cutting-edge issues such as reproductive rights, wages for housework, and single motherhood by choice. As the first biography of Eastman, this book gives renewed voice to a woman who spoke freely and passionately in debates still raging today -- gender equality and human rights, nationalism and globalization, political censorship and media control, worker benefits and family balance, and the monumental questions of war, sovereignty, and freedom.

*Gay Guerrilla* Renée Levine Packer, Mary Jane Leach, 2015 A compelling portrait of composer-performer Julius Eastman's enigmatic and intriguing life and music.

**Organizations for People** Michael O'Malley, William F. Baker, 2019-10-22 For many years, there has been quite a bit of talk about employee engagement as a means to lift corporate profits and reduce absenteeism and turnover. However, this talk has not produced better companies. In fact, the evidence shows that incivility and instances of employee abuse are getting worse. Additionally, with profit as the primary goal of organizations, most employees view any benign treatment they receive as a secondary convenience that will dissipate once corporate fortunes decline. That is, many employees still believe they are expendable in the eyes of their employers. This book turns that equation around by examining the practices of twenty-one companies that put the interests and needs of employees first. Profits are necessary but insufficient for corporate health. The companies featured in this book see it as their mission to offer people a better, more fulfilling life for themselves, and assist with that holistic journey by providing the organizational elements people need to reach their potential. They do this first by creating respectful and kind cultures that treat every person as an equal, sentient partner in the success of the company. Second, they diligently work to satisfy people's basic needs: financial security, belonging, meaning, autonomy, self-acceptance, self-confidence, and growth. The result is a web of fellow-feeling: earnest affection among people who feverishly work to live up to both the high standards of the institution and their obligations to one another. By providing a place where people can do their best work and thrive as individuals and as members of a cohesive community, everyone profits.

**Camera** Todd Gustavson, 2009 Few inventions have had as powerful an influence as the camera, and few modes of expression have enjoyed the enduring artistic, scientific, and popular appeal

of photography. We are so focused on the products of the camera, the indelible images marking our lives and times, that it's easy to forget the instrument itself has a history. Now that history has been comprehensively traced for photography buffs and amateurs alike by Todd Gustavson, Curator of Technology at George Eastman House. In this ... volume, hundreds of new and archival images from George Eastman House bring the story to life and provide an unmatched reference source. Vast in its scope, this ... book is an in-depth visual and narrative look at the camera, and consequently photography itself--Jacket.

500 Cameras Todd Gustavson, George Eastman House, 2011 Not only the camera produced incredible art, it can be also considered a work of art itself. Through images of 500 cameras used from the inception of this medium to the present day, this collection tells remarkable story that will appeal to professionals and amateurs alike. (Editor).
