The Color Wizard (HC) Barbara Brenner, Leo & Diane Dillon, 2012-01-10 About The Bank Street Ready-To-Read Series More than seventy years of educational research and innovative teaching have given the Bank Street College of Education the reputation as America's most trusted name in early childhood education. Because no two children are exactly alike in their development, we have designed the Bank Street Ready-to-Read series in three levels to accommodate the individual stages of reading readiness of children ages four through eight. • Level 1: Getting Ready To Read– (Pre-K to Grade 1) Books are perfect for reading aloud with children who are getting ready to read or are just beginning to read words or phrases. • Level 2: Reading Together–(Grades 1 to 3) Books are written especially for children who are on their way to reading independently but who may need help. • Level 3: I Can Read It Myself–(Grades 2 to 3) Books are designed for children able to read on their own. They also can be enjoyed as read-alouds. Our three levels make it easy to select the books most appropriate for a child's development and enable him or her to grow with the series step by step. The Bank Street Ready-to-Read books also overlap and reinforce each other, further encouraging the reading process. We feel that making reading fun and enjoyable is the single most important thing that you can do to help children become good readers. And we hope you'll be a part of Bank Street's long tradition of learning through sharing. –The Bank Street College of Education THE COLOR WIZARD Children will love laughing along with the toe-tapping verse and magical artwork of this easy-to-read page turner as Wizard Gray paints his planet from castle door to sky in every color of the rainbow.

How to Be a Color Wizard: Forage and Experiment with Natural Art Making Jason Logan,2024-09-10 In a bountiful book combining art and chemistry, a celebrated ink maker invites kids to become color wizards--by foraging and transforming natural materials to make their own paint and artistic creations. In this book you will find secret recipes, magic formulas, and wild experiments that will delight your friends, intimidate your enemies, and turn

you into a color wizard. What colors might await in a leafy forest, a berry-stained back alley, a seaweedy beach, or even the dark corners of an ordinary fridge? With this book as a guide, curious young wizards can make natural confetti, unlock the hidden color power inside a leaf, and craft a paintbrush wand. They'll brew magic potions from beets and acorn caps to produce their own colors, from the darkest black to the palest pink to invisible ink, then share their discoveries with friends, family, and the whole color-hungry human race. With whimsy and infectious enthusiasm, master ink maker Jason Logan explains the science of color while presenting quests, recipes, and hands-on activities using materials kids can find in their own homes and neighborhoods. Featuring both photographs and the author's own gorgeous homemade-ink illustrations, *How to Be a Color Wizard* is an ideal blend of art and science--plus a little bit of magic.
