Hollywood Censored Gregory D. Black,1994 After a series of sex scandals rocked the film industry in 1922, movie moguls hired Will Hays to clear the image of movies. Hays tried a variety of ways to regulate movies before adopting what became known as the production code. Written in 1930 by a St Louis priest, the code stipulated that movies stress proper behaviour, respect for government, and 'Christian values'. The Catholic Church reinforced these efforts by launching its Legion of Decency in 1934. Intended to force Hays and Hollywood to censor films, the Legion of Decency engineered the appointment of Joseph Breen as head of the Production Code Administration. For the next three decades, Breen, Hays, and the Catholic Legion of Decency virtually controlled the content of all Hollywood films.

British Modernism and Censorship Celia Marshik,2006-07-06 Government censorship had a profound impact on the development of canonical modernism and on the public images of modernist writers. Celia Marshik argues that censorship can benefit as well as harm writers and the works they create in response to it. She weaves together histories of official and unofficial censorship, of individual writers and their relationships to such censorship and of British modernism. Throughout, Marshik draws on an extraordinary range of evidence, including the files of government agencies and social purity organisations. She analyses how works were written, revised, published and performed in relation to this complex web of social forces. Chapters of Dante Gabriel Rossetti, Bernard Shaw, Virginia Woolf, James Joyce and Jean Rhys demonstrate that by both reacting against and complying with the forces of repression, writers reaped personal and stylistic benefits for themselves and for society at large.

Censorship across Borders Alberto Lázaro,Catherine O'Leary,2011-07-12 This volume brings together twelve essays which explore European censorship of English literature in the last century. Taking into consideration the various social, political and historical contexts in which literary controls were imposed and the extent to which they were determined by national and international concerns, these essays comment on political and moral censorship, self-censorship, and the role of the translator as censor. Besides systematic state control, other hidden and insidious forms of censorship are also surveyed in the essays. This study considers why certain works and authors, many of them now regarded as canonical, were targeted in various states and often under opposing ideologies, such as those dominated by conservative Catholic morality and those governed by communism or socialism. The essays contain previously unpublished material, cover a wide range of authors – including Beckett, Eliot, Joyce and Orwell – and analyse diverse censorship systems operating across Europe, thus serving as a useful comparative resource. Despite the variety of structures of suppression, the study shows that certain common practices can be discerned across national borders and that general conclusions can be drawn about the complex and ambiguous nature of the state's relationship with culture and about the immediate and long-term impact of censorship, not only on the author and publisher but on society as a whole. Finally, the essays are also significant for what they tell us about the survival of literature, despite the best efforts of the censors.

Dearest Kitty Kathryn Judkins; Elbert Judkins,2014-07-21 Dearest Kitty is a non-fiction book of letters written from a sailor, Elbert Bert Judkins, to his girl back home, Kathryn Kitty Kimzey during World War II. Kathryn kept all Bert's letters their entire married life and when Bert passed away in 2008, she got them out and began reading them. She worked for several years compiling them into manuscript format adding bits of her life, history, thoughts and feelings between the letters. Kathryn passed away in 2012 without seeing her manuscript in print. Her children have followed through with publication so that this bit of history will be around for Bert and Kathryn's children, grandchildren, and great-grandchildren to cherish.

Censored Hollywood Frank Miller,1994 Sex and violence have been part of films right from the start. Guns were brandished in the first widely-viewed movie, The Great Train Robbery. Jean Harlow, Bette Davis, and Barbara Stanwyck are a few of the stars whose early roles, while modest by today's standards, garnered backlash from critics and the public alike. Here is the history of Hollywood's notorious Production Code, the film industry's attempts at self-regulation, and the development of the present-day rating system. Examines how film censorship reflects the morals, sexuality, and politics prevalent in society during each decade of the past century, and explores how violence has replaced sex as the target of censorship today. Emma's certain her flighty but kind-hearted sister-in-law has been framed. But who by? And why? From spiteful rivals to jealous boyfriends, the suspects are numerous. But as Emma investigates, she begins to untangle a deadly plot – and there's something Kitty's not telling her . . .
