Email, SMS, MMS Carmen Frehner, 2008 Are email and SMS forms of writing or speech? This question cannot be answered easily because their registers are hybrid; they make use of both orality and literacy. This book offers an accurate placement of emails and text messages along the written/spoken continuum. Emails and text messages are also compared to letters and phone calls while a closer comparison of SMS and telegrams shows how far text messaging can be regarded as a renaissance of telegrams. Attention is further paid to multimedia messaging and questions concerning the proportion of image to text, picture categories as well as MMS dialogues are approached. The book finally comments on linguistic changes and deals with the German language community's concern with regard to the increasing use of Anglicisms.

Using Social Media for Global Security Hugh Brooks, Ravi Gupta, 2013-01-16 Essential reading for cybersecurity professionals, security analysts, policy experts, decision-makers, activists, and law enforcement! During the Arab Spring movements, the world witnessed the power of social media to dramatically shape events. Now this timely book shows government decision-makers, security analysts, and activists how to use the social world to improve security locally, nationally, and globally--and cost-effectively. Authored by two technology/behavior/security professionals, *Using Social Media for Global Security* offers pages of instruction and detail on cutting-edge social media technologies, analyzing social media data, and building crowdsourcing platforms. The book teaches how to collect social media data and analyze it to map the social networks of terrorists and sex traffickers, and forecast attacks and famines. You will learn how to coalesce communities through social media to help catch murderers, coordinate disaster relief, and collect intelligence about drug smuggling from hard-to-reach areas. Also highlighting dramatic case studies drawn from the headlines, this crucial book is a must-read. Illustrates linguistic, correlative, and network analysis of OSINT Examines using crowdsourcing technologies to work and engage with populations globally to solve security problems Explores how to ethically deal with social media data without compromising people's rights to privacy and freedom of expression Shows activists fighting against oppressive regimes how they can protect their identities online If you're responsible for maintaining local, national or global security, you'll want to read *Using Social Media for Global Security*.

Management Information Systems : Made Easy Dr. Padmakar Shahare I Dr Ajay Pethe I Dr. Mukul Burghate, Rapid globalization coupled with the growth of the Internet and Information Technology (IT) has led to a complete transformation in the way businesses or organizations function today. This has not only affected the management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer-driven and e-business is gaining popularity. Traditional means of communication/correspondence have given way to online dealings, e-mails and chats. With such a radical shift in the approach to doing business, came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well-structured system used by organizations for the collection, storage, processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources: people, technology and information or decision-making. It is in this context, a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for in-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website www.wikipedia.com and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful. Readers can email their queries and doubts to our authors on jsp10ng@gmail.com. We shall be glad to help you immediately. Authors: Dr. Padmakar Shahare I Dr Ajay Pethe I Dr. Mukul Burghate

Pro SMS 2003 Rod Kruetzfeld, 2007-02-01 Microsoft's Systems Management Server (SMS) allows network administrators to provide software updates to users quickly and cost-effectively from a single machine. The administrator can update every user in a network at once, or choose a group of individuals - even a single user. All this can be accomplished from the administrator's computer: no need to visit everyone's computer to make changes, as in days of old. The SMS 2003 Field Guide addresses real-world problems and solutions, based on the broad consulting experience of the author. He knows where network administrators are liable to make mistakes, and offers help at their level.

Evaluation of Some SMS Verification Services and Virtual Credit Cards Services for Online Accounts Verifications Dr. Hidaia Mahmood Alassouli, 2020-11-09 Today a lot of sites require SMS verification code for registration account. If you do not want to use your personal phone number to verify or activate account, use virtual phone number. Thus, there is no need for a SIM card in your mobile phone, only need access to the Internet. You can receive text messages via WEB interface or API. There are a lot of websites that offer temporary free, as well as private numbers from around the world to receive activation codes and SMS confirmations online. Their private numbers are intended for two types of SMS reception: disposable virtual numbers and numbers for rent. You can receive SMS online and use the numbers to sign up or verify for any services like Telegram, Facebook, Google, Gmail, WhatsApp, Viber, Line, WeChat, KakaoTalk etc. In the first part of the book I will mention the best websites that offer virtual phone numbers from around the world to receive activation codes and SMS confirmations online. The VCC is a short form of Virtual Credit Card that can be used for online verification, PayPal, EBay, Amazon and Google Adwords account verification. The second part of the book will guide you to how to obtain virtual debit/credit cards for sake of online accounts verification. There are bulk numbers of banks and debit/credit cards issuers that offer virtual or physical debit/credit card. But I will not go through any of them as I covered them in a book I published previously. I will only concentrate on some quick methods to obtain debit/credit cards for sake of online account verification. I will briefly talk about generating virtual debit/credit cards namso gold CC BIN generator for verification of some online services. Then I will talk about paypalvccs.com website that offers Virtual Visa Card for sake of online accounts verification. At the end I will mention how to get USA shipment address through Viabox.com website, and I will list some of the free VPN Services I commonly use. The book consists from the following parts: 1. Some free websites that can be used to receive SMS online using numbers from some countries. 2. Some paid (not free) websites that can be used to receive SMS online using numbers from some countries. 3. Getting free phone number in US or Canada and Other Countries. 4. Best websites that offer SMS verification, sending SMS and renting number services. 5. Generating some virtual debit/credit cards through BIN Codes for verification of some online services. 6. Paypalvccs.com website that offer Virtual Visa Card for sake of account verifications. 7. Getting USA shipment address through Viabox.com. 8. Some of the free VPN Services I commonly use.

Media Space 20+ Years of Mediated Life Steve Harrison, 2009-06-04 Media Space: 20+ Years of Mediated Life is loosely divided into three different, but interconnected, approaches to media space research. Each part opens with an introduction that lays out how readers can best approach the book, and provides a basic guide to the theory and research literature, technological developments and other notable events to help contextualize the book. The 'social' approach uses the rhetoric and methods familiar to a CSCW audience, but moves into actual situations that involve close working bonds, broken trust, shared joy, community building, interpersonal tension, anxiety etc. The section on 'spatial' approaches guides the reader through an intellectual landscape of spatiality, the 'communications' part is a field guide to sense-making in the as-lived mediated condition, demonstrating that media space sense-making combines an understanding of in-the-moment alongside sense made of existence in the world and reflecting upon it.
